Remedial Education Provisions of the Fair Labor Standards Act

I. Background

Under the Fair Labor Standards Act (FLSA), employees who lack a high school diploma or whose reading level or basic skills are at or below the eighth grade, may be required by their employers to attend up to 10 hours per week of remedial education. Employees who are subject to the overtime provisions of the FLSA ordinarily must be paid one and one-half times their regular rate of pay for all hours worked over 40 in each workweek. However, the additional hours devoted to such remedial education would not have to be compensated at the same time and one-half overtime rate. However, employees must receive compensation at their regular rate of pay for time spent receiving such remedial education. Employers wishing to utilize the partial overtime exemption for such employees must record the hours of employees spent in remedial education.
