

manufacturers of slide-in campers designed to fit into the cargo bed of pickup trucks affix a label to each camper that contains information relating to certification, identification and proper loading, and to provide more detailed loading information in the owner's manual of the truck.

Part 575 Section 105—Utility Vehicles. This regulation requires manufacturers of utility vehicles to alert drivers that the particular handling and maneuvering characteristics of utility vehicles require special driving practices when these vehicles are operated on paved roads. For example, the vehicle owner's manual is required to contain a discussion of vehicle design features that cause this type of vehicle to be more likely to roll over, and to include a discussion of driving practices that can reduce the risk of roll over. A statement is provided in the regulation that manufacturers shall include, in its entirety or equivalent form, in the vehicle owner's manual.

Estimated Annual Burden: 1371 hours.

Number of Respondents: 21.

Issued on: April 26, 2001.

DEPARTMENT OF TRANSPORTATION

National Highway Traffic Safety Administration

[Docket Number NHTSA-2001-9443]

Reports, Forms, and Recordkeeping Requirements

AGENCY: National Highway Traffic Safety Administration (NHTSA), Department of Transportation.

ACTION: Request for public comment on an extension of a currently approved collection.

SUMMARY: Before a Federal agency can collect certain information from the public, it must receive approval from the Office of Management and Budget (OMB). Under procedures established by the Paperwork Reduction Act of 1995, before seeking OMB approval, Federal agencies must solicit public comment on proposed collections of information, including extensions and reinstatement of previously approved collections.

This document describes one collection of information for which NHTSA intends to seek OMB approval.

DATES: Comments must be received on or before July 2, 2001.

ADDRESSES: Comments must refer to the docket notice numbers cited at the beginning of this notice and be submitted to Docket Management, Room PL-401, 400 Seventh Street, SW., Washington, DC 20590. Please identify the proposed collection of information for which a comment is provided, by referencing its OMB clearance number. It is requested, but not required, that 2 copies of the comment be provided. The Docket Section is open on weekdays from 10 a.m. to 5 p.m.

FOR FURTHER INFORMATION CONTACT:

Complete copies of each request for collection of information may be obtained at no charge from Deborah Mazyck, NHTSA 400 Seventh Street, SW., Room 5320, NPS-32, Washington, DC 20590. Ms. Mazyck's telephone number is (202) 366-0846. Please identify the relevant collection of information by referring to its OMB Control Number.

SUPPLEMENTARY INFORMATION: Under the Paperwork Reduction Act of 1995, before an agency submits a proposed collection of information to OMB for approval, it must first publish a document in the **Federal Register** providing a 60-day comment period and otherwise consult with members of the public and affected agencies concerning each proposed collection of information. The OMB has promulgated regulations describing what must be included in such a document. Under OMB's regulation (at 5 CFR 1320.8(d)), an agency must ask for public comment on the following:

(i) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;

(ii) The accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;

(iii) How to enhance the quality, utility, and clarity of the information to be collected; and

(iv) How to minimize the burden of the collection of information on those who are to respond, including the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g. permitting electronic submission of responses.

In compliance with these requirements, NHTSA asks for public comments on the following proposed collections of information:

Title: Procedures for Selecting Lines to be Covered by the Theft Prevention Standard (49 CFR 542).

OMB Control Number: 2127-0539.

Affected Public: Business or other for-profit.

Form Number: This collection of information uses no standard forms.

Abstract: The Anti Car Theft Act of 1992 amended the Motor Vehicle Theft Law Enforcement Act of 1984 (Pub. L. 98-547) and requires this collection of information. One component of the theft prevention legislation required the Secretary of Transportation (delegated to the National Highway Traffic Safety Administration (NHTSA)) to promulgate a theft prevention standard for the designation of high-theft vehicle lines. Provisions delineating the information collection requirements include section 33104, which requires NHTSA to promulgate a rule for the identification of major component parts for vehicles having or expected to have a theft rate above the median rate for all new passenger motor vehicles (cars, MPV's, and light-duty trucks) sold in the United States, as well as with major component parts that are interchangeable with those having high-theft rates.

The specific lines and parts to be identified are to be selected by agreement between the manufacturer and the agency. If there is a disagreement of the selection, the statute states that the agency shall select such lines and parts, after notice to the manufacturer and an opportunity for written comment.

The procedures, contained in §§ 542.1 and 542.2 will be applied to those lines introduced before or after the 1997 model year (MY).

Estimated Annual Burden: 1,920 hours.

Number of Respondents: 24.

Issued on April 26, 2001.

Stephen R. Kratzke,

Associate Administrator for Safety Performance Standards.

DEPARTMENT OF TRANSPORTATION

National Highway Traffic Safety Administration

[Docket No. NHTSA-2001-9434]

Reports, Forms, and Record Keeping Requirements

AGENCY: National Highway Traffic Safety Administration (NHTSA), Department of Transportation.

ACTION: Request for public comment on proposed collection of information.

SUMMARY: Before a Federal agency can collect certain information from the public, it must receive approval from the Office of Management and Budget (OMB). Under procedures established by the Paperwork Reduction Act of 1995, before seeking OMB approval, Federal agencies must solicit public comment on proposed collections of information, including extensions and reinstatement of previously approved collections.

This document describes one collection of information for which NHTSA intends to seek OMB approval.

DATES: Comments must be received on or before July 2, 2001.

ADDRESSES: Comments must refer to the docket notice numbers cited at the beginning of this notice and be submitted to Docket Management, Room PL-401, 400 Seventh Street, SW., Washington, DC 20590. Please identify the proposed collection of information for which a comment is provided, by referencing its OMB clearance Number. It is requested, but not required, that 2 copies of the comment be provided. The Docket Section is open on weekdays from 9 a.m. to 5 p.m.

FOR FURTHER INFORMATION CONTACT: For further information, contact Dr. William Fan, NHTSA, 400 Seventh Street, SW., Room 5320, NPS-11, Washington, DC 20590. Dr. Fan's telephone number is (202) 366-4922. Please identify the relevant collection of information by referring to its OMB Control Number.

SUPPLEMENTARY INFORMATION: Under the Paperwork Reduction Act of 1995, before an agency submits a proposed collection of information to OMB for approval, it must first publish a document in the **Federal Register** providing a 60-day comment period and otherwise consult with members of the public and affected agencies concerning each proposed collection of information. The OMB has promulgated regulations describing what must be included in such a document. Under OMB's regulation (at 5 CFR 1320.8(d)), an agency must ask for public comment on the following:

(i) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;

(ii) The accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;

(iii) How to enhance the quality, utility, and clarity of the information to be collected;

(iv) How to minimize the burden of the collection of information on those who are to respond, including the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g. permitting electronic submission of responses.

In compliance with these requirements, NHTSA asks for public comments on the following proposed collections of information:

Title: Part 589—Upper Interior Component Head Impact Protection Phase-in Requirements.

Type of Request: Extension of a currently approved collection.

OMB Control Number: 2127-0581

Requested Expiration Date: Three years from the date of approval.

Affected Public: Business or for-profit.

Form Number: No standard form.

Summary of the Collection of Information: Manufacturers of passenger cars, trucks and multipurpose passenger vehicles with a gross vehicle weight rating of 4,536 kilograms or less and buses with a gross vehicle weight rating of 3,860 kilograms or less are required to respond to NHTSA inquiries, to submit a report, concerning the number of such vehicles that meet the upper interior component head impact protection requirements of Standard No. 201, Occupant Protection in Interior Impact (49 CFR 571.201).

Description of the Need for the Information: Title 49, Chapter 30115 of the U.S. Code specifies that the Secretary of Transportation shall require every manufacturer or distributor of a motor vehicle or motor vehicle equipment to furnish the distributor or dealer at the time of delivery certification that each item of motor vehicle equipment conforms to all applicable Federal Motor Vehicle Safety Standards (FMVSS).

Using this authority, the agency issued FMVSS No. 201, "Occupant Protection in Interior Impact," specifying test procedures and requirements for passenger cars, multipurpose passenger vehicles, trucks, and buses. The standard specifies four optional implementation plans. There are two four-year phase-in implementation Plans starting on September 1, 1998 and with a full implementation on September 1, 2002. Vehicle manufacturers who choose these phase-in plans are required to report achievement of annual production quotas for the first four years during the phase-in period. The report is due within 60 days after August 31 of each

production year. After the report is received, requirements will cease and no further report will be required.

Estimated Annual Reporting and Record-keeping Hour Burden: It was estimated in the original request that these phase-in requirements would apply to 35 vehicle manufacturers and that the average hour burden for each manufacturer would be about 36 hours. The estimates are still valid. The estimated total annual hour burden is, therefore, 1,260 hours.

Issued on: April 26, 2001.
