#### Agency Findings

The regulations adopted herein will not have substantial direct effects on the States, on the relationship between the national government and the States, or on the distribution of power and responsibilities among the various levels of government. Therefore, it is determined that this final rule will not have federalism implications under Executive Order 13132.

Further, the FAA has determined that this regulation is noncontroversial and unlikely to result in adverse or negative comments and only involves an established body of technical regulations that require frequent and routine amendments to keep them operationally current. Therefore, I certify that this regulation (1) is not a "significant regulatory action" under Executive Order 12866; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) if promulgated, will not have a significant economic impact, positive or negative,

on a substantial number of small entities under the criteria of the Regulatory Flexibility Act. Since this rule involves routine matters that will only affect air traffic procedures and air navigation, it does not warrant preparation of a Regulatory Flexibility Analysis because the anticipated impact is so minimal.

#### **Revision of Class E Airspace; Bonham, TX**

**AGENCY:** Federal Aviation Administration (FAA), DOT.

**ACTION:** Direct final rule; correction.

**SUMMARY:** This action corrects an error in the legal description of a direct final rule that was published in the **Federal Register** on January 6, 2000 (65 FR 700) that revised the Class E Airspace at Bonham, TX.

**EFFECTIVE DATE:** 0901 UTC, February 17, 2000.

**FOR FURTHER INFORMATION CONTACT:** Donald J. Day, Airspace Branch, Air Traffic Division, Southwest Region, Federal Aviation Administration, Fort Worth, TX 76193-0520, telephone 817-342-5593.

#### **SUPPLEMENTARY INFORMATION:**

##### **History**

On January 6, 2000 (65 FR 700), the FAA published a direct final rule that revised the description of the Class E airspace area at Bonham, TX. However, an error was made in the legal description for the Bonham, TX Class E airspace area. The extension, based on the location of the Rayburn NDB, within "2.5 miles each side of the 347° bearing from the Rayburn NDB extending from the 6.4-mile radius to 7.5 miles northwest of the airport" was incorrectly included. That extension was already included in the legal description and was unnecessary.

##### **Correction to Final Rule**

Accordingly, pursuant to the authority delegated to me, the publication on January 6, 2000; FR DOC 00-242 and the legal description in FAA Order 7400.9G which is incorporated by reference in 14 CFR 71.1 are corrected as follows:

##### **§ 71.1 [Corrected]**

\* \* \* \* \*

On page 701, the legal description is corrected to read as follows:

##### **ASW TX E5 Bonham, TX [Revised]**

Bonham, Jones Field, TX  
(Lat. 33°36'42"N., long. 96°10'46"W.)  
Bonham VORTAC  
(Lat. 33°32'15"N., long. 96°14'03"W.)

That airspace extending upward from 700 feet above the surface within a 6.4-mile radius of Jones Field and within 4 miles east

and 8 miles west of the 030° radial of the Bonham VORTAC extending from the 6.4-mile radius to 15 miles northeast of the airport.
