DEPARTMENT OF THE INTERIOR

Fish and Wildlife Service

Information Collection Submitted to the Office of Management and Budget (OMB) for Approval Under the Paperwork Reduction Act

AGENCY: Fish and Wildlife Service, Interior.

ACTION: 60-day notice of renewal of approval to collect information OMB #1018-0015.

SUMMARY: The collection of information listed below will be submitted to OMB for approval under the provisions of the Paperwork Reduction Act. A copy of the information collection requirement is included in this notice. Copies of the proposed information collection requirement, related forms, and explanatory material may be obtained by contacting the Service Information Collection Clearance Officer at the address listed below.

DATES: Comments must be submitted on or before June 11, 2001.

ADDRESSES: Comments and suggestions on the requirement should be sent directly to the Information Collection Clearance Officer, U.S. Fish and Wildlife Service, ms 222C-ARLSQ, 4401 North Fairfax Drive, Arlington, VA 22203.

FOR FURTHER INFORMATION CONTACT:

Rebecca A. Mullin, Service Information Collection Clearance Officer, (703) 358-2287; (703) 358-2269 (fax), or electronically to rmullin@fws.gov.

SUPPLEMENTARY INFORMATION:

Title: Migratory Bird Harvest Surveys.

Approval Number: 1018-0015.

Service Form Number(s): 3-1823A, 3-2056G, 3-165, 3-165A-C, 3-2056J-M.

Description and Use: The Migratory Bird Treaty Act (16 USC 703-711) and Fish and Wildlife Act of 1956 (16 USC 742d) designate the Department of the Interior as the key agency responsible for the wise management of migratory bird populations frequenting the United States and for the setting of hunting regulations that allow appropriate harvests that are within the guidelines that will allow for those populations' well being. These responsibilities dictate the gathering of accurate data on various characteristics of migratory bird harvest of a geographic and temporal nature. Knowledge attained by determining harvests and harvest rates of migratory game birds is used to regulate populations (by promulgating hunting regulations) and to encourage hunting opportunity, especially where crop depredations are chronic and/or lightly harvested populations occur.

Based on information from harvest surveys, hunting regulations can be adjusted as needed to optimize harvests at levels that provide a maximum of hunting recreation while keeping populations at desired levels.

This information collection approval request combines three sets of surveys (the Waterfowl Hunter Survey, the Migratory Bird Hunter Survey, and the Parts Collection Survey) and associated forms because they are interrelated and/or dependent upon each other.

The Waterfowl Hunter Survey, which estimates the harvest of ducks and geese, is based on Federal Duck Stamp sales. This survey asks people who purchase Federal Duck Stamps from randomly sampled Post Offices and other stamp vendors to complete and return a postcard (form 3-1823A) with their name and address. Hunters who complete and return the postcard are sent a postcard questionnaire (form 3-2056G) at the end of the hunting season, asking them to report their harvest of ducks and geese. Their responses provide estimates of the average harvest per hunter, which, combined with total Federal Duck Stamp sales, enables the Service to estimate the total harvest of ducks and geese.

The Migratory Bird Hunter Survey is based on the Migratory Bird Harvest Information Program, under which each State annually provides a list of all licensed migratory bird hunters in the State. Randomly selected migratory bird hunters are sent either a waterfowl questionnaire (form 3-2056J), a dove and band-tailed pigeon questionnaire (form 3-2056K), a woodcock questionnaire (form 3-2056L), or a snipe, rail, gallinule, and coot questionnaire (form 3-2056M) and are asked to report their harvest of those species. The resulting estimates of harvest per hunter are combined with the complete list of migratory bird hunters to provide estimates of the total harvest of those species. This survey will replace the Waterfowl Hunter Survey after it has been fully implemented in all States and comparisons of results with Waterfowl Hunter Survey results have been completed.

The Parts Collection Survey estimates the species, sex, and age composition of the harvest, and the geographic and temporal distribution of the harvest. Randomly selected successful hunters who responded to the Waterfowl Hunter Survey or the Migratory Bird Hunter Survey the previous year are asked to complete and return a postcard (forms 3-165A and C) if they are willing to participate in the Parts Collection Survey. Respondents are provided

postage-paid envelopes before the hunting season and asked to send in a wing or the tail feathers from each duck, goose, or coot (form 3-165) they harvest, or a wing from each woodcock, band-tailed pigeon, snipe, rail, or gallinule (form 3-165B) they harvest. The wings and tail feathers are used to identify the species, age, and sex of the harvested sample. Respondents are also asked to report on the envelope the date and location (state and county) of harvest for each bird. Results of this survey are combined with harvest estimates from the Waterfowl Hunter Survey and the Migratory Bird Hunter Survey to provide species-specific national harvest estimates.

The combined results of these surveys enable the Service to evaluate the effects of season length, season dates, and bag limits on the harvest of each species, and thus help determine appropriate hunting regulations.

Frequency of Collection: Annually.

Description of Respondents: Individuals and households.

Estimated Completion Time: The reporting burden is estimated to average 2 minutes per respondent for the Migratory Bird Harvest Information Program, 8 minutes per respondent for the Waterfowl Hunter Survey, 4 minutes per respondent for the Migratory Bird Hunter Survey, and 50 minutes per respondent for the Parts Collection Survey.

Number of Respondents: About 3,600,000 individuals are expected to participate in the Migratory Bird Harvest Information Program. Recent Service experience indicates that about 20,500 hunters will respond to the Waterfowl Hunter Survey each year, about 11,400 hunters will respond to the Parts Collection Survey annually, and about 90,000 hunters will respond to the Migratory Bird Hunter Survey annually.

Annual Burden Hours: 138,917.

Comments are invited on: (1) Whether the collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility; (2) the accuracy of the agency's estimate of the burden of the collection of information; (3) ways to enhance the quality, utility, and clarity of the information to be collected; and, (4) ways to minimize the burden of the collection of information on respondents.

Dated: April 9, 2001.

Rebecca A. Mullin,

Service Information Collection Officer.

Aquatic Nuisance Species Task Force Risk Assessment and Management Committee Meeting

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Notice of meeting.

SUMMARY: This notice announces a meeting of the Risk Assessment and Management Committee of the Aquatic Nuisance Species Task Force. The meeting topics are identified in the **SUPPLEMENTARY INFORMATION.**

DATES: The Committee will meet from 8:00 a.m. to 5:00 p.m., Tuesday, May 1, 2001; from 8:00 a.m. to 5:00 p.m., Wednesday, May 2, 2001; and will participate in a field trip from 9:00 a.m. to 4:30 p.m., Thursday, May 3, 2001.

ADDRESSES: The meeting will be held at the Tropical Aquaculture Lab, 1408 24th Street, Southeast, Ruskin, Florida 33570, phone (813) 671-5230.

FOR FURTHER INFORMATION CONTACT:

Richard Orr, Chair, Risk Assessment and Management Committee, at (301) 734-8939 or by email at Richard.L.Orr@aphis.usda.gov or Sharon Gross, Executive Secretary, Aquatic Nuisance Species Task Force at 703-358-2308 or by e-mail at: sharon_gross@fws.gov.

SUPPLEMENTARY INFORMATION: Pursuant to section 10(a)(2) of the Federal Advisory Committee Act (5 U.S.C. App. I), this notice announces a meeting of the Aquatic Nuisance Species Task Force Risk Assessment and Management Committee. The Task Force was established by the Nonindigenous Aquatic Nuisance Prevention and Control Act of 1990 (16 U.S.C. 4701-4741). Topics to be addressed at this meeting include: a discussion on the Florida Sturgeon Culture Risk Assessment status; a review status of the Caribbean Science Center's Risk Review Process library; a discussion on the final revision of the Black Carp Risk Assessment and publication options; an update on the risk assessment for the Asian Swamp eel; a discussion on revision of the RAM risk assessment process; a discussion of the policies surrounding screening processes with emphasis on precaution and uncertainty; a discussion on the development on the National Invasive Species Council (NISA) Management Plan Action Items associated with the screening of first time introductions of aquatic organisms for the ANS Task Force; a discussion on the introduced Snakehead in Florida; and a review of

risk of fresh water snail introduction as vectors for Aniostrongyliasis.

Minutes of the meeting will be maintained by the Executive Secretary, Aquatic Nuisance Species Task Force, Suite 810, 4401 North Fairfax Drive, Arlington, Virginia 22203-1622, and the Chair of the Ballast Water and Shipping Committee at the Environmental Standards Division, Office of Operations and Environmental Standards, U.S. Coast Guard (G-MSO-4), 2100 Second Street, SW, room 1309, Washington, DC 20593-0001. Minutes for the meetings will be available at these locations for public inspection during regular business hours, Monday through Friday.

Dated: April 5, 2001.

Mary G. Henry,

Acting Co-Chair, Aquatic Nuisance Species Task Force, Acting Assistant Director—Fisheries and Habitat Conservation.

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

[NM-010-1430-EU/1430-HN; NM 101522]

Notice of Availability of a Draft Environmental Impact Statement (EIS) for a Proposed Land Exchange with the Pueblo of San Felipe, Albuquerque Field Office, New Mexico

AGENCY: Bureau of Land Management, Interior.

ACTION: Notice.

SUMMARY: The Bureau of Land Management (BLM) Albuquerque Field Office has completed a Draft EIS. This document describes and analyzes three alternatives for a land exchange involving public land south of County Road 252 A (formerly State Road 22) and east of the Tejon Grant and private lands of equal value, yet to be identified, within high priority acquisition areas (as identified in the Rio Puerco and the Taos Resource Management Plans [RMPs]). The alternatives are: (A) Proposed Action (exchange approximately 9,460 acres of public lands with restrictive covenants), (B) Exchange of the proposed action acreage plus an additional 1,447 acres of public lands with restrictive covenants, and (C) No Action Alternative (the exchange proposal would be rejected).

The following described public lands were analyzed for disposal through exchange to the San Felipe Pueblo by the United States:

New Mexico Principal Meridian
T. 13 N., R. 6 E.,
