The Agency has considered the available data on the risks associated with the proposed use of Flucarbazone-Sodium, and information on social, economic, and environmental benefits to be derived from such use.

Consistent with section 3(c)(7)(C) of FIFRA, the Agency has determined that these conditional registrations are in the public interest. Use of the pesticides are of significance to the user community, and appropriate labeling, use directions, and other measures have been taken to ensure that use of the pesticides will not result in unreasonable adverse effects to man and the environment.
