DEPARTMENT OF HEALTH AND HUMAN SERVICES

Administration for Children and Families

Proposed Information Collection Activity; Comment Request

Proposed Project:

Title: National Child Abuse and Neglect Data System.

OMB No.: 0980-0256.

Description: The Administration on Children, Youth and Families established the National Child Abuse and Neglect Data System (NCANDS) to respond to the 1996 amendments (Pub. L. 93-247) to the Child Abuse Prevention and Treatment Act [42 U.S.C. 5101 *et seq.*], as amended, which called for the creation of a coordinated national data collection and analysis program, both universal and case specific in scope, to examine standardized data on false, unfounded, or unsubstantiated reports. In 1988, ACYF embarked on a collaborative effort with the States to develop a voluntary national data collection and analysis program, to collect, compile,

and make available State child abuse and neglect reporting information from child protective services agencies in the 50 States, the District of Columbia, and the territories.

NCANDS has two components. The Summary Data Component (SDC) survey collects aggregate data on key child protective services statistics. The Detailed Case Data Component (DCDC) collects case-level data on each child reported as an alleged victim of child maltreatment. The Children's Bureau is currently preparing the 9th annual report based on the NCANDS data.

In 1996, the Child Abuse Prevention and Treatment Act was amended by Public Law 104-235 to require that any State receiving the Basic State Grant work with the Secretary of the Department of Health and Human Services (DHHS) to provide specific data on child maltreatment to the extent practicable. The legislation specified the following data elements.

(1) The number of children who were reported to the State during the year as abused or neglected.

(2) Of the number of children described in paragraph (1), the number with respect to whom such reports were—

- (A) substantiated;
- (B) unsubstantiated; or
- (C) determined to be false.

(3) Of the number of children described in paragraph (2)—

(A) the number that did not receive services during the year under the State program funded under this section or an equivalent State program;

(B) the number that received services during the year under the State program funded under this section or an equivalent State program; and

(C) the number that were removed from their families during the year by disposition of the case.

(4) The number of families that received preventive services from the State during the year.

(5) The number of deaths in the State during the year resulting from child abuse or neglect.

(6) Of the number of children described in paragraph (5), the number of such children who were in foster care.

(7) The number of child protective services workers responsible for the intake and screening of reports filed in the previous year.

(8) The agency response time with respect to each such report with respect to initial investigation of reports of child abuse or neglect.

(9) The response time with respect to the provision of services to families and children where an allegation of abuse or neglect has been made.

(10) The number of child protective services workers responsible for intake, assessment, and investigation of child abuse and neglect reports relative to the number of reports investigated in the previous year.

(11) The number of children reunited with their families or receiving family preservation services that, within five years, result in subsequent substantiated reports of child abuse and neglect, including the death of the child.

(12) The number of children for whom individuals were appointed by the court to represent the best interests of such children and the average number of out-of-court contacts between such individuals and children.

The reporting requirements specified in CAPTA, as amended, have been met through recent revisions to the SDC. After discussions with the States and pilot testing with a small number of States, the reporting requirements are being integrated into the current DCDC. With this modification to the NCANDS, States will be able to annually report on child maltreatment using either the SDC or the DCDC. States that participate in the DCDC will no longer need to additionally respond to the SDC Survey in order to meet the annual reporting requirements.

The information collected by NCANDS will be used to understand better the experiences of children and families served by CPS and to guide policy and program development at the national and local levels. An annual report, entitled Child Maltreatment, will continue to be published. Data collected through the NCANDS will also be used to support the Department in responding to the requirements of the Government Performance and Results Act; publishing State data in the annual report to Congress on child welfare outcomes; and monitoring States through the Child and Family Services Review process.

Respondents: State, Local or Tribal Govt.

ANNUAL BURDEN ESTIMATES

Instrument	Number of respondents	Number of responses per respondent	Average burden hours per response	Total burden hours
DCDC	30	1	130	3900
SDC	22	1	40	880

Estimated Total Annual Burden Hours: 4780.

In compliance with the requirements of Section 3506(c)(2)(A) the Paperwork Reduction Act of 1995, the Administration for Children and Families is soliciting public comment on the specific aspects of the information collection described above.

Copies of the proposed collection of information can be obtained and comments may be forwarded by writing to the Administration for Children and Families, Office of Information Services, 370 L'Enfant Promenade, S.W., Washington, D.C. 20447, Attn: ACF

Reports Clearance Officer. All requests should be identified by the title of the information collection.

The Department specifically requests comments on: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency's estimate of the burden of the proposed collection of information; (c) the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on

respondents, including through the use of automated collection techniques or other forms of information technology. Consideration will be given to comments and suggestions submitted within 60 days of this publication.

Dated: January 18, 2000.

Bob Sargis,

Acting Reports Clearance Officer.
