

II. 2001 CFSAN Program Priorities

FDA is requesting comments concerning the establishment of program priorities in CFSAN for FY 2001. The input will be used to develop CFSAN's 2001 workplan. The workplan will set forth the Center's program priorities for October 1, 2000, through September 30, 2001. FDA intends to make the 2001 workplan available in October 2000.

The format of the 2001 workplan will be similar to the 2000 workplan. Moreover, FDA expects there will be considerable continuity between the 2000 and 2001 workplans. For example, a broad program area targeted for enhancement in the 2000 plan is improving the safety of imported food; five specific activities are identified to implement the Imported Foods Action Plan. As the initiative to prevent importation of unsafe food requires a multiyear effort, ensuring the safety of imported food will continue to be a high priority in the 2001 workplan. The same is true for the Egg Safety Action Plan. FDA requests comments on other broad program areas that should continue to be a priority in FY 2001.

In addition, because the 2000 workplan, as noted above, was a condensed (i.e., 9-month) plan, our goal for FY 2000 will be to fully complete at least three-quarters of the "A" list activities. FDA requests comments on those "A" list activities in the 2000 plan that, if not completed, should be carried over to the 2001 workplan. FDA also requests comments on the FY 2000 "B" list activities that should be elevated to the "A" list for completion in FY 2001. Finally, FDA requests comments on new program areas or activities that should be a high priority for FY 2001.

Interested persons may submit to the Dockets Management Branch (address above) written comments regarding this notice by August 25, 2000. Two copies of any comments are to be submitted, except that individuals may submit one copy. Comments are to be identified with the docket number found in brackets in the heading of this document. Received comments may be seen in the office between 9 a.m. and 4 p.m., Monday through Friday.

Dated: June 19, 2000.

Margaret M. Dotzel,

Associate Commissioner for Policy.

Health Resources and Services Administration

Targeted Capacity Building Assistance for HIV/AIDS Primary Health Care Program Announcement

AGENCY: Health Resources and Services Administration, HHS.

ACTION: Notice of availability of funds; request for letters of intent to apply.

SUMMARY: The Health Resources and Services Administration (HRSA)

announces the availability of Fiscal Year (FY) 2000 funds for a cooperative agreement to provide targeted capacity building assistance (TCBA) to non-profit or public, community-based organizations (CBO) serving communities of color significantly impacted by existing and emerging HIV/AIDS epidemics.

Funds for the TCBA program are made available through the U.S. Department of Health and Human Services (DHHS) in collaboration with the Congressional Black Caucus (CBC) Initiative to reduce disparities in the rate of HIV/AIDS infections within communities of color. Programs funded through the DHHS/CBC Initiative are to be used to develop, improve and/or expand HIV/AIDS prevention, care and treatment services and research opportunities targeting communities of color, including African American, Latino, Asian American/Pacific Islander, Native American, Alaskan Natives and Native Hawaiians, significantly impacted by HIV/AIDS. The DHHS/CBC Initiative funds for the TCBA program were appropriated to the Ryan White CARE Act Title III for targeted technical assistance to minority community based health care and service providers with a history of service provision to communities of color.

The TCBA program will expand and improve the delivery of HIV/AIDS primary health care services by CBOs to communities of color living with HIV/AIDS. HRSA will provide \$700,000 to support one national, regional or local organization representing communities of color, with a demonstrable record of providing TCBA and other technical assistance designed to strengthen HIV/AIDS systems of health care.

The purpose of this announcement is to request Letters of Intent to Apply and applications to this program. HRSA is requesting Letters of Intent to Apply to estimate the number of applications it will receive and thereby plan appropriately for the timely award of these funds. Letters of Intent to Apply are not required to submit an application to the program, nor are they binding.

Program Purpose: The purpose of the TCBA program is to increase the availability, accessibility and quality of HIV/AIDS primary health care services for underserved communities of color living with HIV/AIDS by developing or enhancing the HIV/AIDS primary care infrastructure within those communities. Targeted capacity building assistance is defined as a process that results in increasing the core competencies that are essential to
