National Highway Traffic Safety Administration

[Docket No. NHTSA-98-4548; Notice 2]

Denial of Petition for Import Eligibility Decision

This notice sets forth the reasons for the denial of a petition submitted to the National Highway Traffic Safety Administration (NHTSA) under 49 U.S.C. $\S 30141(a)(1)(A)$. The petition, which was submitted by G&K Automotive Conversion, Inc. of Santa Ana, California ("G&K"), a registered importer of motor vehicles, requested NHTSA to decide that certain 1989-1991 Volkswagen Golf 4-Door Sedans that were not originally manufactured to comply with all applicable Federal motor vehicle safety standards are eligible for importation into the United States. In the petition, G&K contended that these vehicles are eligible for importation on the basis that (1) they are substantially similar to vehicles that were originally manufactured for importation into and sale in the United States and that were certified by their manufacturer as complying with the safety standards (the U.S. certified version of the 1989–1991 Volkswagen Golf 4-Door Sedan), and (2) they are capable of being readily altered to conform to the standards.

NHTSA published a notice in the Federal Register on October 26, 1998 (63 FR 57158) that contained a thorough description of the petition, and solicited public comments upon it. One comment was received in response to the notice, from Volkswagen of America, Inc. ("Volkswagen"), the United States representative of Volkswagen AG, the vehicle's manufacturer. In this comment, Volkswagen contended that the vehicles that are the subject of the petition are four-wheel drive vehicles which are not substantially similar to the Golf 4-Door Sedan with four-wheel drive that was originally manufactured and certified for sale in the United States and that these vehicles are not capable of being readily altered to conform to the standards. Specifically, Volkswagen observed that the non-U.S. certified 1989-1991 Volkswagen Golf 4-Door Sedans with four-wheel drive that
