Discontinuance of the Following Report Under OMB Delegated Authority

Report title: Report of Intercompany Transactions for Foreign Banking Organizations and their U.S. Bank Subsidiaries.

Agency form number: FR Y-8f.

OMB control number: 7100-0127.

Frequency: Semi-annually, and interim reporting required for certain large asset transfers.

Reporters: Bank holding companies as defined by section 2(a) of the Bank Holding Company Act with at least \$300 million in total consolidated assets that are organized under the laws of a foreign country and principally engaged in banking outside the United States.

Annual reporting hours: 360 hours.

Estimated average hours per response: 3 hours.

Number of respondents: 58 semiannual respondents; 4 interim respondents.

Small businesses are not affected.

General description of report: This information collection is authorized by section 5(c) of the Bank Holding Company Act (12 U.S.C. 1844(c)) and section 225.5(b) of Regulation Y (12 CFR 225.5(b)) and is given confidential treatment pursuant to the Freedom of Information Act (5 U.S.C. 552(b)(8)).

Abstract: This report provides the Federal Reserve System with information on intercompany transactions between FBOs and their U.S. bank subsidiaries. It enables the Federal Reserve to monitor and supervise intercompany flows of funds to ensure that U.S. subsidiary banks are not engaging in any unsafe and unsound practices with their foreign owners. This report supplements the Board's global framework for the supervision of the U.S. operations of foreign banks. In addition, it aids in determining whether a foreign banking organization serves as a source of strength to its U.S. subsidiary.

Current Actions: On June 6, 2000, the Federal Reserve issued a **Federal Register** notice (65 FR 35934) requesting public comment on a proposal to completely revise the FR Y-8. The Federal Reserve proposed to delete the current information on the FR Y-8 and collect fourteen items of information on section 23A covered transactions. The Federal Reserve also proposed to add FBOs that directly own U.S. subsidiary banks to the reporting panel of the revised FR Y-8 and to discontinue the FR Y-8f. The comment period ended on August 7, 2000. No comments were

received on the discontinuance of the FR Y-8f.

Board of Governors of the Federal Reserve System, August 23, 2000.

Jennifer J. Johnson,
Secretary of the Board.

Proposed Project

National Sexually Transmitted Disease Morbidity Surveillance System—Extension—(0920–0011)—The National Center for HIV, STD, and TB Prevention (NCHSTP). The reports used

for this surveillance system provide ongoing surveillance data on national sexually transmitted disease morbidity. The data are used by health care planners at the national, state, and local (including selected metropolitan and territorial health departments) levels to develop and evaluate STD prevention and control programs. In addition, there are many other users of the data including scientists, researchers, educators, and the media. Sexually transmitted disease (STD) data gathered in these reports are used to produce national statistics published in the annual STD Surveillance Report, MMWR articles, and serve as a progress report to meet objectives in Healthy People 2000: Mid-course Review and 1995 Revisions. It is important to note that these reporting forms are in the process of being phased out and replaced by electronic, line-listed STD data collected in the National Electronic Telecommunications System for Surveillance (NETSS). The annual cost to respondents is estimated at \$12,627 based on an estimated hourly salary of \$15.25 for health department personnel responsible for completing these forms:

Forms	Number of respondents	Number of responses/ respondent	Average burden (in hours)	Total burden (in hours)
CDC 73.688 *	36	4	1	144
CDC 73.688 **	27	4	1	108
CDC 73.998	36	12	35/60	252
CDC 73.2638	36	3	324
Total	828

* State-level reporting: Respondents for the state-specific CDC 73.688 forms now include 26 state health departments (originally, respondents included 50 states, but 24 states have now discontinued hardcopy reporting and send all STD data as electronic line-listed records through NETSS), seven large city health departments and three outlying areas.
** City-level reporting: The health departments for the 26 states and one of the outlying regions (Puerto Rico) also prepare and submit reports for additional large cities within their jurisdictions.

Dated: August 23, 2000.

Acting Associate Director for Policy Planning, and Evaluation Centers for Disease Control and Prevention (CDC).
