On a quarterly basis, all U.S. branches and agencies of foreign banks (U.S. branches) are required to file detailed schedules of assets and liabilities in the form of a condition report and a variety of supporting schedules. This information is used to fulfill the supervisory and regulatory requirements of the International Banking Act of 1978. The data are also used to augment the bank credit, loan, and deposit information needed for monetary policy and other public policy purposes. The Federal Reserve System collects and processes this report on behalf of all three agencies.

Current Actions

The agencies received one comment in response to the notice published in the **Federal Register** on December 28, 2000, (65 FR 82356) requesting public comment on the extension with revision of this information collection. The commenter supports the revisions to the FFIEC 002.
