* The Standards Council of Canada (SCC) voted to end its Laboratory Accreditation Program for Substance Abuse (LAPSA) effective May 12, 1998. Laboratories certified through that program were accredited to conduct forensic urine drug testing as required by U.S. Department of Transportation (DOT) regulations. As of that date, the certification of those accredited Canadian laboratories will continue under DOT authority. The responsibility for conducting quarterly performance testing plus periodic on-site inspections of those LAPSA-accredited laboratories was transferred to the U.S. DHHS, with the DHHS' National Laboratory Certification Program (NLCP) contractor continuing to have an active role in the performance testing and laboratory inspection processes. Other Canadian laboratories wishing to be considered for the NLCP may apply directly to the NLCP contractor just as U.S. laboratories do. Upon finding a Canadian laboratory to be qualified, the DHHS will recommend that DOT certify the laboratory (FEDERAL REGISTER, 16 July 1996) as meeting the minimum standards of the "Mandatory Guidelines for Workplace Drug Testing" (59 FEDERAL REGISTER, 9 June 1994, Pages 29908-29931). After receiving the DOT certification, the laboratory will be included in the monthly list of DHHS certified laboratories and participate in the NLCP certification maintenance program.

The environmental assessment or environmental impact statement will include several alternatives that address the issues and management strategies associated with these topics.

Crab Orchard National Wildlife Refuge was established on August 5, 1947, by Public law 80-361. This Act of Congress transferred certain Federal lands acquired in connection with the Crab Orchard Creek project and the Illinois Ordnance Plant to the Secretary of the Interior. This legislation

mandated that these lands be administered by the Secretary through the Fish and Wildlife Service "for the conservation of wildlife, and for the development of the agricultural, recreational, industrial, and related purposes specified in this Act."

The 43,890-acre Refuge contains three large man-made lakes and numerous small ponds totaling 9,000 acres, 26,000 acres of forest and brush land, 5,000 acres of cropland, 2,000 acres of grassland, and 2,000 acres of administrative lands. The Refuge supports an extensive variety of plant and animal species, hosts 1.2 million recreational visitors per year, provides facilities for industrial tenants, and sponsors cooperative farmers and permittee graziers. The 4,050-acre Crab Orchard Wilderness, the first wilderness area designated in the State of Illinois, is within the Refuge.

Dated: September 29, 2000.

Acting Regional Director.

SUPPLEMENTARY INFORMATION: The authority to issue this document is vested in the Secretary of the Interior by 5 U.S.C. 301 and the Act of August 14, 1914 (38 Stat. 583; 25 U.S.C. 385). The Secretary has delegated this authority to the Assistant Secretary—Indian Affairs pursuant to part 209 Departmental Manual, Chapter 8.1A and memorandum dated January 25, 1994, from Chief of Staff, Department of the Interior, to Assistant Secretaries, and Heads of Bureaus and Offices. The new rates are specified in the following schedule.

This notice is given in accordance with Section 171.1(e) and 171.1(g) of part 171, Subchapter H, Chapter 1, of Title 25 of the Code of Federal Regulations, which provides for the fixing and announcing the rates for annual operation and maintenance assessments and related information of Bureau of Indian Affairs irrigation projects.

Background

The assessment rates are based on a prepared estimate of the cost of normal operation and maintenance of the irrigation project. Normal operation and maintenance means the expenses we incur to provide direct support or benefit to the project's activities for administration, operation, maintenance, and rehabilitation. We must include at least:

- (a) Personnel salaries and benefits for the project engineer/manager and our employees under his management/control;

- (b) Materials and supplies;
- (c) Major and minor vehicle and equipment repairs;
- (d) Equipment, including transportation, fuel, oil, grease, lease and replacement;
- (e) Capitalization expenses;
- (f) Acquisition expenses; and
- (g) Other expenses we determine necessary to properly perform the activities and functions characteristic of an irrigation project.

Payments

The irrigation operation and maintenance assessments become due based on locally established payment requirements. No water shall be delivered to any of these lands until all irrigation charges have been paid.

Interest and Penalty Fees

Interest, penalty, and administrative fees will be assessed, where required by law, on all delinquent operation and maintenance assessment charges as prescribed in the Code of Federal Regulations, Title 4, Part 102, Federal Claims Collection Standards; and 42 BIAM Supplement 3, part 3.8 Debt Collection Procedures. Beginning 30 days after the due date, interest will be assessed at the rate of the current value of funds to the U.S. Treasury. An administrative fee of \$12.50 will be assessed each time an effort is made to collect a delinquent debt; a penalty charge of 6 percent per year will be charged on delinquent debts over 90 days old and will accrue from the date the debt became delinquent. No water shall be delivered to any farm unit until all irrigation charges have been paid. Within 180 days a delinquent debt will be forwarded to the U.S. Treasury for further action in accordance with Debt Collection Improvement Act of 1996 (Public Law 104-134).

Rate Adjustment

The following table illustrates the impact of the rate adjustment:

	Present 2000	Proposed 2001	Proposed 2002
Up to 5 acre-feet/acre	\$38.50	\$37.00	\$37.00.
