

remaining tax basis in the plan is \$6,000. Thereafter, the amount of the outstanding loan is not treated as part of the account balance for purposes of section 72. The participant attains age 59½ in the year 2003 and receives a distribution of the full account balance under the plan consisting of \$60,000 in cash and the loan receivable. At that time, the plan's records reflect an offset of the loan amount against the loan receivable in the participant's account and a distribution of \$60,000 in cash.

(ii) For the year 2003, the plan must report a gross distribution of \$60,000 in Box 1 of Form 1099-R and a taxable amount of \$54,000 in Box 2 of Form 1099-R.

Example 3. (i) In 1993, when a participant's account balance in a plan is \$100,000, the participant receives a loan of \$50,000 from the plan. The participant makes the required loan repayments until 1995 when there is a deemed distribution of \$28,919 as a result of a failure to repay the loan. For 1995, as a result of the deemed distribution, the plan reports, in Box 1 of Form 1099-R, a gross distribution of \$28,919 (which is the initial default amount in accordance with paragraph (c)(2)(ii) of this Q&A-22) and, in Box 2 of Form 1099-R, a taxable amount of \$28,919. For 1995, the plan also records an increase in the participant's tax basis for the same amount (\$28,919). Each year thereafter through 2001, the plan reports a gross distribution equal to the interest accruing that year on the loan balance, reports a taxable amount equal to the interest accruing that year on the loan balance reduced by the participant's tax basis allocated to the gross distribution, and records a net increase in the participant's tax basis equal to that taxable amount. As of December 31, 2001, the taxable amount reported by the plan as a result of the loan totals \$44,329 and the plan's records for purposes of section 72 show that the participant's tax basis totals the same amount (\$44,329). As of January 1, 2002, the plan decides to apply Q&A-19 of this section. Accordingly, it reduces the participant's tax basis by the initial default amount of \$28,919, so that the participant's remaining tax basis in the plan is \$15,410 (\$44,329 minus \$28,919). Thereafter, the amount of the outstanding loan is not treated as part of the account balance for purposes of section 72. The participant attains age 59½ in the year 2003 and receives a distribution of the full account balance under the plan consisting of \$180,000 in cash and the loan receivable equal to the \$28,919 outstanding loan amount in 1995 plus interest accrued thereafter to the payment date in 2003. At that time, the plan's records reflect an offset of the loan amount against the loan receivable in the participant's account and a distribution of \$180,000 in cash.

(ii) For the year 2003, the plan must report a gross distribution of \$180,000 in Box 1 of Form 1099-R and a taxable amount of \$164,590 in Box 2 of Form 1099-R (\$180,000 minus the remaining tax basis of \$15,410).

Example 4. (i) The facts are the same as in Example 1, except that in 2000, after the deemed distribution, the participant receives a \$10,000 hardship distribution. At the time of the hardship distribution, the participant's

account balance under the plan totals \$50,000. For 2000, the plan reports, in Box 1 of Form 1099-R, a gross distribution of \$10,000 and, in Box 2 of Form 1099-R, a taxable amount of \$6,000 (the \$10,000 actual distribution minus \$4,000 of tax basis (\$10,000 times (\$20,000/\$50,000)) allocated to this actual distribution). The plan then records a decrease in tax basis equal to \$4,000, so that the participant's remaining tax basis as of December 31, 2000, totals \$16,000 (\$20,000 minus \$4,000). After 1999, the plan disregards, for purposes of section 72, the interest that accrues on the loan after the 1999 deemed distribution. Thus, as of December 31, 2001, the total taxable amount reported by the plan as a result of the deemed distribution plus the 2000 actual distribution is \$26,000 and the plan's records show that the participant's tax basis is \$16,000. As of January 1, 2002, the plan decides to apply Q&A-19 of this section to the loan. Accordingly, it reduces the participant's tax basis by the initial default amount of \$20,000, so that the participant's remaining tax basis in the plan is reduced from \$16,000 to zero. However, because the \$20,000 initial default amount exceeds \$16,000, the plan records a loan transition amount of \$4,000 (\$20,000 minus \$16,000). Thereafter, the amount of the outstanding loan, other than the \$4,000 loan transition amount, is not treated as part of the account balance for purposes of section 72. The participant attains age 59½ in the year 2003 and receives a distribution of the full account balance under the plan consisting of \$60,000 in cash and the loan receivable. At that time, the plan's records reflect an offset of the loan amount against the loan receivable in the participant's account and a distribution of \$60,000 in cash.

(ii) In accordance with paragraph (c)(2)(iv) of this Q&A-22, the plan must report in Box 1 of Form 1099-R a gross distribution of \$64,000 and in Box 2 of Form 1099-R a taxable amount for the participant for the year 2003 equal to \$64,000 (the sum of the \$60,000 paid in the year 2003 plus \$4,000 as the loan transition amount).

33 CFR Part 100

[CGD 08-99-066]

RIN 2115-AE46

Special Local Regulations; Eighth Coast Guard District Annual Marine Events

AGENCY: Coast Guard, DOT.

ACTION: Final rule.

SUMMARY: The Coast Guard is revising its list of annual marine events that occur within the Eighth Coast Guard District. This action is being taken to ensure the safety of life and property during each event, while avoiding the necessity of publishing a separate temporary regulation each year for each event. This list reflects the approximate dates and locations of each annual recurring marine event.

DATES: This Final Rule will become effective September 29, 2000.

FOR FURTHER INFORMATION CONTACT: Project Attorney, Lieutenant Junior Grade Curtis Borland at Commander (dl), Eighth Coast Guard District, 501 Magazine Street, New Orleans, LA 70130-3396, (504) 589-6188.

SUPPLEMENTARY INFORMATION:

Regulatory Information

A notice of proposed rulemaking (NPRM) was published on 28 April 2000 proposing to revise Table 1 to 33 CFR 100.801, the list of annual marine events that occur within the Eighth Coast Guard District. The Coast Guard received no comments on the proposed rulemaking. A public hearing was not requested and one was not held.

Background and Purpose

This rulemaking updates the existing list of anticipated annual marine events in the Eighth Coast Guard District.

Discussion of Comments and Changes

No comments were received in response to the NPRM. The Coast Guard has added new events and updated all event descriptions, as reported by the sponsor of the event.

Regulatory Evaluation

This rule is not a "significant regulatory action" under section 3(f) of Executive Order 12866 and does not require an assessment of potential costs and benefits under section 6(a)(3) of that Order. The Office of Management and Budget has not reviewed it under that Order. It is not "significant" under the regulatory policies and procedures of the Department of Transportation (DOT) (44 FR 11040, February 26, 1979).

The Coast Guard expects the economic impact of this rule to be so minimal that a full Regulatory Evaluation under paragraph 10e of the regulatory policies and procedures of DOT was unnecessary. The economic impact is not significant because this rule serves only to update an already existing list of marine events and does not change the process for reviewing such occurrences.

Small Entities

Under the Regulatory Flexibility Act (5 U.S.C. 601–612), the Coast Guard considered whether this rule will have a significant economic impact on a substantial number of small entities. “Small entities” include small businesses, not-for-profit organizations that are independently owned, operated, and not dominant in their fields, and governmental jurisdictions with populations of less than 50,000.

The segment of the listed waterways regulated is the minimum necessary to assure the safety of life and property on or adjacent to navigable waters. These regulations are relatively brief in duration and will only affect marine traffic. Therefore, the Coast Guard certifies under 5 U.S.C. 605(b) that this rule will not have a significant economic impact on a substantial number of small entities.

Collection of Information

This rule calls for no new collection of information under the Paperwork Reduction Act of 1995 (44 U.S.C. 3501–3520).

Federalism

The Coast Guard has analyzed this rule under Executive Order 13132 and has determined that this rule does not have implications for federalism under that order.

Unfunded Mandates Reform Act

The Unfunded Mandates Reform Act of 1995 (2 U.S.C. 1531–1538) governs the issuance of Federal regulations that require unfunded mandates. An unfunded mandate is a regulation that requires a State, local, or tribal government or the private sector to incur direct costs without the Federal Government's having first provided the funds to pay those unfunded mandate costs. This rule will not impose an unfunded mandate.

Taking of Private Property

This rule will not effect a taking of private property or otherwise have taking implications under Executive Order 12630, Governmental Actions and Interference with Constitutionally Protected Property Rights.

Civil Justice Reform

This rule meets applicable standards in sections 3(a) and 3(b)(2) of Executive Order 12988, Civil Justice Reform, to minimize litigation, eliminate ambiguity, and reduce burden.

Protection of Children

The Coast Guard has analyzed this rule under Executive Order 13045,

Protection of Children from Environmental Health Risks and Safety Risks. This rule is not an economically significant rule and does not concern an environmental risk to health or risk to safety that may disproportionately affect children.

Environment

The Coast Guard is revising its list of recurring marine events. The listing itself will not affect the environment. When an event application is received, the Coast Guard will conduct an environmental analysis for the event. Under figure 2–1 paragraph (34)(h) of Coast Guard Commandant Instruction M16475.1C, this revision is categorically excluded from further environmental documentation.

List of Subjects in 33 CFR Part 100

Marine safety, Navigation (water), Reporting and record keeping requirements, Waterways.

Final Regulations

In consideration of the foregoing, the Coast Guard is amending Part 100 of Title 33, Code of Federal Regulations, as follows:

PART 100—[AMENDED]

1. The authority citation for Part 100 continues to read as follows:

Authority: 33 U.S.C. 1233; 49 CFR 1.46; and 33 CFR 100.35.

2. § 100.801 is amended by revising Table 1 to read as follows:

§ 100.801 Annual Marine Events in the Eighth Coast Guard District.

33 CFR Part 167

[USCG-1999-5700]

RIN 2115-AF84

Traffic Separation Schemes: Off San Francisco, in the Santa Barbara Channel, in the Approaches to Los Angeles-Long Beach, CA

AGENCY: Coast Guard, DOT.

ACTION: Final rule.

SUMMARY: The Coast Guard is amending the existing Traffic Separation Schemes (TSS's) off San Francisco and in the Santa Barbara Channel. The amendments have been adopted by the International Maritime Organization and validated by several recent vessel routing studies. The amended TSS's will route commercial vessels farther offshore, providing an extra margin of safety and environmental protection in the Monterey Bay National Marine Sanctuary and adjacent waters. This rule codifies descriptions of these TSS's into the Code of Federal Regulations.

DATES: This final rule is effective on August 30, 2000.

ADDRESSES: Comments and material received from the public, as well as documents mentioned in this preamble as being available in the docket, are part of docket USCG-1999-5700 and are available for inspection or copying at the Docket Management Facility, U.S. Department of Transportation, room PL-401, 400 Seventh Street SW., Washington, DC, between 9 a.m. and 5 p.m., Monday through Friday, except Federal holidays. You may also find this docket on the Internet at <http://dms.dot.gov>.

SUPPLEMENTARY INFORMATION:

Regulatory History

In 1989, we published a notice of proposed rulemaking (NPRM) entitled "Traffic Separation Schemes and Shipping Safety Fairways Off the Coast of California" (CGD 83-032, 54 FR 18258). The NPRM proposed implementing several IMO-adopted amendments to the existing TSS's and establishing a shipping safety fairway along the California coast. We elected to postpone implementing the amendments until the studies on the Monterey Bay National Marine Sanctuary (MBNMS) and on oil tanker routing along the California coast (the "Tanker Free Zone" study mandated by the Oil Pollution Act of 1990) were complete.

On June 17, 1999, we published an NPRM entitled "Traffic Separation Schemes: Off San Francisco, in the Santa Barbara Channel, in the Approaches to Los Angeles-Long Beach, California" in the **Federal Register** (64 FR 32451). We received six letters commenting on the proposed rule. No public hearing was requested, and none was held.

Background and Purpose

This rule amends the Traffic Separation Schemes (TSS's) off San Francisco and in the Santa Barbara Channel adopted by the International Maritime Organization (IMO) in 1990 and 1985, respectively ("Ships" Routing", Sixth Edition 1991, IMO). These amendments—

- a. Shift the southern leg of the TSS off San Francisco westward to provide a true north/south alignment; and
- b. Extend the existing TSS in the Santa Barbara Channel 18 nautical miles westward beyond Point Conception to Point Arguello.

In addition, this rule codifies these TSS's into Title 33 part 167 of the Code

of Federal Regulations (CFR). It also adds the IMO definition of "Area to be avoided" in 33 CFR 167.5.

Discussion of Comments and Changes

We received six written comments in response to our NPRM entitled "Traffic Separation Schemes Off San Francisco, in the Santa Barbara Channel, and in the Approaches to Los Angeles-Long Beach, California" (64 FR 32451, June 17, 1999). Five comments were strongly in favor of the proposed rule without changes. One comment was in favor of the proposed rule, but requested that additional information be included about the underlying Sword Unit leases that would be affected by the extension of the Santa Barbara Channel. The comment wanted the regulations to alert readers of potential future conflicts between vessels transiting the extended TSS in the Santa Barbara Channel and the development of Sword Unit leases. Sword Unit leases, OCS-P 0319, 0320, 0322 and 0323A, underlie the proposed TSS extension. Exploration activities may occur on the Sword Unit as early as 2002, with development occurring as early as 2007. To accommodate exploration and development on the Sword Unit, we may temporarily suspend or amend the TSS, based on historical practice and sections 3.12 and 7.6 of the IMO publication, "Ships" Routing", Sixth Edition 1991. We intend to work collaboratively with all of the agencies involved to develop and implement appropriate measures to facilitate both oil production and safe and efficient shipping. Close coordination throughout delineation drilling and any subsequent production phase will allow us to select appropriate measures based on the circumstances, as we know them at the time. While we agree that potential future conflicts may occur, to include information concerning Sword Unit leases in the CFR is beyond the scope of this rulemaking.

The section entitled "Off San Francisco: Area to be avoided" was created by removing § 167.401(c) from the NPRM and inserting it as § 167.406 in this rule. This presents the information in the regulations as it is in "Ships" Routing", Sixth Edition 1991, International Maritime Organization.

Section 167.452 of the NPRM was divided into §§ 167.451 and 167.452 in this rule. This presents the information in the regulations as it is in "Ships" Routing", Sixth Edition 1991, International Maritime Organization.

Sections 167.500 through 167.503 were proposed in the NPRM but were removed from this rule. As stated in the NPRM, we intended to codify the
