SUPPLEMENTARY INFORMATION:

Background

This solicitation is issued pursuant to section 231 of the Agriculture Risk Protection Act of 2000 (Pub. L. 106-224) authorizing the establishment of the Value-Added Agricultural Product Market Development grants. The Secretary of Agriculture has delegated the program's administration to USDA's Rural Business-Cooperative Service for the fiscal year ending September 30, 2001.

The primary objective of this grant program is to encourage producers of agricultural commodities and products of agricultural commodities to further refine these products increasing their value to end users. These grants will facilitate greater participation in markets for value-added agricultural commodities and facilitate the opening of new markets for value-added products. These grants will be used to fund ventures for a variety of agricultural commodities. Grants will only be awarded if projects or ventures are determined to be economically viable and sustainable.

Since there are numerous eligible uses for a VADG grant, applicants must carefully list each activity they will undertake and the order each activity will be completed. This is critical since payments for subsequent activities will be made based on the successful

completion of prerequisite activities. The Agency reserves the right to terminate the grant award if a prerequisite activity was not successful or if it showed the venture has a low probability of success. For example, business operations plan development will not be funded until a feasibility study has been completed and the results of the study show the venture has a strong chance of success.

Applicants must provide matching non-Federal funds at least equal to the grant. Grant funds will be disbursed pursuant to 7 CFR parts 3015 and 3019. Matching funds must be used to support the overall purpose of the VADG program.

All forms required to apply are available from the Cooperative Services Program web-site at <http://www.rurdev.usda.gov/rbs/coops/vadg.htm>, by calling (202) 690-0368, or facsimile (202) 690-2723. Forms may be requested via the internet by sending a message with your name, mailing address (not e-mail), and phone number to thomas.stafford@usda.gov. When calling or e-mailing, please indicate you are requesting forms for fiscal year (FY) 2001 Value-Added Product Market Development Grant Program. Forms will be mailed to you (not e-mailed or faxed) as quickly as possible. Forms are also available from most local USDA Rural Development offices.

The project proposed must add value as defined above to an agricultural product or a product of an agricultural product.

Proposal Preparation

A proposal should contain the following:

(1) *Form SF-424*, "Application for Federal Assistance."

(2) *Form SF-424A*, "Budget Information—Non-Construction Programs."

(3) *Form SF-424B*, "Assurances—Non-Construction Programs."

(4) *Table of Contents*. For ease of locating information, each proposal must contain a detailed Table of Contents immediately following the required forms. The Table of Contents should include page numbers for each component of the proposal. Pagination should begin immediately following the Table of Contents.

(5) *Proposal Summary*. A summary of the Project Proposal, not to exceed one-page, should include the following: title of the project; description of the project including goals and tasks to be accomplished; names of the individuals responsible for conducting and completing the tasks; and the expected timeframe for completing all tasks.

(6) *Proposal Narrative*. The narrative portion of the project proposal must include at least the following:

(i) Project Title. The title of the proposed project must be brief, yet represent the major thrust of the project.

(ii) Information sheet. A separate one-page information sheet which lists each of the seven evaluation criteria listed in this NOFA under the "Evaluation Criteria and Weights" section, followed by the page numbers of all relevant material and documentation contained in the proposal which addresses or supports that criteria.

(iii) Goals of the Project. A clear statement of the ultimate goal of the project must be presented. It must describe the value-added venture to be developed and all the organizational

tasks and their sequence that need to be completed before operations can begin. Examples of similar types of operations should be presented and discussed in detail.

(iv) **Specific Tasks to Be Completed.** The narrative must list the specific tasks that will be funded by the grant. For example, a group of producers may want to have a feasibility study conducted and a business operations plan drafted. The details of these two tasks must be presented and discussed. This includes the order in which they will be completed and an estimate of the time necessary to complete the tasks. The Agency reserves the right to terminate the grant if a prerequisite activity was not successful or it showed the venture had a low probability of success.

(v) **Evaluation Criteria.** Each of the seven evaluation criteria listed in the Evaluation Criteria and Weights section of this NOFA must be addressed specifically and individually by category. These criteria should be in narrative form with any specific supporting documentation.

(7) **Verification of Matching Funds.** Present a copy of a bank statement if matching funds are in cash or a copy of the confirmed funding commitment from the funding source. If in-kind match is included, so state and provide verification of all commitments and how those commitments are priced.

(8) **Budget.** A detailed breakdown of estimated costs and a project budget.

Grant Amounts

The amount of funds available for VADG grants in FY 2001 is \$20,000,000. The actual number of grants funded will depend on the quality of proposals received and the amount of funding requested. Maximum amount of Federal funds awarded for any one proposal will be \$500,000. Up to \$10,000,000 will be awarded in the first round of competition with any residual amount awarded in the second round. Eligible applicants not awarded in the first round will automatically be included in the second competition, unless an applicant wishes to submit a modified proposal.

In the event that the applicant is awarded a grant that is less than the amount requested, they will be required to modify their application to conform to the reduced amount before execution of the grant agreement. The Agency reserves the right to reduce or de-obligate the award, if acceptable modifications are not submitted by the awardee within 15 working days from the date the application is returned to the applicant. Any modifications must

be within the scope of the original application.

Eligible Grant and Matching Funds Uses

Grant funds may be used to pay up to 50 percent of the costs for carrying out relevant projects. Applicant's contribution in cash or in-kind must be in accordance with 7 CFR parts 3015 and 3019. Grant and the recipient's matching funds may be used for, but are not limited to, the following purposes:

1. Conduct a feasibility analysis of the proposed value-added venture to help determine the potential success of the venture. Funds can be used to hire a qualified consultant.

2. Develop a business operations plan that provides comprehensive details on the management, planning, and other operational aspects of the proposed venture. Funds can be used to hire a qualified consultant.

3. Develop a business marketing plan for the proposed value-added product or products including the identification of a market window, the identification of potential buyers, a description of the distribution system, and possible promotional campaigns. Funds can be used to hire a qualified consultant.

4. Establish a working capital account to fund operations prior to obtaining sufficient cash flow from operations. Funds from this account can be used for, but are not limited to:

- (a) hiring an attorney to provide legal advice and to draft articles of incorporation, bylaws, and other legal documents related to the proposed venture;

- (b) hiring a Certified Public Accountant or other qualified individual to design an accounting system for the proposed venture; and

- (c) pay salaries, utilities, and other operating costs to finance inventories, purchase office equipment, computers, and supplies, and finance other related activities necessary to establish alliances or business ventures that allow producers to better compete in domestic or international markets for value-added products.

Ineligible Grant Uses

Grant and matching funds cannot be used to:

1. Plan, repair, rehabilitate, acquire, or construct a building or facility (including a processing facility);

2. Purchase, rent, or install fixed equipment;

3. Repair or maintain privately owned vehicles;

4. Pay for the preparation of the grant application;

5. Fund political activities;

6. Pay costs incurred prior to receiving this grant;

7. Fund any activities prohibited by 7 CFR parts 3015 and 3019; and

8. Fund architectural or engineering design work for the physical facility that are often part of the project feasibility study.

Methods for Evaluating and Ranking Applications

Applications will be evaluated by a panel of agricultural economists and other technical experts appointed by RBS. Applications will be evaluated competitively and points awarded as specified in the "Evaluation Criteria and Weights" section of this NOFA. After assigning points upon those criteria, applications will be listed in initial rank order and presented, along with funding level recommendations, to the Administrator of RBS, who will award the grants. The Administrator reserves the right to add 10 points to any proposal to ensure geographic distribution. The Administrator further reserves the right to add 10 points to any proposal to ensure commodity type distribution. Applications will then be funded in final rank order until all available funds have been expended.

Applicants must score 65 points or more during the first round to be considered for funding. Unused remaining funds from the first competition will be allocated to the second competition. Unless the proposal is withdrawn, eligible, but unfunded, proposals from the first competition will be considered in the second competition, with or without a revision by the applicant.

Evaluation Criteria and Weights

RBS will initially determine whether the submitting organization is eligible and whether the application contains the information required by this NOFA. Prior to technical examination, each proposal will be reviewed for responsiveness to the funding solicitation. Submissions that do not fall within the guidelines as stated in this NOFA will be eliminated from the competition and will be returned to the applicant. After this initial screening, RBS will use the following criteria to rate and rank proposals received in response to this NOFA. Failure to address any of the following criteria will disqualify the proposal.

1. Technical feasibility of the value-added activity (Maximum 20 points). Describe in detail the operations of the proposed venture. This must include the value-added activity being proposed, the technology to be used and its availability, and examples of similar ventures. Projects will be evaluated

under this criteria for their overall ability to (1) operate efficiently, (2) maximize returns to producers, (3) be sustainable, and (4) improve the local rural economy.

2. Level of producer commitment (Maximum 20 points). Describe in detail the number of independent producers who will participate in the venture and their total level of production, the number and type of written commitments received, and the amount of funds raised from the independent producers.

3. Level of commitment from end-users of the product to be produced (Maximum 15 points). Describe in detail who will purchase the output of the venture; estimate the amount to be purchased; provide any completed marketing studies; and provide any letters of intent or similar commitment from the potential end-users.

4. Qualifications of personnel performing the proposed tasks and a demonstrated track-record of performing activities similar to those being proposed (Maximum 15 points). Describe in detail qualifications of the individuals who will actually do the proposed tasks and provide resumes and information about their organizations. If a consultant or others are to be hired, include a statement as to their commitment, as well as their qualifications.

5. Plan of work incorporating the appropriate tasks to accomplish the stated objectives (Maximum 15 points). The work plan must include the specific tasks that will be completed using the grant and matching fund money. Describe in detail the various tasks to be performed. For example, if the task is a feasibility study, the work plan must include the various aspects of the venture that will be analyzed. The work plan must present the order the tasks will be undertaken and the estimated time for completing each task. If the grant and match will be used for working capital, a detailed description of how the capital will be used must be included. Sufficient detail must be provided to determine whether or not funds are being used for qualified purposes.

6. Project cost per producer (Maximum 10 points). Calculated by dividing the estimated total number of producers benefiting from the venture by the project funding (grant amount plus the applicant's match). Scores will be assigned based on all applications in the competition.

7. Level of support from different development groups and agencies (Maximum 5 points). Describe in detail the involvement of other groups, state

agencies, and local agencies in the venture and the kind of support they are providing. This can be financial and in-kind support.
