Agricultural Marketing Service

Title: Marketing Agreement No. 146, Regulating the Quality of Domestically Produced Peanuts (7 CFR part 998).

OMB Control Number: 0581–0067.

Summary of Collection: The Agricultural Marketing Service (AMS), through the authorities emanating from the Agricultural Marketing Agreement Act of 1937 and Marketing Agreement No. 146 (covering peanuts grown in the U.S.), regulates certain agricultural commodities for the purpose of providing orderly marketing conditions in interstate commerce and improving returns to producers. The required information relating to peanut supplies, shipments, inspection disposition, and other inventory information is collected through the use of standardized forms and written letters.

Need and Use of the Information: The Peanut Administrative Committee administers the program and has developed the necessary forms required to file information relating to peanut supplies, shipments, dispositions, and other information. The Committee periodically reviews reports and forms so only the minimum information necessary is collected to effectively carry out the requirements of the Agreement. Only authorized representatives of USDA and employees of the Committee use the information collected. Much of the information is compiled in aggregate and provided to the industry to assist in marketing decisions. If the information were collected less frequently, it would eliminate the data needed to keep the domestic peanut industry and Secretary abreast of changes at the State and local level.

Title: Reporting and Recordkeeping Requirements for 7 CFR, Part 29.

OMB Control Number: 0581–0056.

Summary of Collection: The Tobacco Inspection Act (U.S.C. 511) requires: (1) That all tobacco sold at designated auction markets in the U.S. be inspected and graded; (2) for the establishment and maintenance of tobacco standards for U.S. grown types; (3) for the collection and dissemination of market news; and (4) for provisions to be made for interested parties to request inspection and grading services on an “as needed” basis. The Dairy and Tobacco Adjustment Act, 1983 (Pub. L. 98–198) gives authorization to the Secretary to inspect all tobacco offered for importation into the United States for grade and quality except cigar and oriental tobacco which must be certified by the importer as to kind and type and in the case of cigar tobacco which will be used solely in the manufacture or production of cigars. Also, the Secretary has the authority to fix and collect fees from the importers to cover the cost of inspection.

Need and Use of the Information: Various forms are used for the inspection and certification processes. The primary sources of data used to complete the forms are used in all business transactions. If the information were collected less frequently, it would eliminate data needed to keep the tobacco industry and the Secretary abreast of changes.

Description of Respondents: Business or other for-profit.

Title: Export Fruit Regulations.

OMB Control Number: 0581–0143.

Summary of Collection: Fresh apples and grapes grown in the United States shipped to any foreign destination must meet minimum quality and other requirements established by regulations issued under the Export Apple Act (7 CFR Part 33) and the Export Grape and Plum Act (7 CFR Part 35). These Acts were designed to promote the foreign trade of the United States in apples, grapes and plums; to protect the reputation of these American-grown commodities; and to prevent deception or misrepresentation of the quality of such products moving in foreign

commerce. The regulation issued under the Export Grape and Plum Act (7 CFR Part 35) cover fresh grapes grown in the United States and shipped to foreign destinations, except Canada and Mexico.

Need and Use of the Information: Persons who ship fresh apples and grapes grown in the U.S. to foreign destinations must have such shipments inspected and certified by Federal or Federal-State Inspection Service (FSIS) inspectors. The Agriculture Marketing Service administers the FSIS. Official FSIS inspection certificates and phytosanitary certificates issued by USDA's Animal and Plant Health Inspection Service provide the needed information for USDA. Export carriers are required to keep on file for three years copies of inspection certificates for apples and grapes.
