Notification of Interested Parties

This notice also serves as a final reminder to importers of their responsibility under 19 CFR 351.402(f)(2) to file a certificate regarding the reimbursement of antidumping duties prior to liquidation of the relevant entries during this review period. Failure to comply with this requirement could result in the Secretary's presumption that reimbursement of the antidumping duties occurred and the subsequent assessment of double antidumping duties.

This notice also serves as a reminder to parties subject to administrative protective orders ("APOs") of their responsibility concerning the return or destruction of proprietary information disclosed under APO in accordance with 19 CFR 351.305. Timely written notification of the return/destruction of APO materials or conversion to judicial protective order is hereby requested. Failure to comply with the regulations and terms of an APO is a violation which is subject to sanction.

We are issuing and publishing this determination and notice in accordance with sections 751(a)(1) and 777(i) of the Act.

AGENCY: Commodity Futures Trading Commission.

ACTION: Notice of availability of the terms and conditions of proposed commodity futures contracts.

SUMMARY: OnExchangeSM Board of Trade, Inc. ("ONXBOT" or "Exchange") has applied for designation as a contract market for the automated trading of Five Year U.S. Treasury Note futures contracts on its electronic trading system, onTradeSM. The Exchange has not previously been approved by the Commodity Futures Trading Commission ("Commission") as a contract market in any commodity. Accordingly, in addition to the terms and conditions of the proposed futures contract, ONXBOT has submitted to the Commission proposed bylaws and rules pertaining to ONXBOT membership, governance, trading standards, disciplinary and arbitration procedures, and various other materials necessary to meet the requirements for a board of

trade seeking initial designation as a contract market, including a description of its trade-matching algorithm.

ONXBOT's submission also includes various proposed bylaws and rules of the onExchangeSM Clearing Corporation ("ONXCC"), an affiliate that would be responsible for clearing and settlement functions for the Exchange.

Acting pursuant to the authority delegated by Commission Regulation 140.96, the Division of Economic Analysis and the Division of Trading and Markets ("the Divisions") have determined to publish the Exchange's proposal for public comment. The Divisions believe that publication of the proposal for comment at this time is in the public interest, will assist the Commission in considering the views of interested persons, and is consistent with the Commodity Exchange Act. The Divisions seek comment pertaining to all aspects of ONXBOT's application and which address any issue commenters believe the Commission should consider.

DATES: Comments must be received on or before November 13, 2000.

SUPPLEMENTARY INFORMATION:**I. Description of Proposal**

By letters dated September 12, 2000 and September 27, 2000, ONXBOT, a subsidiary of onExchangeSM, Inc., has applied to the Commission for designation as a contract market for electronic trading of futures contracts in Five Year U.S. Treasury Notes. The Exchange has not previously been approved as a contract market in any commodity. Thus, in addition to the

terms and conditions of the proposed futures contract, ONXBOT has submitted, among other things, proposed bylaws and rules pertaining to ONXBOT membership rights and obligations, governance, trading standards, and disciplinary and arbitration procedures, along with a description of its trading system's trade-matching algorithm. ONXBOT's submission also includes various proposed ONXCC bylaws, rules, and procedures.

ONXBOT is organized as a Delaware corporation with one class of shares. All shares in ONXBOT are currently held by onExchangeSM, Inc. OnExchangeSM, Inc. is majority owned by its officers, employees, and venture capital investment firms. Once operational, the Exchange would be governed by a Board of Directors ("ONXBOT Board"), which would include seven directors elected by the shareholders and two public directors appointed by the seven non-public directors. The ONXBOT Board would appoint a Chairman of the Board, President, Secretary, and Treasurer, and the President would be the chief executive officer of the Exchange. ONXCC would similarly be governed by a Board of Directors that, among other things, would appoint a President as chief executive officer of the company.¹

Trading privileges on ONXBOT would be limited to ONXBOT Subscribers, who would be required to qualify as Eligible Swap Participants under Commission Regulation 35.1(b)(2). Each Subscriber would be limited to trading for its own accounts, with no intermediation permitted. Subscribers could designate an unlimited number of Authorized Traders ("ATs") to exercise discretion over their trading accounts, and would be responsible for supervising all activities of their ATs relating to transactions effected on the Exchange or subject to its rules. Each Subscriber would also be responsible for training and testing its ATs with respect to the proper use of the Exchange and its rules. Any violation of the rules and bylaws of the Exchange by any AT would be deemed a violation of the AT's Subscriber.

¹ ONXCC is organized as a Delaware non-stock, membership corporation with two classes of members. Class A members of ONXCC are entitled to elect and remove directors, and decide all matters which require a vote of the corporation's members. Only the holders of Class A shares would be entitled to receive any dividends or distributions that may be declared or paid by the corporation. OnExchangeSM, Inc. initially will be the sole Class A member. Class B members, comprised of all ONXBOT Subscribers, are not entitled to vote on any matter. ONXCC's Board would initially be comprised of three directors.
