

under the Contracts and Future Contracts.

10. Applicants submit that their request for an order, which applies to Future Accounts established by the Insurance Company Applicants, and Future Contracts that are substantially similar in all material respects to the Contracts described herein, is appropriate in the public interest. Applicants state that such an order would promote competitiveness in the variable annuity market by eliminating the need to file redundant exemptive applications in the future, thereby reducing administrative expenses and maximizing the efficient use of Applicants' resources. Applicants state that requiring them to file additional Applications would impair their ability effectively to take advantage of business opportunities as they arise, and that investors would not receive any benefit or additional protection by requiring Applicants to repeatedly seek exemptive relief that would present no issue under the 1940 Act that has not already been addressed in this Application.

Conclusion

Applicants submit that their exemptive request meets the standards set out in Section 6(c) of the 1940 Act, namely, that the exemptions requested are necessary or appropriate in the public interest and consistent with the protection of investors and the purposes fairly intended by the policy and provisions of the 1940 Act, and that, therefore, the Commission should grant the requested order.

For the Commission, by the Division of Investment Management, pursuant to delegated authority.

Margaret H. McFarland,

Deputy Secretary.
