

(b) Warning signs posted to limit access to authorized people.

(c) Storage facilities protected by locked entryways or security guards.

(d) Sign-in and sign-out logs for access to storage facilities by requestors researching, acquiring, or delivering documents.

RETENTION AND DISPOSAL:

The OST receives and produces records that it sends to OTR and records service centers in Albuquerque, NM. After a period of time to be specified in an authorized OTFM Records Retention Schedule, OTR transfers records to the appropriate Federal Records Center or National Archives and Records Administration facility.

SYSTEM MANAGER AND ADDRESS:

Director, Office of Trust Records, 6301 Indian School Road NE., Suite 300, Albuquerque, NM 87110.

NOTIFICATION PROCEDURES:

To determine whether your records are in this Privacy Act system of records, contact the System Manager at the address listed above in writing. The request must meet the requirements of 43 CFR 2.60. Provide the following information with your request:

- (a) Proof of your identity.
- (b) List of all of the names by which you have been known, such as maiden name or alias.
- (c) Your Social Security Number.
- (d) Mailing address.
- (e) Tribe, tribal enrollment or census number.
- (f) Bureau of Indian Affairs home agency.
- (g) Time period(s) that records belonging to you may have been created or maintained, to the extent known by you. (See 43 CFR 2.60(b)(3)).

RECORD ACCESS PROCEDURES:

To request access to records, contact the System Manager at the address listed above in writing. The request must meet the requirements of 43 CFR 2.63. Provide the following information with your request:

- (a) Proof of your identity.
- (b) List of all of the names by which you have been known, such as maiden name or alias.
- (c) Your Social Security Number.
- (d) Mailing address.
- (e) Tribe, tribal enrollment or census number.
- (f) Bureau of Indian Affairs home agency.
- (g) Time period(s) that records belonging to you may have been created or maintained, to the extent known by you.

(h) Specific description or identification of the records you are requesting (including whether you are asking for a copy of all of your records or only a specific part of them), and the maximum amount of money that you are willing to pay for their copying. (See 43 CFR 4.63(b)(5)).

CONTESTING RECORD PROCEDURES:

To request an amendment of a record, contact the System Manager at the address listed above in writing. The request must meet the requirements of 43 CFR 2.71.

RECORDS SOURCE CATEGORIES:

(a) Bureau of Indian Affairs, Office of Trust Funds Management, Minerals Management Service, Bureau of Land Management, Office of Hearings and Appeals, and other appropriate agencies in the Department of the Interior. Other Federal and State agencies.

(b) Individual Indian trust account holders, or their heirs. Depositors into the accounts and claimants against the accounts.

(c) Tribal offices if the IIM function is contracted or compacted under the Indian Self-Determination and Education Assistance Act, Pub. L. 93-638, 88 Stat. 2203, as amended.

(d) Courts of competent jurisdiction, including tribal courts.

EXEMPTIONS CLAIMED FOR THE SYSTEM:

None.

BILLING CODE 4310-02-P

DEPARTMENT OF THE INTERIOR

Fish and Wildlife Service

Information Collection Renewal Submitted to the Office of Management and Budget (OMB) for Approval Under the Paperwork Reduction Act

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Notice; request for comments.

SUMMARY: The U.S. Fish and Wildlife Service has submitted to OMB the requirements for collection of information from applicants who wish to obtain a permit to conduct activities under the Migratory Bird Treaty Act, the Bald and Golden Eagle Protection Act, and the Convention on International Trade in Endangered Species, and for collection of report information about activities conducted under permits. OMB approval of information collections is required under the Paperwork Reduction Act. If you wish to obtain copies of the proposed

information collection requirements, related forms, and explanatory material, contact the Collection Clearance Officer at the address listed below.

DATES: OMB has up to 60 days to approve or disapprove information collection but may respond after 30 days. Therefore, to ensure maximum consideration, you must submit comments on or before April 9, 2001.

ADDRESSES: Send your comments and suggestions on specific requirements to the Office of Management and Budget, Attention: Department of the Interior Desk Officer, 725 17th Street, NW, Washington, DC 20503, and to Rebecca Mullin, Collection Clearance Officer, U.S. Fish and Wildlife Service, MS 222-ARLSQ, 4401 North Fairfax Drive, Arlington, VA 22203.

FOR FURTHER INFORMATION CONTACT: For further information regarding this submission or to request a copy of the information collection request, explanatory information and related forms, contact Rebecca A. Mullin, Collection Clearance Officer at (703) 358-2287, or electronically to rmullin@fws.gov.

SUPPLEMENTARY INFORMATION: OMB regulations at 5 CFR 1320, which implement provisions of the Paperwork Reduction Act of 1995 (Pub. L., 104-13), require that interested members of the public and affected agencies have an opportunity to comment on information collection and recordkeeping activities (see 5 CFR 1320.8(d)). We published a 60-day notice inviting public comment on this information collection in the **Federal Register** on September 6, 1999 (65 FR 54060). We received no comments.

We have submitted a request to OMB for renewal of their approval for the information collections assigned OMB control numbers 1018-0022 and 1018-0099, and to approve several new forms. We are not allowed to conduct or sponsor a collection of information, and a person is not required to respond to a request for information, unless it displays a currently valid OMB control number.

We requested renewed approval of the collection of information for Service license/permit application forms 3-200-6 through 3-200-18. We also requested approval for a new application form 3-200-67 for special Canada goose permits, for which the collection of information was assigned OMB approval number 1018-0099 during the rulemaking process (64 FR 32774, June 17, 1999). We have requested that the special Canada goose information collection be incorporated under OMB No. 1018-0022. We also requested

approval for permit reporting forms 3-202-1 through 3-202-5, which supersede forms 3-202a, 3-202c, 3-430b, and 3-430d. Also, we are requesting approval for three new report forms, 3-202-7, 3-202-8, and 3-202-9. These new report forms do not represent new information collections. Rather, we have taken existing report forms that covered several permit types and created new forms tailored to the specific permit activity. This will make each report form easier for permittees to understand and complete. We also requested approval for a streamlined application form that is specific to renewing expired or expiring permits (3-200-68). This does not represent a new information collection—merely a specific form to facilitate renewal requests. Finally, we requested approval for two new application forms, 3-200-69 and 3-200-70, which will assist individuals and entities in obtaining permits under the Convention on International Trade in Endangered Species and the Bald and Golden Eagle Protection Act to temporarily transport eagle parts into and out of the United States, as authorized by a recent amendment of 50 CFR 22.21 and 22.22 (64 FR 50467; September 17, 1999). We requested a 3-year term of approval for this information collection activity, which is the maximum term allowed.

We have reformatted and revised all of our application and report forms to improve clarity and presentation. This should improve the completeness of applications and reports we receive and reduce delays associated with having to contact applicants and permittees for additional information or clarification. Revisions were made to the annual report forms to (1) clarify the

information being collected, (2) convert report form numbers to consecutive numbers, (3) eliminate collection of certain information that we no longer track, and (4) reorganize the forms to accommodate future electronic submission of data. For instance, on rehabilitation annual reports, instead of collecting certain information on each individual birds received by the permittee, we will collect a summary of the information by species. All of our forms will be available on the Internet following OMB approval.

We invite comments concerning this information collection, including on: (1) Whether the collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility; (2) the accuracy of the agency's estimate of burden, including the validity of the methodology and assumptions used; (3) ways to enhance the quality, utility and clarity of the information to be collected; and (4) ways to minimize the burden of the collection of information on those who are to respond, including the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology. The information collections in this program are part of a system of records covered by the Privacy Act 95 U.S.C. 552(a)).

The information on the application forms will be used to determine whether an applicant meets criteria established in the various migratory bird treaties, laws, and regulations for issuance of a permit or whether a permit must be suspended, revoked, or denied. Information on the report forms will be

used to monitor permit compliance and track species taken from the wild.

The information collection requirements in this submission implement the regulatory requirements of the Migratory Bird Treaty Act (16 U.S.C. 704) (50 CFR part 21), the Lacey Act (18 U.S.C. 42-44)(50 CFR part 14), the Bald and Golden Eagle Protection Act (16 U.S.C. 668)(50 CFR part 22), and the Convention on International Trade in Endangered Species of Wild Fauna and Flora (CITES) (27 UST 108)(50 CFR part 23), and are contained in Service regulations in Chapter I, Subchapter B of Title 50 Code of Federal Regulations (CFR). Common permit application and recordkeeping requirements have been consolidated in 50 CFR part 13.

The individual permit types with information collection requirements, the estimated number of responses per year, the burden hours, and the applicable regulatory authority are included in the table below. Since the previous **Federal Register** notice, we changed the annual report form numbers to make them consecutive. In addition, some data in the table have been updated since the previous notice. With the exception of special Canada goose permits (5 years), depredation permits (1 year), golden eagle nest permits (2 years), and Indian religious permits (indefinite), most migratory bird permits are valid for 3 years. Most of these permits are renewable. To renew a permit, an applicant may complete a renewal application instead of the regular application for the type of permit he or she holds. Therefore, the figures in the Total No. of Responses column do not reflect the total number of requests received annually for a given type of permit.

Activity and application and report form number (* means report form used for more than one permit activity)	Total No. of responses (annually)	Estimated completion time (hr)	Total annual burden hours	Regulatory authority

BILLING CODE 4310–55–P

DEPARTMENT OF THE INTERIOR

Fish and Wildlife Service

Endangered Species Permit Applications

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Notice of receipt of permit applications.

SUMMARY: The following applicants have applied for a scientific research permit to conduct certain activities with endangered species pursuant to section 10 (a)(1)(A) of the Endangered Species

Act of 1973, as amended (16 U.S.C. 1531 et seq.).

Permit No. TE–037806

Applicant: Bureau of Land Management, Bakersfield, California

The applicant requests a permit to take (harass by survey, collect and sacrifice) the Conservancy fairy shrimp (*Branchinecta conservatio*), longhorn fairy shrimp (*Branchinecta longiantenna*), San Diego fairy shrimp (*Branchinecta sandiegonensis*), and the vernal pool tadpole shrimp (*Lepidurus packardii*) throughout each species range in conjunction with surveys for the purpose of enhancing their survival. These activities were previously authorized under subpermit No. BLMBD–1.

Permit No. TE–837310

Applicant: Philip E. Persons, Lompoc, California.

The applicant requests a permit amendment to take (locate and monitor nests) the California least tern (*Sterna antillarum browni*) in conjunction with monitoring in San Luis Obispo and Santa Barbara Counties for the purpose of enhancing its survival.

Permit Nos. TE–038271; TE–038065; TE–038109; TE–038697; TE–038583

Applicants: Jennifer Simmons, Ventura, California; Shannon Allen, San Diego, California; Theodore Noble Lee, San Diego, California; Jennifer

Anderson, Solana Beach, California; Cynthia Wood, Julian, California.

Theses applicants each request a permit to take (survey by pursuit) the Quino checkerspot butterfly (*Euphydryas editha quino*) in conjunction with surveys throughout the species' range in California for the purpose of enhancing its survival.

Permit No. TE–038716

Applicant: Frank Wegscheider, Orange, California.

The applicant requests a permit to take (harass by survey, collect and sacrifice) the Conservancy fairy shrimp (*Branchinecta conservatio*), longhorn fairy shrimp (*Branchinecta longiantenna*), San Diego fairy shrimp (*Branchinecta sandiegonensis*), and the vernal pool tadpole shrimp (*Lepidurus packardii*) and take (survey by pursuit) the Quino checkerspot butterfly (*Euphydryas editha quino*) throughout each species' range in conjunction with surveys for the purpose of enhancing their survival.

Permit No. TE–797665

Applicant: Regional Environmental Consultants, San Diego, California.

The permittee requests an amendment to take (harass by survey and monitor nests) the southwestern willow flycatcher (*Empidonax traillii extimus*) and take (harass by survey) the cactus ferruginous pygmy-owl (*Glaucidium brasilianum cactorum*) in conjunction with surveys and population monitoring
