SUPPLEMENTARY INFORMATION:

OMB Control Number: 3060-0798.

Title: FCC Application for Wireless Telecommunications Bureau Radio Service Authorization.

Form No: FCC Form 601.

Type of Review: Revision of a currently approved collection.

Respondents: Individuals or households, businesses or other for-profit, not-for-profit institutions, and state, local or tribal governments.

Number of Respondents: 240,320.

Estimate Time Per Response: 1.25 hours.

Frequency of Response: On occasion reporting requirement, third party disclosure requirement.

Total Annual Burden: 210,280 hours.

Total Annual Cost: \$48,364,000.

Needs and Uses: The FCC Form 601 is used as a general application (long form) for market based licensing and site-by-site licensing in the Wireless Telecommunications Radio Service. The purpose of this revision is to make the necessary changes to collect licensing information for the 700 MHz auction winners, to make the necessary adjustments to the form and instructions for implementation of Land Mobile Radio Services to ULS, and to further clarify various instructions for the applicants. As use of the FCC Form 601 progresses after implementation of each service, we are discovering ways to ease the burden of filing on our respondents by making further changes to the form (*i.e.*, "fine tuning"). These changes do not affect the total estimated number of respondents or the total estimated average annual burden. The information will be used by the Commission to determine whether the applicant is legally, technically and financially qualified to be licensed. Without such information, the Commission could not determine whether to issue the licenses to the applicants that provides telecommunications services to the public and therefore fulfill its statutory responsibilities in accordance with the Communications Act of 1934, as amended. It will also be used to update the database and provide for proper use of the frequency spectrum.

Secretary.

July 20 2000.
