BILLING CODE 4168-17-M

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Office of the Secretary

Privacy Act of 1974; New System of Records

AGENCY: Workplace Violence Prevention Team, Office of Human Resources, Office of the Assistant Secretary for Management and Budget, Office of the Secretary, HHS.

ACTION: Notification of a new system of records.

SUMMARY: In accordance with the requirements of the Privacy Act, HHS is giving notice that it is publishing a notice of a new system of records, 09-90-1200, "Workplace Violence Prevention Team Records." We are also proposing routine uses for this new system.

DATES: OHR invites interested parties to submit comments on the proposed internal and routine uses on or before November 13, 2000. OHR sent a Report of a New System to the Congress and to the Office of Management and Budget (OMB) on September 20, 2000. The new system of records will be effective 40 days from the date submitted to OMB unless OHR receives comments that would result in a contrary determination.

ADDRESSES: Address comments to the Privacy Act Officer, Office of the Secretary, 200 Independence Avenue, SW, Room 645F, Washington, DC 20201. Comments received will be made available for public inspection at the above address during normal business hours, 8:30 a.m.-5 p.m.

FOR FURTHER INFORMATION CONTACT: Workplace Violence Prevention Team Leader, Work and Family Program, 330 C Street, SW, Room 1250, Washington, DC 20201. Telephone number is 202-690-1441 or 202-690-8229. These are not toll-free numbers.

SUPPLEMENTARY INFORMATION: The Office of Human Resources (OHR) proposes to establish a new system of records: 09-90-1200, "Workplace Violence Prevention Team Records." This system of records will be used by members of the HHS Workplace Violence Prevention Teams (WVPT) to assist

employees who contact them for assistance with an actual or potential workplace violence situation. The records of the system will be used to: (1) Administer health programs related to workplace violence prevention activities; (2) administer and support safety programs that help reduce accidents and injuries among employees; (3) monitor or follow up on violent or potentially violent situations in HHS; (4) help WVPT members make assessments of violent or potentially violent situations and then make recommendations regarding interventions to those persons involved with the situations; (5) prepare administrative reports, conduct evaluations, or audit the activities of the team; and (6) inform management, medical personnel and security staff in HHS of potential and actual dangerous situations that require their actions to assure the safety and health of employees.

The system will contain records on each person who contacts the teams for assistance. It will also contain records on individuals who are being interviewed and investigated by the teams. The records will typically contain demographic data such as the individual's name, pay plan, grade level, employing organization, office location, duty hours, telephone number and name of supervisor. Information will also be maintained about the workplace violence situations concerning those who contact the teams. This will include descriptions of events related to the workplace violence situations, others involved, as well as dates and locations of events. Each record will also contain an assessment of the situation by the WVPT, information regarding any interviews that were conducted, and the recommended interventions. If an individual is being interviewed because of another person's report, the record may also contain information that was obtained through interviews with the supervisor, Federal or local law enforcement personnel, HHS security staff, co-workers, and any others involved in the situation.

AUTHORITIES FOR MAINTENANCE OF THE SYSTEM:

- 5 U.S.C. 7901 (Health Services Programs);
- 5 U.S.C. 7902 (Safety Programs).

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

The routine uses proposed for this system are compatible with the stated purposes of the system, i.e., administer

health programs related to workplace violence; administer and support safety programs that help reduce accidents and injuries; monitor or follow up on violent or potentially violent situations in HHS; make assessments of violent or potentially violent situations and recommendations regarding interventions; prepare administrative reports, evaluations and audit activities; and inform management, medical personnel and security staff in HHS of potential or actual dangerous situations that require action to assure the safety and health of employees.

The WVPT will disclose relevant information to third parties outside the Department as follows: Routine Use 1: To a congressional office when it has received a written inquiry from an individual about whom a record is maintained in this system. This request will be verified before disclosure from the individual's record will be made to the congressional office. Routine Use 2: When a person or property is harmed, or when threats of harm to a person or property are reported, disclosure will be made, as appropriate, to law enforcement authorities, medical treatment authorities, and those persons being threatened or harmed. Routine Use 3: To the Department of Justice, a court or other tribunal, when: (a) HHS, or any component, thereof; or (b) any HHS employee in his or her official capacity; or (c) any HHS employee in his or her individual capacity where the Department of Justice (or HHS, where it is authorized to do so) has agreed to represent the employee; or (d) the United States or any agency thereof where HHS determines that the litigation is likely to affect HHS or any of its components, is a party to litigation or has interest in such litigation, and HHS determines that the use of such records by the Department of Justice, the court or other tribunal is relevant and necessary to the litigation and would help in the effective representation of the governmental party, provided, however, that in each case HHS determines that such disclosure is compatible with the purpose for which the records are collected. The local System Manager will approve any disclosure made under this routine use. Routine Use 4: To student volunteers, interns, individuals working under a personal services contract, organizations working under contract, and other individuals performing functions for the Department but technically not having the status of agency employees, if they need access to the records to perform their assigned duties. This includes those performing threat or risk

assessments. The contractor will be required to maintain Privacy Act safeguards with respect to such records. These safeguards are explained in the section entitled "Safeguards." Routine Use 5: To qualified personnel for research, audit, or evaluation purposes.

SAFEGUARDS:

The OHR has instituted extensive safeguards to protect both the automated and non-automated records. The Systems Security Officer has certified that the safeguards for the system are commensurate with the sensitivity and criticality of the records. The system notice describes: (1) The safeguards that are in effect to ensure that only authorized users have access to the records; (2) the physical security measures used to protect the records; (3) the procedural safeguards to ensure data integrity and prevent unauthorized access and disclosure; and (4) security guidelines for contractors, as applicable.

The system notice is written in the present rather than future tense to avoid the unnecessary expenditure of public funds to republish the notice after the new system becomes effective.

Dated: September 27, 2000.

Evelyn White,

Deputy Assistant Secretary for Human Resources, ASMB.

Comments submitted in response to this notice will be summarized and included in the request for OMB approval of the proposed information collection. All comments will become a matter of public record.

In accordance with the above-cited legislation, comments on the AHRQ information collection proposal are requested with regard to any of the following: (a) Whether the proposed

collection of information is necessary for the proper performance of functions of the Agency, including whether the information will have practical utility; (b) the accuracy of the Agency's estimate of the burden (including hours and costs) of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including the use of automated collection techniques or other forms of information technology.

SUPPLEMENTARY INFORMATION:

Proposed Project

"Medical Expenditure Panel Survey Household Component (MEPS-HC)—2001 through 2004".

The AHRQ intends to conduct an annual panel survey of U.S. households to collect information on a variety of measures related to health status, health insurance coverage, health care use and expenditures, and sources of payment for health services. Each panel consists of a nationally representative sample of U.S. households who remain in MEPS for two consecutive years of data collection. The first panel of MEPS began in 1996 and has continued annually thereafter. The MEPS-HC is jointly sponsored by the AHRQ and the National Center for Health Statistics (NCHS).

It will be conducted using a sample of households selected from households which responded to the National Health Interview Survey (NHIS) sponsored by NCHS. The NHIS is a household survey which collects health related data from approximately 50,000 households and 110,000 people. The NHIS is used as the sampling frame for the MEPS and several other surveys as part of efforts by the Department of Health and Human Services (HHS) to integrate survey data collection activities.

Data to be collected from each household include detailed information on demographics, health conditions, current health status, utilization of health care providers, charges and payments for health care services, quality of care received, medications, employment and health insurance.

Subject to AHRQ and NCHS confidentiality statutes, data will be made available through publications, articles in major journals as well as public use data files. The data are intended to be used for purposes such as:

- Generating national estimates of individual and family health care use and expenditures, private and public health insurance coverage, and the
