

shall include wording as follows: "Inspected for wholesomeness by U.S. Department of Agriculture." This wording shall be contained within a circle. The form and arrangement of such wording shall be exactly as indicated in the example in Figure 1, except that the appropriate official establishment number shall be shown, and if the establishment number appears elsewhere on the labeling material in the manner prescribed in § 381.123(b), it may be omitted from the inspection mark. The administrator may approve the use of abbreviations of such inspection mark; and such approved abbreviations shall have the same force and effect as the inspection mark. The official inspection legend, or the approved abbreviation thereof, shall be printed on consumer packages and other immediate containers of inspected and passed poultry products, or on labels to be securely affixed to such containers of such products and may be printed or stenciled thereon, but shall not be applied by rubber stamping. When applied by a stencil, the legend shall not be less than 4 inches in diameter. An official brand must be applied to inspected and passed carcasses and parts of ratites that are shipped unpacked.

Done at Washington, DC, on: April 25, 2001.

Thomas J. Billy,
Administrator.

BILLING CODE 1505-01-D

NUCLEAR REGULATORY COMMISSION

10 CFR Part 9

[3150-AG78]

Charges for Reproducing Records

AGENCY: Nuclear Regulatory Commission.

ACTION: Final rule.

SUMMARY: The Nuclear Regulatory Commission (NRC) is revising its regulations to permit its contractor to increase the charges for copying publicly available documents at the NRC's Public Document Room (PDR). The increases are necessary to adjust for

inflation and a decrease in the projected volume of copying by the NRC contractor. In addition, the revisions will provide for electronic copying to CD-ROM.

EFFECTIVE DATE: The rule is effective June 6, 2001.

FOR FURTHER INFORMATION CONTACT: Thomas E. Smith, Acting Chief, Public Document Room, Office of the Chief Information Officer, Nuclear Regulatory Commission, Washington, DC 20555, 301-415-7204, or 1-800-397-4209 (toll-free).

SUPPLEMENTARY INFORMATION: The PDR retains a copy service to reproduce for a fee publicly available documents whatever their format. Since the NRC's Agency-wide Document Access and Management System (ADAMS) was implemented in November 2000, making recently released documents available in full text online, there has been a significant reduction in the volume of document reproduction. The total volume of copying has fallen from over 3,000,000 pages a year to 1,600,000 in 2000. Based on first quarter data, the projected level of copying for 2001 will be just under 1,000,000 pages. Since the copy service contract is at no cost to the government, the contractor must provide all supplies and equipment. The NRC believes that the price increase is reasonable and in line with the prices charged by other Federal agencies. A market survey showed that the average price is 20 cents per page for paper-to-paper copies and 27 cents for microfiche-to-paper copies.

The contractor will offer two new services to the public: copying documents from ADAMS to CD-ROM and copying color documents from ADAMS to paper. The contractor will be able to accept orders directly online from ADAMS through the new ADAMS Online Order Module scheduled to be released shortly.

Because this amendment concerns an agency practice and procedure, the NRC has determined that notice and comment under the Administrative Procedures Act, 5 U.S.C. 553(b) (A) and (B), is unnecessary and that good cause exists to dispense with the comment.

Environmental Impact: Categorical Exclusion

The NRC has determined that this final rule is the type of action described in categorical exclusion 10 CFR 51.22 (c) (1) and (2). Therefore, neither an environmental impact statement nor an environmental assessment has been prepared for this final rule.

Paperwork Reduction Act Statement

This final rule does not contain a new or amended information collection requirement subject to the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 et seq.).

Public Protection Notification

If a means used to impose an information collection does not display a currently valid OMB control number, the NRC may not conduct or sponsor, and a person is not required to respond to, the information collection.

Regulatory Analysis

A regulatory analysis has not been prepared for this final rule because the final rule makes only minor conforming changes to the regulations that reference Section 202 of the Energy Reorganization Act and minor changes to other regulations.

Backfit Analysis

The NRC has determined that these amendments do not involve any provisions which would impose backfits as defined in 10 CFR 50.109(a)(1); therefore a backfit analysis need not be prepared.

Small Business Regulatory Enforcement Fairness Act

In accordance with the Small Business Regulatory Enforcement Fairness Act of 1996, the NRC has determined that this action is not a major rule and has verified this determination with the Office of Information and Regulatory Affairs of OMB.

List of Subjects in 10 CFR Part 9

Criminal penalties, freedom of information, privacy, reporting and recordkeeping requirements, the Sunshine Act.

For the reasons set out in the preamble and under the authority of the Atomic Energy Act of 1954, as amended, the Energy Reorganization Act of 1974, as amended, and 5 U.S.C. 552 and 553, the NRC is adopting the following amendments to 10 CFR Part 9.

PART 9—PUBLIC RECORDS

1. The authority citation for Part 9 continues to read as follows:

Authority: Sec. 161, 68 Stat. 948, as amended (42 U.S.C. 2201); Sec. 201, 88 Stat. 1242, as amended (42 U.S.C. 5841).

Subpart A is also issued under 5 U.S.C. 552 and 31 U.S.C. 9701; (Pub. L. 99-570). Subpart B is also issued under 5 U.S.C. 552a. Subpart C is also issued under 5 U.S.C. 552b.

2. Section 9.35 is amended by revising paragraph (a)(1) to read as follows:

§ 9.35 Duplication fees.

(a)(1) The charges by the duplicating service contractor for the duplication of records made available under § 9.21 at the NRC Public Document Room (PDR), One White Flint North, 11555 Rockville Pike, Room O-1F23, Rockville, MD. are as follows:

(i) Paper-to-paper reproduction is \$0.15 per page for standard size (up to 11" × 14"). Pages 11" × 17" are \$0.30 per page. Pages larger than 11" × 17", including engineering drawings, are \$2.50 per square foot.

(ii) Color drawings are \$2.00 per 8½" × 11" page. Pages larger than 8½" × 11" are \$12.00 per square foot.

(iii) Microfiche-to-paper reproduction is \$0.15 per page. Aperture cards are \$2.50 per square foot.

(iv) The charges for Electronic Full Text (EFT) (ADAMS documents) copying are as follows:

(A) Electronic Full Text (EFT) copying of ADAMS documents to paper (applies to images, OCR TIFF, and PDF text) is \$0.15 per page.

(B) Electronic Full Text (EFT) copying of ADAMS documents to CD-ROM is \$10.00 for the first document on the CD-ROM and \$5.00 for each additional document per accession number on the same CD-ROM.

(C) CD-ROM-to-paper reproduction is \$0.15 per page.

(v) Priority rates (rush processing) are as follows:

(A) The priority rate is offered for standard size paper-to-paper reproduction, microfiche-to-paper reproduction, electronic full text (EFT) copying of ADAMS documents to paper, and CD-ROM-to-paper production at \$0.20 per page. The priority rate for standard size color prints is \$2.50 per print. The priority rate for color drawings larger than 8½" × 11" is \$15.00 per square foot.

(B) The priority rate for aperture cards is \$3.50 per square foot. The priority rate for electronic full text (EFT) to CD-ROM is \$15.00 for the first document on the CD-ROM and \$7.50 per each additional document on the same CD-ROM.

(vi) Facsimile charges are \$0.30 per page for local calls; \$0.50 per page for U.S. long distance calls, and \$1.00 per page for foreign long distance calls.

* * * * *

Dated in Rockville, Maryland, this 25th day of April 2001.

For the Nuclear Regulatory Commission,
William D. Travers,

Executive Director for Operations.

BILLING CODE 7590-01-P

DEPARTMENT OF TRANSPORTATION**Federal Aviation Administration****14 CFR Part 39**

[Docket No. 2001-NM-68-AD; Amendment 39-12210; AD 2001-09-05]

RIN 2120-AA64

Airworthiness Directives; Airbus Model A310-324, A310-325, and A300 B4-622R Series Airplanes Equipped with Pratt & Whitney PW4000 Series Engines

AGENCY: Federal Aviation Administration, DOT.

ACTION: Final rule; request for comments.

SUMMARY: This amendment adopts a new airworthiness directive (AD) that is applicable to certain Airbus Model A310-324, A310-325, and A300 B4-622R series airplanes equipped with Pratt & Whitney PW4000 series engines. This action requires revising the Airplane Flight Manuals (AFM) for the Model A310 and Model A300-600 series airplanes. This action is necessary to prevent acceleration and climb performance less than that specified in the AFM, which could result in runway overruns or impact with obstacles or terrain. This action is intended to address the identified unsafe condition.

DATES: Effective May 22, 2001.

The incorporation by reference of certain publications listed in the regulations is approved by the Director of the Federal Register as of May 22, 2001.

Comments for inclusion in the Rules Docket must be received on or before June 6, 2001.

ADDRESSES: Submit comments in triplicate to the Federal Aviation Administration (FAA), Transport Airplane Directorate, ANM-114, Attention: Rules Docket Number 2001-NM-68-AD, 1601 Lind Avenue, SW., Renton, Washington 98055-4056. Comments may be inspected at this location between 9:00 a.m. and 3:00 p.m., Monday through Friday, except Federal holidays. Comments may be submitted via fax to (425) 227-1232. Comments may also be sent via the Internet using the following address: 9-anm-iarcomment@faa.gov. Comments sent via fax or the Internet must contain "Docket No. 2001-NM-68-AD" in the subject line and need not be submitted in triplicate. Comments sent via the Internet as attached electronic files must be formatted in Microsoft Word 97 for Windows or ASCII text.

The service information referenced in this AD may be obtained from Airbus

Industrie, 1 Rond Point Maurice Bellonte, 31707 Blagnac Cedex, France. This information may be examined at the FAA, Transport Airplane Directorate, 1601 Lind Avenue, SW., Renton, Washington; or at the Office of the Federal Register, 800 North Capitol Street, NW., suite 700, Washington, DC.

FOR FURTHER INFORMATION CONTACT: Tim Backman, Aerospace Engineer, ANM-116, International Branch, FAA, Transport Airplane Directorate, 1601 Lind Avenue, SW., Renton, Washington 98055-4056; telephone (425) 227-2797; fax (425) 227-1149.

SUPPLEMENTARY INFORMATION: The FAA has received reports that Pratt & Whitney Model PW4000 series engines with certain early-production fan blades (Phase 0/1, FB2B or FB2T) installed on Airbus Model A310-324, A310-325, and A300 B4-622R series airplanes do not produce the amount of thrust indicated in the AFM. This thrust shortfall is due to erosion of the fan blade's leading edge. The flight crew has no indication of this shortfall in thrust. This condition results in acceleration and climb performance less than that specified in the AFM, which, if not corrected, could result in an overrun of the runway or impact with an obstacle or terrain.

Explanation of Relevant Service Information

The Direction Générale de l'Aviation Civile (DGAC), which is the airworthiness authority for France, has requested that Airbus prepare revisions to the AFM to take into account the reduction in performance associated with PW4000 series engines fitted with early-production fan blades and to incorporate the necessary adjustments in performance. Those revisions are expected to be available from Airbus in mid-2001. Meanwhile, Airbus has issued the following Temporary Revisions (TR) to the AFM, each dated January 22, 2001:

A310 Flight Manual TR 5.03.00/01 (for Airbus Model A310-324 series airplanes);
A310 Flight Manual TR 5.03.00/02 (for Airbus Model A310-325 series airplanes);
and
A300-600 Flight Manual TR 5.03.00/01 (for Airbus Model A300 B4-622R series airplanes).

These TR's contain performance adjustments for the AFM for Model A310-324, A310-325, and A300 B4-622R series airplanes equipped with one or more Pratt & Whitney Model PW4000 series engine with early-production fan blades. The DGAC classified these TR's as mandatory and issued French airworthiness directive 2001-086(B),
