### Mine Safety and Health Administration

#### Petitions for Modification

The following parties have filed petitions to modify the application of existing safety standards under section 101(c) of the Federal Mine Safety and Health Act of 1977.

##### 1. Pine Ridge Coal Company

[Docket No. M-2000-085-C]

Pine Ridge Coal Company, 50 School House Road, Seth, West Virginia 25181 has filed a petition to modify the application of 30 CFR 75.1002 (location of trolley wires, trolley feeder wires, high-voltage cables and transformers) to its Whites Branch Mine (I.D. No. 46-08827) located in Boone County, West Virginia. The petitioner requests a modification to its previously granted petition for modification, docket number M-98-004-C, allowing 2400 volt cables to be used in the last open crosscut at the working continuous miner sections at the Pine Ridge Coal Company, Robin Hood No. 9 Mine (I.D. No. 46-02143), to be transferred to Pine Ridge Coal Company's Whites Branch Mine (I.D. No. 46-08827), where equipment will be transferred and production begins the first of August 2000. The petitioner asserts that the proposed alternative method would provide at least the same measure of protection as the existing standard.
