

using for involving the public in the reassessment of pesticide tolerances under the Food Quality Protection Act (FQPA), and the reregistration of individual organophosphate pesticides under the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA). The pilot public participation process was developed as part of the EPA-USDA Tolerance Reassessment Advisory Committee (TRAC), which was established in April 1998, as a subcommittee under the auspices of EPA's National Advisory Council for Environmental Policy and Technology. A goal of the pilot public participation process is to find a more effective way for the public to participate at critical junctures in the Agency's development of organophosphate pesticide risk assessments and risk management decisions. EPA and USDA began implementing this pilot process in August 1998, to increase transparency and opportunities for stakeholder consultation. The documents being released to the public through this notice provide information on the revisions that were made to the dicotophos preliminary risk assessments, which was released to the public September 2, 1999 (64 FR 170) (FRL-6380-9) through a notice in the **Federal Register**.

In addition, this notice starts a 60-day public participation period during which the public is encouraged to submit risk management proposals or otherwise comment on risk management for dicotophos. The Agency is providing an opportunity, through this notice, for interested parties to provide written risk management proposals or ideas to the Agency on the chemical specified in this notice. Such comments and proposals could address ideas about how to manage dietary, occupational, or ecological risks on specific dicotophos use sites or crops across the United States or in a particular geographic region of the country. To address dietary risk, for example, commenters may choose to discuss the feasibility of lower application rates, increasing the time interval between application and harvest ("pre-harvest intervals"), modifications in use, or suggest alternative measures to reduce residues contributing to dietary exposure. For

occupational risks, commenters may suggest personal protective equipment or technologies to reduce exposure to workers and pesticide handlers. For ecological risks, commenters may suggest ways to reduce environmental exposure, e.g., exposure to birds, fish, mammals, and other non-target organisms. EPA will provide other opportunities for public participation and comment on issues associated with the organophosphate pesticide tolerance reassessment program. Failure to participate or comment as part of this opportunity will in no way prejudice or limit a commenter's opportunity to participate fully in later notice and comment processes. All comments and proposals must be received by EPA on or before August 14, 2000 at the addresses given under the "ADDRESSES" section. Comments and proposals will become part of the Agency record for the organophosphate pesticide specified in this notice.

#### ENVIRONMENTAL PROTECTION AGENCY

[OPP-66277; FRL-6589-9]

#### Notice of Receipt of Requests to Voluntary Cancel Certain Pesticide Registrations

**AGENCY:** Environmental Protection Agency (EPA).

**ACTION:** Notice.

**SUMMARY:** In accordance with section 6(f)(1) of the Federal Insecticide, Fungicide and Rodenticide Act (FIFRA), as amended, EPA is issuing a notice of receipt of requests by registrants to voluntarily cancel certain pesticide registrations.

**DATES:** Unless a request is withdrawn by, December 11, 2000, orders will be

issued canceling all of these registrations.

**FOR FURTHER INFORMATION CONTACT:** By mail: James A. Hollins, Office of Pesticide Programs (7502C), Environmental Protection Agency, 1200 Pennsylvania Avenue, N.W., Washington, DC 20460. Office location for commercial courier delivery, telephone number and e-mail address: Rm. 224, Crystal Mall No. 2, 1921 Jefferson Davis Highway, Arlington, VA 22202, (703) 305-5761; e-mail: hollins.james@epa.gov.

#### SUPPLEMENTARY INFORMATION:

##### I. General Information

###### A. Does this apply to me?

This action is directed to the public in general. Although this action may be of particular interest to persons who produce or use pesticides, the Agency has not attempted to describe all the specific entities that may be affected by this action. If you have any questions regarding the information in this notice, consult the person listed in the FOR FURTHER INFORMATION CONTACT.

###### B. How can I get additional information or copies of support documents?

1. *Electronically.* You may obtain electronic copies of this document and various support documents are available from the EPA Home Page at the **Federal Register**-Environmental Documents entry for this document under "Laws and Regulations" (<http://www.epa.gov/fedrgstr/>).

2. *In person.* Contact James A. Hollins at 1921 Jefferson Davis Highway, Crystal Mall 2, Rm. 224, Arlington, VA, telephone number (703) 305-5761. Available from 7:30 a.m. to 4:45 p.m., Monday thru Friday, excluding legal holidays.

##### II. What Action is the Agency Taking?

This notice announces receipt by the Agency of applications from registrants to cancel some 60 pesticide products registered under section 3 or 24 of FIFRA. These registrations are listed in sequence by registration number (or company number and 24 number) in the following Table 1.

TABLE 1.—REGISTRATIONS WITH PENDING REQUESTS FOR CANCELLATION

Registration No.	Product Name	Chemical Name
WA-00-0002 .... 000016-00121	Dragon Sevin-Dipel Insect & Worm Dust	Gas cartridge (as a device for burrowing animal control) <i>Bacillus thuringiensis</i> subsp. <i>kurstaki</i> 1-Naphthyl- <i>N</i> -methylcarbamate
000239-00568	Ortho Home Orchard Spray	Methoxychlor (2,2-bis( <i>p</i> -methoxyphenyl) -1,1,1-trichloroethane) <i>O,O</i> -Dimethyl phosphorodithioate of diethyl mercaptosuccinate <i>cis-N</i> -Trichloromethylthio-4-cyclohexene-1,2-dicarboximide

Unless a request is withdrawn by the registrant within 180 days (30 days when requested by registrant) of publication of this notice, orders will be issued canceling all of these registrations. Users of these pesticides or anyone else desiring the retention of a registration should contact the applicable registrant during this comment period.

The following Table 2, includes the names and addresses of record for all registrants of the products in Table 1, in sequence by EPA company number:

### III. What is the Agency's Authority for Taking this Action?

Section 6(f)(1) of FIFRA provides that a registrant of a pesticide product may at any time request that any of its pesticide registrations be amended to delete one or more uses. The Act further provides that, before acting on the request, EPA must publish a notice of

receipt of any such request in the **Federal Register**. Thereafter, the Administrator may approve such a request.

### IV. Loss of Active Ingredient

Unless the request for cancellation is withdrawn, one pesticide active ingredient will no longer appear in any

registered products. Those who are concerned about the potential loss of this active ingredient for pesticidal use are encouraged to work directly with the registrant to explore the possibility of withdrawing their request for cancellation. The active ingredient is listed in the following Table 3, with the EPA company and CAS number.

TABLE 3.—DISAPPEARING ACTIVE INGREDIENT

CAS No.	Chemical Name	EPA Company No.
Unknown .....	<i>Bacillus thuringiensis</i> subsp. <i>kurstaki</i> CryIA	069575

### V. Procedures for Withdrawal of Request

Registrants who choose to withdraw a request for cancellation must submit such withdrawal in writing to James A. Hollins, at the address given above, postmarked before December 11, 2000. This written withdrawal of the request for cancellation will apply only to the applicable 6(f)(1) request listed in this notice. If the product(s) have been subject to a previous cancellation action, the effective date of cancellation and all other provisions of any earlier cancellation action are controlling. The withdrawal request must also include a commitment to pay any reregistration fees due, and to fulfill any applicable unsatisfied data requirements.

### VI. Provisions for Disposition of Existing Stocks

The effective date of cancellation will be the date of the cancellation order. The orders effecting these requested cancellations will generally permit a registrant to sell or distribute existing stocks for 1 year after the date the cancellation request was received by the Agency. This policy is in accordance with the Agency's statement of policy as prescribed in **Federal Register** (56 FR 29362) June 26, 1991; (FRL 3846-4). Exception to this general rule will be made if a product poses a risk concern, or is in noncompliance with reregistration requirements, or is subject to a data call-in. In all cases, product-

specific disposition dates will be given in the cancellation orders.

Existing stocks are those stocks of registered pesticide products which are currently in the United States and which have been packaged, labeled, and released for shipment prior to the effective date of the cancellation action. Unless the provisions of an earlier order apply, existing stocks already in the hands of dealers or users can be distributed, sold or used legally until they are exhausted, provided that such further sale and use comply with the EPA-approved label and labeling of the affected product(s). Exceptions to these general rules will be made in specific cases when more stringent restrictions on sale, distribution, or use of the products or their ingredients have already been imposed, as in Special Review actions, or where the Agency has identified significant potential risk concerns associated with a particular chemical.

### ENVIRONMENTAL PROTECTION AGENCY

[OPP-34221; FRL-6556-5]

### Pesticide Reregistration Performance Measures and Goals

**AGENCY:** Environmental Protection Agency (EPA).

**ACTION:** Notice.

**SUMMARY:** This notice announces EPA's progress in meeting its performance measures and goals for pesticide reregistration during 1999. The Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA) requires EPA to publish this information annually. The notice discusses the integration of tolerance reassessment with the reregistration process, and describes the status of various regulatory activities associated with reregistration and tolerance reassessment. The notice gives total numbers of chemicals and products reregistered, tolerances reassessed, Data Call-Ins issued, and products registered under the "fast-track" provisions of FIFRA. Finally, this notice contains the schedule for completion of activities for specific chemicals during the next two fiscal years.

**DATES:** This notice is not subject to a formal comment period. Nevertheless, EPA welcomes input from stakeholders and the general public. Written comments, identified by the docket
