

of the 1-hour ozone standard in the Beaumont/Port Arthur (B/PA), Houston/Galveston (H/GA), and Dallas/Fort Worth (D/FW) nonattainment areas and will contribute to continued maintenance of the standard in the rest of the State of Texas. Second, we are approving revisions to the Texas NO<sub>x</sub> SIP for certain major stationary point source categories in the B/PA ozone nonattainment area. These new limits for certain stationary point sources will contribute to attainment of the 1-hour ozone standard in the B/PA area. Third, we are approving revisions to the existing approved Texas NO<sub>x</sub> Reasonably Available Control Technology SIP because the changes are administrative in nature. Fourth, we are approving two Agreed Orders between the State of Texas and two companies in Northeast Texas. These Orders will contribute to attainment of the 1-hour ozone standard in the B/PA, H/GA, and D/FW nonattainment areas and will contribute to continued maintenance of the standard in the eastern half of the State of Texas.

The EPA is approving these revisions to regulate emissions of Nitrogen dioxide in accordance with the requirements of the Federal Clean Air Act.

In the "Rules and Regulations" section of this **Federal Register**, EPA is approving the State's SIP revision as a direct final rule without prior proposal because the EPA views this as a noncontroversial revision and anticipates no adverse comment. The EPA has explained its reasons for this approval in the preamble to the direct final rule. If EPA receives no relevant adverse comments, the EPA will not take further action on this proposed rule. If EPA receives relevant adverse comment, EPA will withdraw the direct final rule and it will not take effect. The EPA will address all public comments in a subsequent final rule based on this proposed rule. The EPA will not institute a second comment period on this action. Any parties interested in commenting must do so at this time. Please note that if we receive adverse comment(s) on an amendment, paragraph, or section of this rule and if that provision is independent of the remainder of the rule, we may adopt as final those provisions of the rule that are not the subject of an adverse comment.
