

preliminary results of May 30, 2000 (65 FR 34440).

Final Results of Review

As a result of this review, the Department finds that termination of the suspended antidumping investigation on silicomanganese from Ukraine would be likely to lead to continuation or recurrence of dumping at the level listed below:

Manufacturers/Exporters	Margin (percent)
Country-wide	163.00

This notice also serves as the only reminder to parties subject to administrative protective orders ("APO") of their responsibility concerning the return or disposition of proprietary information disclosed under APO in accordance with 19 CFR 351.305 of the Department's regulations. Timely written notification of the return or destruction of APO materials or conversion to judicial protective order is hereby requested. Failure to comply with the regulations and terms of an APO is a violation which is subject to sanction.

This five-year ("sunset") review and notice are in accordance with sections 751(c), 752, and 777(i)(1) of the Act.

Dated: September 21, 2000.

Troy H. Cribb,

Acting Assistant Secretary for Import Administration.

Applications for Duty-Free Entry of Scientific Instruments

Pursuant to section 6(c) of the Educational, Scientific and Cultural Materials Importation Act of 1966 (Pub. L. 89-651; 80 Stat. 897; 15 CFR part 301), we invite comments on the question of whether instruments of equivalent scientific value, for the purposes for which the instruments shown below are intended to be used, are being manufactured in the United States.

Comments must comply with 15 CFR 301.5(a)(3) and (4) of the regulations and be filed within 20 days with the Statutory Import Programs Staff, U.S. Department of Commerce, Washington, DC 20230. Applications may be examined between 8:30 A.M. and 5:00 P.M. in Room 4211, U.S. Department of

Commerce, 14th Street and Constitution Avenue, NW, Washington, DC.

Docket Number: 00-021. *Applicant:* University of Florida, Materials Science and Engineering, Post Office Box 116400, Gainesville, FL 32611-6400.

Instrument: Electron Microscope, Model JEM-2010F. *Manufacturer:* JEOL Ltd., Japan. *Intended Use:* The instrument is intended to be used to study the microstructure of metals, metal alloys, ceramics, high-temperature superconductors, semiconductors, polymers, clays, dental implants and soot emissions while conducting the following representative experiments:

1. Structure-property relationships in semiconducting materials.
2. Interface phenomena in oxides.
3. Analysis of interfaces in advanced polymers and photonic devices.
4. The structure of high-temperature materials.
5. Mechanical properties of dental implants.
6. Polymer-protein and polymer-cell interactions.
7. Nanoscale properties of porous silicon.
8. Structure and chemistry of oxide minerals.
9. Structure-property relationships in opto-electronic materials.
10. Strength/hardness enhancement in superlattices.

In addition, the instrument will be used on a one-to-one basis for training of faculty, staff and graduate students. Application accepted by Commissioner of Customs: June 9, 2000.

Docket Number: 00-027. *Applicant:* Emory University, Department of Biology, 2006 Rollins Research Center, 1510 Clifton Road, Atlanta, GA 30322. *Instrument:* Slice Physiology Setup. *Manufacturer:* Luigs and Neumann, Germany. *Intended Use:* The instrument is intended to be used to do electrophysiological studies using rat brain slices. The experiments consist of preparing slices of rat brain, putting them under the microscope and inserting microelectrodes into single nerve cells. Once the microelectrode is inserted, a fluorescent dye will be injected into the cell body to visualize fine dendritic processes. The microscope will then be moved to focus on one of the visualized fine processes, and a second electrode can be inserted into the same cell. The main objective of this research is to understand neuronal activity and information processing in the mammalian brain. In particular, nerve cells in brain structures involved in a motor control will be studied. In addition, the instrument will be used for educational

purposes in the course Bio. 498 Guided Research for Senior Undergraduate Students. Application accepted by Commissioner of Customs: September 5, 2000.

Docket Number: 00-028. *Applicant:* Ernest Orlando Lawrence Berkeley National Laboratory, One Cyclotron Road, Berkeley, CA 94720. *Instrument:* Electron Microscope, Model JEM-3010. *Manufacturer:* JEOL Ltd., Japan. *Intended Use:* The instrument is intended to be used for studies of the microstructure and microstructural evolution of metals, metal alloys, ceramics, electronic and opto-electronic materials and nanocomposites. The experiments will include:

1. In-situ microscopy—real time evolutions of structure/property/processing relationships.
2. Real time high-resolution electron microscopy.
3. Dislocation and defect studies in materials.
4. Identification of phases and crystal structure by electron diffraction and convergent beam electron diffraction.

In addition, the instrument will be used for significant one-to-one educational use between the staff and users on how to exploit transmission electron microscopy to solve materials problems. Application accepted by Commissioner of Customs: September 5, 2000.

Frank W. Creel,

Director, Statutory Import Programs Staff.

BILLING CODE 3510-DS-P

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

[I.D. 092100D]

Mid-Atlantic Fishery Management Council; Public Meetings

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice of public meeting.

SUMMARY: The Mid-Atlantic Fishery Management Council (MAFMC) and its Comprehensive Management Committee, Executive Committee, Law Enforcement Committee, Demersal Committee, Squid-Mackerel-Butterfish Committee, and Habitat Committee will hold a public meeting.

DATES: The meetings will be held on Tuesday, October 10, 2000, to Thursday, October 12, 2000.

ADDRESSES: This meeting will be held at the Sanderling Inn Resort & Conference Center, 1461 Duck Road, Duck, NC; telephone: 252-449-6664.

Council address: Mid-Atlantic Fishery Management Council, 300 S. New Street, Dover, DE 19904; telephone: 302-674-2331.

FOR FURTHER INFORMATION CONTACT:

Daniel T. Furlong, Executive Director, Mid-Atlantic Fishery Management Council; telephone: 302-674-2331, ext. 19.

SUPPLEMENTARY INFORMATION:

Tuesday, October 10, 2000

From 9 a.m. to 11 a.m.—the Comprehensive Management Committee will meet.

From 11 a.m. to noon—the Executive Committee will meet.

From 1 p.m. to 3 p.m.—the Law Enforcement Committee with the Advisory Panel will meet.

From 2 p.m. to 5 p.m.—the Demersal Committee will meet concurrently.

From 7 p.m. to 9 p.m.—there will be a public hearing for Draft Amendment 13 to the Summer Flounder, Scup, and Black Sea Bass Fishery Management Plan (FMP).

Wednesday, October 11, 2000

From 8 a.m. to 11 a.m.—the Squid-Mackerel-Butterfish Committee will meet.

From 9 a.m. to 11 a.m.—the Habitat Committee will meet concurrently.

11 a.m.—the Council will convene at 11:00 a.m. and depart for the U.S. Coast Guard Air Station at Elizabeth City, NC, for an overview of law enforcement operations for the remainder of the day.

Thursday, October 12, 2000

8 a.m.—the Council will convene and is scheduled to adjourn at 1 p.m.

Agenda items for this meeting are: Review and approve generic framework measure to authorize quota set aside for non Individual Transferable Quota MAFMC species, review and discuss quota set aside request for proposals; review state proposals for MAFMC funding, review annual work plan developed at Committee Chairmen's meeting; review and evaluate Fishery Achievement Award nominations, review status of law enforcement (state/Federal) capabilities, develop committee strategy to review and comment on enforceability of Council's FMPs and related management measures, review Magnuson-Stevens Act National Standard 10, i.e., safety concerns inherent in FMPs and related management measures; review Summer Flounder Working Group's

recommendations and develop committee's position on proposed action, review Summer Flounder Workshop results and determine a recommended course of action; convene public hearing for Draft Amendment 13 to the Summer Flounder, Scup, Black Sea Bass FMP; finalize management measures for Amendment 9 to the Squid-Mackerel-Butterfish Plan, review proposed 2001 specifications for Atlantic mackerel, review and develop recommendations regarding Lithuanian Total Allowable Level of Foreign Fishing application, comment on action taken by Monitoring Committee regarding fall 2000 quota allocation; review NMFS Northeast Regional Office's essential fish habitat General Concurrence with Philadelphia Army Corps of Engineers, address issues regarding New York harbor spoil disposal; hear organization and committee reports.

Although non-emergency issues not contained in this agenda may come before the Council for discussion, these issues may not be the subject of formal Council action during this meeting. Council action will be restricted to those issues specifically listed in this notice and any issues arising after publication of this notice that require emergency action under section 305(c) of the Magnuson-Stevens Act, provided the public has been notified of the Council's intent to take final actions to address such emergencies.

Special Accommodations

This meeting is physically accessible to people with disabilities. Requests for sign language interpretation or other auxiliary aids should be directed to Joanna Davis at the MAFMC (see **ADDRESSES**) at least 5 days prior to the meeting date.

Dated: September 22, 2000.

Richard W. Surdi,

Acting Director, Office of Sustainable Fisheries, National Marine Fisheries Service.

BILLING CODE 3510-22-S

COMMITTEE FOR THE IMPLEMENTATION OF TEXTILE AGREEMENTS

Adjustment of Import Limits and Increase of Guaranteed Access Levels for Certain Cotton and Man-Made Fiber Textile Products Produced or Manufactured in the Dominican Republic

September 21, 2000.

AGENCY: Committee for the Implementation of Textile Agreements (CITA).

ACTION: Issuing a directive to the Commissioner of Customs adjusting limits.

EFFECTIVE DATE: September 28, 2000.

FOR FURTHER INFORMATION CONTACT:

Naomi Freeman, International Trade Specialist, Office of Textiles and Apparel, U.S. Department of Commerce, (202) 482-4212. For information on the quota status of these limits, refer to the Quota Status Reports posted on the bulletin boards of each Customs port, call (202) 927-5850, or refer to the U.S. Customs website at <http://www.customs.gov>. For information on embargoes and quota re-openings, call (202) 482-3715.

SUPPLEMENTARY INFORMATION:

Authority: Section 204 of the Agricultural Act of 1956, as amended (7 U.S.C. 1854); Executive Order 11651 of March 3, 1972, as amended.

The current limit for Categories 338/638 is being increased for the recrediting of special shift, reducing the limit for Categories 339/639 to account for the special shift being recredited.

Upon the request of the Government of the Dominican Republic, the U.S. Government has agreed to increase the current Guaranteed Access Levels for textile products in Categories 339/639 and 347/348/647/648.

A description of the textile and apparel categories in terms of HTS numbers is available in the **CORRELATION:** Textile and Apparel Categories with the Harmonized Tariff Schedule of the United States (see **Federal Register** notice 64 FR 71982, published on December 22, 1999). Also see 64 FR 50495, published on September 17, 1999.

Richard B. Steinkamp,

Acting Chairman, Committee for the Implementation of Textile Agreements.

Committee for the Implementation of Textile Agreements

September 21, 2000.

Commissioner of Customs,
Department of the Treasury, Washington, DC
