

processed blue mussels from Canada are being, or are likely to be, sold at less than fair value.

#### **Allegations and Evidence of Material Injury and Causation**

The petition alleges that the U.S. industry producing the domestic like product is being materially injured, or is threatened with material injury, by reason of the individual and cumulated imports of the subject merchandise sold at less than NV. The petitioner contends that the industry's injured condition is evident in the declining trends in net operating profits, net sales volumes, profit to sales ratios, and capacity utilization. The allegations of injury and causation are supported by relevant evidence including the U.S. Customs' import statistics and the *Seafood Report* which indicate that imports of blue mussels from Canada in 2000 grew by at least 30 percent compared to the prior year. *See Seafood Report*, at vol. 5, numbers 9 and 12 (attached to the petition). According to the petitioner, the trend of Canadian imports registered similar growth rates in the past four years, while during the same period petitioner's sales have been declining. We have assessed the allegations and supporting evidence regarding material injury and causation, and have determined that these allegations are properly supported by accurate and adequate evidence and meet the statutory requirements for initiation (*see Initiation Checklist* at Attachment Re: Material Injury).

#### **Initiation of Antidumping Investigation**

Based upon our examination of the petition on live processed blue mussels, and the petitioner's response to our supplemental questionnaire clarifying the petition, as well as our conversations with industry experts who provided information concerning various aspects of the petition, we have found that they meet the requirements of section 732 of the Act. *See* Industry Support Memorandum. Therefore, we are initiating an antidumping duty investigation to determine whether imports of live processed blue mussels from Canada are being, or are likely to be, sold in the United States at less than fair value. Unless this deadline is extended, we will make our preliminary determination no later than 140 days after the date of this initiation.

#### **Distribution of Copies of the Petitions**

In accordance with section 732(b)(3)(A) of the Act, a copy of the public version of this petition has been provided to the representatives of the Government of Canada. We will attempt

to provide a copy of the public version to each exporter named in the petition, as appropriate.

#### **International Trade Commission Notification**

We have notified the ITC of our initiation, as required by section 732(d) of the Act.

#### **Preliminary Determinations by the ITC**

The ITC will determine, no later than April 26, 2001, whether there is a reasonable indication that imports of live processed blue mussels from Canada are causing material injury, or threatening to cause material injury, to a U.S. industry. A negative ITC determination will result in the investigation being terminated; otherwise, this investigation will proceed according to statutory and regulatory time limits.

This notice is issued and published pursuant to section 777(i) of the Act. Effective January 20, 2001, Bernard T. Carreau is fulfilling the duties of the Assistant Secretary for Import Administration.

Dated: April 2, 2001.

**Bernard T. Carreau,**

*Deputy Assistant Secretary, Import Administration.*

#### **Industrial Phosphoric Acid From Israel: Notice of Extension of Time Limit for Countervailing Duty Administrative Review**

**AGENCY:** Import Administration, International Trade Administration, Department of Commerce.

**EFFECTIVE DATE:** April 6, 2001.

**SUMMARY:** The Department of Commerce (the Department) is extending the time limit for the preliminary results of the administrative review of the countervailing duty order on industrial phosphoric acid from Israel. The review covers the period January 1, 1999 through December 31, 1999.

**FOR FURTHER INFORMATION CONTACT:**

Sean Carey or Samantha Denenberg, AD/CVD Enforcement Office 7, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue, NW., Washington, DC 20230, telephone: (202) 482-3964 or (202) 482-1386, respectively.

#### **Postponement of Preliminary Results of Review**

On October 2, 2000, the Department published a notice of initiation of an administrative review of the countervailing duty order on industrial phosphoric acid from Israel, covering the period January 1, 1999 through December 31, 1999 (65 FR 58733). The preliminary results are currently due no later than May 3, 2001.

Section 751(a)(3)(A) of the Tariff Act, as amended (the Act), requires the Department to make a preliminary determination within 245 days after the last day of the anniversary month of an order/finding for which a review is requested. However, if it is not practicable to complete the preliminary results within this time period, section 751(a)(3)(A) of the Act allows the Department to extend the time limit for a preliminary determination to a maximum of 365 days.

We determine that it is not practicable to complete the preliminary results of this review within the original time limit. Therefore, the Department is extending the time limit for completion of the preliminary results to no later than August 31, 2001. *See* Memorandum from Barbara E. Tillman to Joseph A. Spetrini, dated April 2, 2001, which is on file in the Central Records Unit, Room B-099 of the main Commerce Building. This extension is in accordance with section 751(a)(3)(A) of the Act.

Dated: March 30, 2001.

**Joseph A. Spetrini,**

*Deputy Assistant Secretary, AD/CVD Enforcement Group III.*

### **DEPARTMENT OF COMMERCE**

#### **National Oceanic and Atmospheric Administration**

#### **Evaluation of Coastal Zone Management Programs and National Estuarine Research Reserves**

**AGENCY:** Office of Ocean and Coastal Resource Management, National Ocean Service, National Oceanic and Atmospheric Administration (NOAA), DOC.

**ACTION:** Notice of intent to evaluate.

**SUMMARY:** The NOAA Office of Ocean and Coastal Resource Management (OCRM) announces its intent to evaluate the performance of the Georgia Coastal Management Program, and the Rookery Bay National Estuarine Research Reserve in Florida.

The Coastal Zone Management Program evaluation will be conducted pursuant to section 312 of the Coastal Zone Management Act of 1972 (CZMA), as amended and regulations at 15 CFR Part 923. The National Estuarine Research Reserve evaluation will be conducted pursuant to section 315 of the CZMA, as amended and regulations at 15 CFR Part 921, Subpart E and part 923 Subpart L.

The CZMA requires continuing review of the performance of states with respect to coastal program and research reserve program implementation. Evaluation of Coastal Zone Management Programs and National Estuarine Research Reserves requires findings concerning the extent to which a state has met the national objectives, adhered to its coastal program document or Reserve final management plan, approved by the Secretary of Commerce, and adhered to the terms of financial assistance awards funded under the CZMA.

The evaluations will include a site visit, consideration of public comments, and consultations with interested Federal, State, and local agencies and members of the public. Public meetings will be held as part of the site visits.

Notice is hereby given of the dates of the site visits for the listed evaluations, and the date, local time, and location of the public meetings during the site visits.

The Georgia Coastal Management Program evaluation site visit will be from May 21–25, 2001. One public meeting will be held during the week. The public meeting will be held on Wednesday, May 23, 2001, at 7 p.m., at the Georgia Coastal Resources Division Offices, One Conservation Way, Brunswick, Georgia.

The Rookery Bay National Estuarine Research Reserve site visit will be from May 12–18 2001. One public meeting will be held during the week. The public meeting will be held on Thursday, May 17, 2001, at 6 p.m., at the Rookery Bay National Estuarine Research Reserve Headquarters Building, Florida Department of Environmental Protection, 300 tower Road, Naples, Florida.

Copies of states' most recent performance reports, as well as OCRM's notifications and supplemental request letters to the states, are available upon request from OCRM. Written comments from interested parties regarding these Programs are encouraged and will be accepted until 15 days after the public meeting. Please direct written comments to Margo E. Jackson, Deputy Director, Office of Ocean and Coastal Resource Management, NOS/NOAA, 1305 East-

West Highway, 10th Floor, Silver Spring, Maryland 20910. When the evaluations are completed, OCRM will place a notice in the **Federal Register** announcing the availability of the Final Evaluation Findings.

**FOR FURTHER INFORMATION CONTACT:**

Margo E. Jackson, Deputy Director, Office of Ocean and Coastal Resource Management, NOS/NOAA, 1305 East-West Highway, Silver Spring, Maryland 20910, (310) 713-3155, Extension 114.

**Department of the Army**

**Availability for Non-Exclusive, Exclusive, or Partially Exclusive Licensing of U.S. Patent Application Concerning Schlager Blast Utility Program**

**AGENCY:** U.S. Army Medical Research and Materiel Command, DoD.

**ACTION:** Notice.

**SUMMARY:** In accordance with 37 CFR 404.6, announcement is made of the

availability for licensing of U.S. Patent Application Serial No. 60/235,899 entitled "Schlager Blast Utility Program" and filed September 28, 2000. This patent application has been assigned to the United States Government as represented by the Secretary of the Army.

**ADDRESSES:** Commander, U.S. Army Medical Research and Materiel Command, ATTN: Command Judge Advocate, MCMR-JA, 504 Scott Street, Fort Detrick, Maryland 21702-5012.

**FOR FURTHER INFORMATION CONTACT:** For patent issues, Ms. Elizabeth Arwine, Patent Attorney, (301) 619-7808. For licensing issues, Dr. Paul Mele, Office of Research & Technology Assessment, (301) 619-6664. Both at telefax (301) 619-5034.

**SUPPLEMENTARY INFORMATION:** An object-oriented program was developed to run in Windows environment. The program is designed (1) to identify DNA in multiple sequence files; (2) to electronically capture search results from the National Center for Biotechnology Institute (NCBI) databases; and (3) to retrieve stored results data in a interconnected file structure organized for easy review and further analysis. The program automatically creates folders for placement of sequence identification data, locates known sequences of DNA for removal, interacts with the BLAST program on the NCBI website to identify unknown DNA data by sequence comparison, stores and parses the HTML formatted match results into Excel files and compiles the best match from each file into a DNA library file. The program automates each of these steps involved in the identification of the DNA nucleotide sequences capturing all pertinent NCBI data in a spreadsheet format.
