Social Security regulations outline the duties and responsibilities of representative payees and require a written report accounting for these benefits.

To ensure that benefits are being used properly for beneficiaries, SSA will conduct triennial site reviews for fee-for-service payees and volume payees (organizations serving 100 or more beneficiaries). The reviews include a face-to-face meeting with the payee and appropriate staff and examination/verification of a sample of beneficiary records and supporting documentation, and may include beneficiary or custodian interviews. DEPARTMENT OF STATE

[Public Notice 3643]

Bureau of Oceans, International Environmental and Scientific Affairs; Notice of the Availability of Draft Synthesis Report of the IPCC Third Assessment Report and Request for Comments

ACTION: Notice.

SUMMARY: The Intergovernmental Panel on Climate Change (IPCC) has prepared a draft Synthesis Report for its Third Assessment Report (TAR) on Climate Change. The IPCC is an international scientific body that prepares assessments on the state of knowledge on climate change, its potential impacts, and options for response. The topics covered by the Panel are diverse and range from detection and attribution of climate change, evaluation of climate models, and prediction of climate change, to impacts of climate change on ecosystems and human activities, evaluation of options for adaptation, and technical assessments of options for reducing emissions of greenhouse gases.

During April and May, 2001, IPCC is coordinating a simultaneous expert and government review of the draft Synthesis Report. This report synthesizes the information contained in the Third Assessment Report, including on the rate and magnitude of climate change, the extent of impacts, and the costs and benefits of different response strategies. In addition to its own expert review, the IPCC Secretariat accepts both expert and government comments on this report through national governments.

The U.S. Subcommittee on Global Change Research (SGCR) is coordinating the preparation of the comments of the U.S.G. Through this notice, the SGCR is announcing the availability of the draft Synthesis Report of the IPCC's Third Assessment Report and is requesting comments on the draft report by April 27, 2001 from scientists, experts and other interested organizations and individuals. The comments received will be reviewed, combined, and incorporated, as appropriate, in the process of preparing the set of official USG comments to the IPCC. It should be noted that this is a draft report and should not be cited or quoted as it is

still undergoing review and is likely to be changed.

Comments on the review draft should indicate: (1) Name, affiliation, postal address, email address, and other contact information; and (2) the general area of expertise of the reviewer. Reviewer comments on the draft Synthesis Report of the IPCC's Third Assessment Report (preferably submitted as an attachment to an email message) must be received at the email addresses indicated below on or before April 27, 2001. The SGCR cannot extend this deadline because the member countries of the IPCC have established a strict timetable for the review process and require prompt submission of USG comments.

ADDRESSES: Interested individuals or organizations may register as a reviewer and access the draft Synthesis Report at the Global Change Research Information Office (GCRI) website at <http://www.gcric.org/ipccform/>. Alternatively, requests with the required information (see above) may be sent electronically to GCRI at "help@gcrio.org"; or to GCRI at P. O. Box 1000, 61 Route 9W, Palisades, New York 10964. Review comments should be submitted via email to USIPCCARSYN@usgcrp.gov. Review comments should be in Microsoft Word or WordPerfect and formatted according to guidance provided on the GCRI website. If email submission is not possible, review comments may be submitted via mail to: US Comments, IPCC TAR Synthesis Report, Office of the U.S. Global Change Research Program, 400 Virginia Avenue, SW, Suite 750, Washington, DC 20024.

FOR FURTHER INFORMATION CONTACT: IPCC TAR Review Coordinator, Office of the U.S. Global Change Research Program, Suite 750, 400 Virginia Avenue, SW, Washington, DC 20024; or telephone 202-488-8630, fax to 202-488-8681, or send an email to office@usgcrp.gov.

I. Background

The Intergovernmental Panel on Climate Change (IPCC) was jointly established in 1988 by the United Nations Environment Programme and the World Meteorological Organization to conduct periodic assessments of the state of knowledge concerning global climate change. The first Scientific Assessment Report was prepared in 1990 and the Second Assessment Report was prepared in 1995. The IPCC has formed three working groups to conduct its assessments.
