AGENCY: Office of Policy, Department of Energy.

ACTION: Notice of availability of interim report and announcement of workshops.

SUMMARY: This notice announces the availability of *The Interim Report of the U.S. Department of Energy's Power Outage Study Team: Findings From the Summer of 1999* as well as a series of technical workshops to be held seeking comments on issues identified in the report. In the report the team releases the results of its investigation into significant electric power outages and other power disturbances that occurred in various parts of the country during the summer of 1999. The team is seeking input on issues identified in the report in workshops, over the Internet, and by mail. The team will then consider these comments in developing recommendations in its final report to the Secretary on what role the Federal government should play in addressing ways to avoid future outages. The final report is expected to be issued in March of 2000 and will be the focus of policy-level discussions among industry leaders and local and state government officials.

DATES: The Power Outage Study Team has planned three workshops for those wishing to comment on the issues identified in the report. The workshop schedule is as follows:

There will also be an opportunity at each workshop for non-registrants to make recommendations. Those who cannot attend these workshops may also send their comments on the report to the Power Outage Study Team through January 31, 2000 via the Internet address listed previously or by mail to: Paul Carrier, PO-21, U.S. Department of Energy, 1000 Independence Avenue, S.W., Washington, DC 20585.

FOR FURTHER INFORMATION CONTACT: For copies of the report you may contact the Department of Energy's Public Reading Room, 1000 Independence Ave. S.W., Washington, DC 20585, on (202) 586-3142. SUPPLEMENTARY INFORMATION: During the summer of 1999, several heat waves in June and July led to record peak demand for power and capacity shortages. The heavy demand for power put enormous strains on many electric utilities and resulted in a series of power outages in Chicago, Texas,

Louisiana, Arkansas, Mississippi, the Delmarva Peninsula, New Jersey, New York City, and Long Island, leaving millions of people without power for some period of time.
