Synopsis of the Second Memorandum Opinion and Order

1. The *First Report and Order*, (*First R&O*), 63 FR 58645 November 2, 1998, in this proceeding established a band plan and set forth service rules for 24 MHz of spectrum (the 700 MHz band) that was recently designated for public safety use in light of the transition to digital television. In response, seventeen parties filed petitions for reconsideration and/or clarification of those decisions. On February 25, 2000, the Public Safety National Coordination Committee (NCC) submitted recommendations to the Commission for technical and operational standards on the new 700 MHz band. The *Second MO&O* addresses those petitions for reconsideration that were filed in response to the *First R&O*. It does not, however, establish a digital modulation standard, because the Commission is currently seeking public comment on the issue in a *Fourth Notice of Proposed Rule Making* in this proceeding.
