

Further, the SIAPs contained in this amendment are based on the criteria contained in the U.S. Standard for Terminal Instrument Procedures (TERPS). In developing these SIAPs, the TERPS criteria were applied to the conditions existing or anticipated at the affected airports. Because of the close and immediate relationship between these SIAPs and safety in air commerce, I find that notice and public procedure before adopting these SIAPs are impracticable and contrary to the public interest and, where applicable, that good cause exists for making some SIAPs effective in less than 30 days.

Conclusion

The FAA has determined that this regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. It, therefore—(1) is not a “significant regulatory action” under Executive Order 12866; (2) is not a “significant rule” under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. For the same reason, the FAA certifies that this amendment will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

RIN 0694-AC26

Reexports to Serbia of Foreign Registered Aircraft Subject to the Export Administration Regulations

AGENCY: Bureau of Export Administration, Commerce.

ACTION: Final rule.

SUMMARY: The Bureau of Export Administration (BXA) is amending the Export Administration Regulations (EAR) by reinstating provisions of License Exception AVS for temporary reexports to Serbia of foreign registered aircraft subject to the EAR. This limited action is taken in support of the European Union's six month suspension of its ban on flights to Serbia.

DATES: This rule is effective March 20, 2000.

FOR FURTHER INFORMATION CONTACT:

James A. Lewis, Office of Strategic Trade and Foreign Policy Controls, Bureau of Export Administration, Telephone: (202) 482-0092.

SUPPLEMENTARY INFORMATION:

Background

The European Union has instituted a six-month suspension of its flight ban to Serbia in support of Serbia's democratic forces. In support of this suspension, the United States has taken action that will allow, under License Exception AVS, the temporary reexport to Serbia of foreign registered aircraft subject to the EAR. Foreign registered aircraft meeting all the temporary sojourn requirements of License Exception AVS may fly from foreign countries to Serbia without obtaining prior written authorization from BXA. This action is limited in scope and in no way impacts comprehensive U.S. sanctions against Serbia. Note that License Exception AVS remains unavailable to U.S. registered aircraft.

Although the Export Administration Act (EAA) expired on August 20, 1994, the President invoked the International Emergency Economic Powers Act and continued in effect the EAR, and to the extent permitted by law, the provisions of the EAA, as amended, in Executive Order 12924 of August 19, 1994, as extended by the President's notices of August 15, 1995 (60 FR 42767), August 14, 1996 (61 FR 42527) August 13, 1997 (62 FR 43629), August 13, 1998 (63 FR 44121), and August 10, 1999 (64 FR 44101).

Rule Making Requirements

1. This final rule has been determined to be non-significant for purposes of E.O. 12866.

2. Notwithstanding any other provision of law, no person is required to respond to nor be subject to a penalty for failure to comply with a collection of information subject to the requirements of the Paperwork Reduction Act unless that collection of information displays a current valid OMB Control Number. This regulation does not involve any paperwork collections.

3. This rule does not contain policies with Federalism implications sufficient to warrant preparation of a Federalism assessment under Executive Order 13132.

4. The provisions of the Administrative Procedure Act requiring notice of proposed rule making, the opportunity for public participation,

and a delay in effective date, are inapplicable because this regulation involves a military or foreign affairs function of the United States (see 5 U.S.C. 553(a)(1)). Further, no other law requires that a notice of proposed rule making and an opportunity for public comment be given for this rule. Because a notice of proposed rule making and opportunities for public comment are not required to be given for this rule by 5 U.S.C. 553, or by any other law, the analytical requirements of the Regulatory Flexibility Act, 5 U.S.C. 601 *et seq.*, are inapplicable.

Therefore, this regulation is issued in final form. Although there is no formal comment period, public comments on this regulation are welcome on a continuing basis. Comments should be submitted to Kirsten Mortimer, Office of Exporter Services, Bureau of Export Administration, Department of Commerce, P.O. Box 273, Washington, D.C. 20044.

Temporary exports or reexports by the news media may be made to Serbia under License Exception TMP (see § 740.9(a)(2)(viii) of the EAR). Temporary reexports of foreign registered aircraft may be made to

Producer-operated Outer Continental Shelf Pipelines That Cross Directly Into State Waters

AGENCY: Minerals Management Service (MMS), Interior.

ACTION: Final rule.

SUMMARY: This final rule will clarify some unresolved regulatory issues involving the 1996 memorandum of understanding (MOU) on Outer Continental Shelf (OCS) pipelines between the Departments of the Interior (DOI) and Transportation (DOT). It addresses producer-operated pipelines that do not connect to a transporting operator's pipeline on the OCS before crossing into State waters. It is complementary to the final rule published on August 17, 1998, which addressed producer-operated oil or gas pipelines that connect to transporting operators' pipelines on the OCS. The rule also establishes procedures for producer and transportation pipeline operators to get permission to operate under either MMS or DOT regulations governing pipeline design, construction, operation, and maintenance according to their operating circumstances.

EFFECTIVE DATE: August 28, 2000.

FOR FURTHER INFORMATION CONTACT: Carl W. Anderson, Operations Analysis Branch, at (703) 787-1608; e-mail carl.anderson@mms.gov.

SUPPLEMENTARY INFORMATION:

Background

MMS, through delegations from the Secretary of the Interior, has authority to issue and enforce rules to promote safe operations, environmental protection, and resource conservation on the OCS. (The Outer Continental Shelf Lands Act (43 U.S.C. 1331 *et seq.*) defines the OCS). Under this authority, MMS regulates pipeline transportation of
