### Foreign-Trade Zones Board

[Order No. 1116]

#### Extension of Nonprivileged Status Authority, Oil Refinery Subzones

Pursuant to its authority under the Foreign-Trade Zones Act of June 18, 1934, as amended (19 U.S.C. 81a-81u), the Foreign-Trade Zones Board (the Board) adopts the following Order:

Whereas, by an Act of Congress approved June 18, 1934, an Act "To provide for the establishment . . . of

foreign-trade zones in ports of entry of the United States, to expedite and encourage foreign commerce, and for other purposes," as amended (19 U.S.C. 81a-81u) (the Act), the Foreign-Trade Zones Board (the Board) is authorized to grant to qualified corporations the privilege of establishing foreign-trade zones in or adjacent to U.S. Customs ports of entry;

Whereas, the Board's regulations (15 CFR part 400) provide for the establishment of special-purpose subzones when existing zone facilities cannot serve the specific use involved, and when the activity results in a significant public benefit and is in the public interest;

Whereas, the Board approved the oil refinery/petrochemical complex subzones listed below to conduct certain activity under zone procedures, subject to product and time restrictions;

Whereas, applications were submitted from the FTZ grantees of the subzones listed below, requesting a time extension of authority to elect nonprivileged foreign status (NPF) on crude oil and related products used in the production of certain petrochemical feedstocks and refinery by-products at the crude oil refineries/petrochemical complexes of the listed subzones;

Whereas, the applications were filed by the Board on August 23, 1999, and notice describing the applications and inviting public comment was given in the **Federal Register** (FTZ Docket 41-99, 64 FR 48140, 9/2/99); and,

Whereas, the Board adopts the findings and recommendations of the examiner's report, and finds that the requirements of the FTZ Act and Board's regulations would be satisfied, and that approval of the applications would be in the public interest if approval is subject to the conditions listed below;

Now, therefore, the Board hereby amends the Board Orders listed below, authorizing an extension of authority for the listed subzones, subject to the FTZ Act and the Board's regulations, including § 400.28, and further subject to the following conditions:

1. Foreign status (19 CFR 146.41, 146.42) products consumed as fuel for the refinery shall be subject to the applicable duty rate.

2. Privileged foreign status (19 CFR 146.41) shall be elected on all foreign merchandise admitted to the subzone, except that non-privileged foreign (NPF) status (19 CFR 146.42) may be elected on refinery inputs covered under HTSUS Subheadings #2709.00.1000-#2710.00.1050, #2710.00.2500 and #2710.00.4510 which are used in the production of:

—petrochemical feedstocks and refinery by-products (examiner's report, Appendix "C");

—products for export;

—and, products eligible for entry under HTSUS #9808.00.30 and #9808.00.40 (U.S. Government purchases).

#### International Buyer Program; Support for Domestic Trade Shows

**AGENCY:** International Trade Administration, Department of Commerce.

**ACTION:** Notice.

**SUMMARY:** The International Buyer Program of the Department of Commerce, which invited interested trade show organizer/sponsoring organizations to apply for inclusion on the program calendar for Fiscal Year 2002 (October 1, 2001 through September 30, 2002) allowed applications by e-mail for the first time this year. The application period, which began with publication of the **Federal Register** Notice on June 27, 2000, ended officially on August 11, 2000. Regrettably, the computer servers and e-mail communication system upon which the program depends failed to perform from August 9 through August 11, 2000. While a number of prospective applicants communicated their difficulties in applying owing to our communication system failure, some additional prospective applicants may have also been prevented from doing so. Organizers who were unable to communicate their application to the program should provide us a written statement that the organizer attempted to apply electronically during the period of computer/communications failure (August 9-11, 2000). The organizer should also resubmit a copy of its application and we will deem it to have been submitted during the competitive period.

#### New England Fishery Management Council; Notice and Request for Sea Scallop Research Proposals

**AGENCY:** National Marine Fisheries Service (NMFS), National Oceanic and

Atmospheric Administration, (NOAA), Commerce.

**ACTION:** Notice of solicitation for applications.

**SUMMARY:** NMFS issues this document to describe how you, the researcher, may be selected to perform sea scallop research projects funded by a 1-percent set-aside of the scallop total allowable catch (TAC) under Framework Adjustment 13 to the New England Fishery Management Council's (Council's) Atlantic Sea Scallop Fishery Management Plan (FMP) and Framework Adjustment 34 to the Council's Northeast Multispecies FMP (Frameworks 13/34) and how NOAA and the Council will determine whether to select your proposal. Frameworks 13/34 allow scallop vessels temporary access to portions of the groundfish closed areas on Georges Bank and Nantucket Shoals to harvest sea scallops and allow selected vessels to land scallops in excess of the possession limit or take additional trips and use the proceeds of the excess catch or additional trips to offset the costs of the research proposals submitted in response to this notification. Frameworks 13/34 authorize certain scallop vessels during the 2000 scallop fishing year to fish three trips per vessel in Closed Area II (CA II), one trip per vessel in the Nantucket Lightship Closed Area (NLCA), and 2 trips per vessel in Closed Area I (CA I) for certain periods of time, unless modified by action taken by the Regional Administrator, Northeast Region, NMFS (Regional Administrator).

NOAA, in cooperation with the Council, is publishing this second of two solicitations to request proposals for scallop research utilizing set-aside TAC from CA I, NLCA, and any CA II research TAC that may remain after award to projects submitted under NOAA's original CA II solicitation. Vessels participating in an approved project and fishing in the closed areas would be authorized by the Regional Administrator to take additional trips into the closed areas and/or to land scallops in excess of the 10,000-lb (4,536-kg) possession limit allowed for all closed area trips.

**DATES:** All research proposals to be considered under this solicitation must be received between August 30, 2000 and no later than 5 p.m., local time, on September 20, 2000 (see **ADDRESSES** section of this document). Postmarks will not be sufficient. Facsimile applications will not be accepted. For further information related to the timeframe for review and selection of proposals to be conducted with TAC
