

Quillayute River to Port Angeles and Port Townsend. In the last four years, on average, 89 cases per year have occurred in the waters adjacent to Port Angeles and Port Townsend. The Coast Guard has responded to these cases using helicopters stationed at Port Angeles. Additional boats and people at Port Angeles and Port Townsend would reduce the risk that lives and property would be lost in cases adjacent to those areas.

The EA will be prepared in accordance with Coast Guard procedures and policies (Commandant Instruction M16475.1C) and section 102 (2)(c) of the National Environmental Policy Act (NEPA) of 1969 as implemented by the Council on Environmental Quality regulations (40 CFR parts 1500–15068).

Title: Preparation and Execution of the Project Agreement and Modifications.

Abstract: Formal agreements between State transportation departments and the FHWA are required for Federal-aid highway projects. These agreements, referred to as "project agreements" are written contracts between the State and the Federal government that define the extent of work to be undertaken and commitments made concerning a highway project. Section 1305 of the Transportation Equity Act for the 21st Century (TEA-21, Pub. L. 105-178) amended 23 U.S.C. 106(a) and combined authorization of work and execution of the project agreement for a Federal-aid project into a single action. States continue to have the flexibility to use whatever format is suitable to provide the statutory information required, and burden estimates for this information collection are not changed.

Respondents: 50 State Transportation Departments, the District of Columbia, the Commonwealth of Puerto Rico, the Commonwealth of the Northern Mariana Islands, and the Territories of Guam, the Virgin Islands and American Samoa.

Estimated Total Annual Burden: 12,040 hours. There are an average of 215 annual agreements per respondent. Each agreement requires approximately one hour to complete.

Executive Order 12862 requires all agencies to identify their customers, survey their satisfaction with current services, set standards for service and measure results against them. The results of ongoing surveys will be used to gauge overall reader satisfaction and solicit feedback for improvements.

Respondents: Approximately 1,500 paid and complementary subscribers to "Public Roads" magazine.

Frequency: Approximately every 3 years.

Estimated Total Annual Burden: 375 hours. The average burden per response is 15 minutes.

Title: Emergency Relief Funding Applications.

Abstract: Section 125 of Title 23 United States Code requires States to submit applications to the FHWA for emergency relief (ER) funds. The ER funds are established for the repair or reconstruction of Federal-aid highways and Federal roads which have suffered serious damage by natural disasters over a wide area or serious damage from catastrophic failures.
