NOTIFICATION PROCEDURES:

If you wish to determine whether a record exists regarding you in this system of records, contact the system manager. Your request must meet the requirements of the Department's Privacy Act regulations at 34 CFR 5b.5, including proof of identity. You may present your request in person at any of the locations identified for this system of records or address your request to the system manager at the address listed above.

RECORD ACCESS PROCEDURES:

If you wish to access a record regarding you in this system of records, contact the system manager. Your request must meet the requirements of the Department's Privacy Act regulations at 34 CFR 5b.5, including proof of identity. You may present your request in person at any of the locations identified for this system of records or address your request to the system manager at the address listed above.

CONTESTING OF RECORDS PROCEDURES:

If you wish to contest a record regarding you in this system of records, contact the system manager. Your request must meet the requirements of the Department's Privacy Act regulations at 34 CFR 5b.7, including proof of identity. You may present your request in person at any of the locations identified for this system of records or address your request to the system manager at the address listed above.

RECORD SOURCE CATEGORIES:

Information is provided by Department employees who apply for a child care subsidy and from the child care providers.

SYSTEM EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None.

DEPARTMENT OF ENERGY

DOE Implementation Plan for Recommendation 2000–1 of the Defense Nuclear Facilities Safety Board, Stabilization and Storage of Nuclear Material

AGENCY: Department of Energy. **ACTION:** Notice.

SUMMARY: The Defense Nuclear Facilities Safety Board published Recommendation 2000–1, concerning the stabilization and storage of nuclear material, on January 26, 2000 (65 FR 4237). Under section 315(e) of the Atomic Energy Act of 1954, as amended, 42 U.S.C. 2286d(e), the Department of Energy must transmit an implementation plan on Recommendation 2000–1 to the Defense Nuclear Facilities Safety Board after acceptance of the Recommendation by the Secretary. The Department's implementation plan was sent to the Safety Board on June 8, 2000, and is available for review in the Department of Energy Public Reading Rooms.

ADDRESSES: Send comments, data, views, or arguments concerning the

ADDRESSES: Send comments, data, views, or arguments concerning the implementation plan to: Department of Energy, 1000 Independence Avenue, SW., Washington, DC 20585.

FOR FURTHER INFORMATION CONTACT: Mr. David Huizenga, Deputy Assistant Secretary for Integration and Disposition, Environmental Management, Department of Energy, 1000 Independence Avenue, SW., Washington, DC 20585.

Issued in Washington, D.C., on June 14, 2000.

Mark B. Whitaker, Jr.,

Departmental Representative to the Defense Nuclear Facilities Safety Board.

The Secretary of Energy

June 8, 2000.

The Honorable John T. Conway, Chairman, Defense Nuclear Facilities Safety Board, 625 Indiana Avenue, NW, suite 700, Washington, DC. 20004.

Dear Mr. Chairman: Enclosed is Revision 3 of the Department's Implementation Plan for remediating the nuclear materials identified in Recommendations 94–1 and 2000–1. This revision describes the current status of, and changes to, the Department's plans for stabilizing the nuclear materials, with significant changes included for the Hanford Spent Nuclear Fuel Project, Savannah River Site, Rocky Flats Environmental Technology Site, Los Alamos National Laboratory, and Lawrence Livermore National Laboratory. These plans and any changes to previous commitments have been discussed with members of your staff.

The enclosed plan includes discussion of all of the actions taken to date to address the urgent safety issues described in the original Recommendation 94–1. It also sets forth the Department's plans and commitments for the remaining stabilization activities called for in Recommendation 2000–1. Accordingly, the Department proposes closure of Recommendation 94–1 as we continue to track our stabilization activities under Recommendation 2000–1.

The Department is currently working closely with the Los Alamos National Laboratory to establish a satisfactory path forward for stabilization of its remaining 94–1 legacy inventory. Los Alamos completed stabilization of all of their high-risk vault items in July 1998, and stabilization of the remaining 17 priority items stored in

gloveboxes is being actively pursued. Five interim commitments have been established to monitor the preparation of an integrated plan with milestones for the stabilization and discard of those items and all remaining 94–1 legacy material at Los Alamos. This plan will be available by October 31, 2000.

The Department acknowledges that the enclosed revision reflects significant delays to some of our previously approved stabilization commitments, particularly in the area of stabilization activities at the Savannah River Site. As I described in my March 13, 2000, response to your Recommendation 2000-1, these delays result from a variety of interrelated factors that include funding priorities as well as technical and management issues. In developing this plan revision, however, we have been careful to order the activities with the objective of achieving early risk reduction. We recognize the importance of these projects and will work to maximize our efficiency and attain every possible schedule acceleration.

We continue to closely track progress on all stabilization commitments and are pleased to be able to continue to show measurable progress at several sites. Of note is the completion of all remaining 94–1 activities at the Idaho National Engineering and Environmental Laboratory. We will keep you and your staff apprised of our progress in meeting the commitments at the remaining six sites. If you have any questions, please contact me or have your staff contact Mr. David Huizenga at (202) 586–5151.

Yours sincerely, Bill Richardson.

DEPARTMENT OF ENERGY

Notice of Availability of Solicitation

AGENCY: Idaho Operations Office, Department of Energy.

ACTION: Notice of availability of solicitation—Steel Visions of the future.

SUMMARY: The U.S. Department of Energy (DOE), Idaho Operations Office, is seeking applications for cost-shared research and development of technologies which will reduce energy consumption, enhance economic competitiveness, and reduce environmental impacts of the Steel Industry. The research is to address research priorities identified by the Steel Industry in Chapters 2, 3, and 4 of the Steel Industry Technology Roadmap.

DATES: The deadline for receipt of applications is 3 p.m. MST on September 14, 2000.

ADDRESSES: Applications should be submitted to: Procurement Services Division, U.S. DOE, Idaho Operations

Office, Attention: Carol Van Lente [DE–PS07–00ID13964], 850 Energy Drive, MS 1221, Idaho Falls, Idaho 83401–1563

FOR FURTHER INFORMATION CONTACT:

Carol Van Lente, Contract Specialist, at vanlencl@id.doe.gov.

SUPPLEMENTARY INFORMATION: The statutory authority for this program is the Federal Non-Nuclear Energy Research & Development Act of 1974 (P.L. 93-577). Approximately \$5,000,000 to \$10,000,000 in federal funds is expected to be available to fund the first year of selected research efforts. DOE anticipates making two to five cooperative agreement awards each with a duration of five years or less. Collaborations between industry, university, and National Laboratory participants are encouraged. The solicitation is available in full text via the Internet at the following address: http://www.id.doe.gov/doeid/psd/procdiv.html.

Issued in Idaho Falls on June 13, 2000. **R.J. Hovles,**

Director, Procurement Services Division.

DEPARTMENT OF ENERGY

Secretary of Energy Advisory Board; Meeting Cancellation

AGENCY: Department of Energy.

ACTION: Notice of meeting cancellation until further notice.

SUMMARY: This notice announces the cancellation until further notice of the open meeting of the Secretary of Energy Advisory Board's Laboratory Operations Board (LOB).

NAME: Secretary of Energy Advisory Board—Laboratory Operations Board.

DATES: The meeting scheduled for Wednesday, June 21, 2000, 8:30 a.m.—3:15 p.m., Eastern Daylight Time has been cancelled until further notice.

ADDRESSES: Spallation Neutron Source Project Building, Room 101A, 701 Scarboro Road, Oak Ridge National Laboratory, Oak Ridge, Tennessee 37831.

FOR FURTHER INFORMATION CONTACT:

Betsy Mullins, Executive Director, or Laurie Keaton, LOB Staff Director, Office of Secretary of Energy Advisory Board (AB–1), U.S. Department of Energy, 1000 Independence Avenue, SW., Washington, DC 20585, (202) 586– 7162 or (202) 586–6279 (fax).

Issued at Washington, D.C., on June 14, 2000.

Carol A. Kennedy,

Acting Advisory Committee Management Officer.

DEPARTMENT OF ENERGY

Office of Fossil Energy

[FE Docket No. 00-27-NG, et al.]

Texaco Natural Gas Inc., et al.; Orders Granting, Amending and Vacating Authority To Import and Export Natural Gas, Including Liquefied Natural Gas

AGENCY: Office of Fossil Energy, DOE. **ACTION:** Notice of Orders.

SUMMARY: The Office of Fossil Energy (FE) of the Department of Energy gives notice that during April 2000, it issued Orders granting, amending, and vacating authority to import and export natural gas, including liquefied natural gas. These Orders are summarized in the attached appendix and may be found on the FE web site at http:// www.fe.doe.gov, or on the electronic bulletin board at (202) 586-7853. They are also available for inspection and copying in the Office of Natural Gas & Petroleum Import & Export Activities, Docket Room 3E-033, Forrestal Building, 1000 Independence Avenue, SW., Washington, DC 20585, (202) 586-9478. The docket room is open between the hours of 8 a.m. and 4:30 p.m., Monday through Friday, except Federal holidays.

Issued in Washington, DC, on June 8, 2000. **John W. Glynn**,

Manager, Natural Gas Regulation, Office of Natural Gas & Petroleum Import & Export Activities, Office of Fossil Energy.
