*The Standards Council of Canada (SCC) voted to end its Laboratory Accreditation Program for Substance Abuse (LAPSA) effective May 12, 1998. Laboratories certified through that program were accredited to conduct forensic urine drug testing as required by U.S. Department of Transportation

(DOT) regulations. As of that date, the certification of those accredited Canadian laboratories will continue under DOT authority. The responsibility for conducting quarterly performance testing plus periodic on-site inspections of those LAPSA-accredited laboratories was transferred to the U.S. DHHS, with the DHHS' National Laboratory Certification Program (NLCP) contractor continuing to have an active role in the performance testing and laboratory inspection processes. Other Canadian laboratories wishing to be considered for the NLCP may apply directly to the NLCP contractor just as U.S. laboratories do.

Upon finding a Canadian laboratory to be qualified, the DHHS will recommend that DOT certify the laboratory (**Federal Register**, 16 July 1996) as meeting the minimum standards of the "Mandatory Guidelines for Workplace Drug Testing" (59 FR, 9 June 1994, Pages 29908-29931). After receiving the DOT certification, the laboratory will be included in the monthly list of DHHS certified laboratories and participate in the NLCP certification maintenance program.

Notice of Availability of a Reconsideration of an Environmental Assessment/Habitat Conservation Plan for Issuance of an Incidental Take Permit for the Construction and Operation of a Mixed-Use Development on a Portion of the 216-Acre Hart Triangle Property, Travis County, Texas.

SUMMARY: GDF Realty Investments Ltd. and Purcell Investments, L.P. (Landowners; Applicants) had applied to the U.S. Fish and Wildlife Service (Service) for seven incidental take permits for the Hart Triangle Property pursuant to Section 10(a) of the Endangered Species Act (Act). These permits were denied because the applications did not meet the statutory criteria for issuance. The EA/HCP made available by this notice is a draft EA/HCP that encompasses the entire area that was covered by the seven original permit applications. This EA/HCP was prepared by the Service based on information provided by the Applicants and other information acquired by the Service. The Applicants have been assigned permit number TE-027690-0. The permit, which is for a period of 30 years, would authorize the incidental
