

substantial number of small entities. The term "small entities" comprises small businesses, not-for-profit organizations that are independently owned and operated and are not dominant in their fields, and governmental jurisdictions with populations of less than 50,000.

The Coast Guard certifies under 5 U.S.C. 605(b) that this rule would not have a significant economic impact on a substantial number of small entities.

Assistance for Small Entities

Under the 213(a) of the Small Business Regulatory Enforcement Fairness Act of 1996 (Pub. L. 104-121, we want to assist small entities in understanding the rule so that they can better evaluate its effects on them and participate in the rulemaking process.

Collection of Information

This rule would call for no new collection of information under the Paperwork Reduction Act of 1995 (44 U.S.C. 3501-3520.).

Federalism

We have analyzed this rule under Executive Order 13132 and have determined that this rule would not have implications for federalism under that Order. No comments were received with regards to federalism during NPRM comment period.

Unfunded Mandates Reform Act

The Unfunded Mandates Reform Act of 1995 (2 U.S.C. 1531-1538) governs the issuance of Federal regulations that require unfunded mandates. An unfunded mandate is a regulation that requires a State, local, or tribal government or the private sector to incur direct costs without the Federal Government's having first provided the funds to pay those costs. This rule would not impose an unfunded mandate. No comments were received with regards to unfunded mandates during NPRM comment period.

Taking of Private Property

This rule would not effect a taking of private property or otherwise have taking implications under E.O. 12630, Governmental Actions and Interference with Constitutionally Protected Property Rights. No comments were received with regards to the taking of private property during NPRM comment period.

Civil Justice Reform

This rule meets applicable standards in sections 3(a) and 3(b)(2) of E.O. 12988, Civil Justice Reform, to minimize litigation, eliminate ambiguity, and reduce burden. No comments were

received with regards to the taking of private property during NPRM comment period.

Protection of Children

We have analyzed this rule under E.O. 13045, Protection of Children from Environmental Health Risks and Safety Risks. This rule is not an economically significant rule and does not concern an environmental risk to health or risk to safety that may disproportionately affect children.

Indian Tribal Governments

This rule does not have tribal implications under Executive Order 13175, Consultation and Coordination with Indian Tribal Governments, because it does not have a substantial direct effect on one or more Indian tribes, on the relationship between the Federal Government and Indian tribes, or on the distribution of power and responsibilities between the Federal Government and Indian tribes.

Environment

We considered the environmental impact of this rule and concluded that, under figure 2-1, paragraph (32)(e), of Commandant Instruction M16475.IC, this rule is categorically excluded from further environmental documentation. Bridge Administration Program actions that can be categorically excluded include promulgation of operating regulations or procedures for drawbridges. A "Categorical Exclusion Determination" is available in the docket where indicated under ADDRESSES.

Records Disposition; Technical Amendments

AGENCY: National Archives and Records Administration (NARA).

ACTION: Final rule.

SUMMARY: NARA is correcting and updating internal references and form names covered in the records management regulations. This final rule will affect Federal agencies.

EFFECTIVE DATE: June 15, 2001.

FOR FURTHER INFORMATION CONTACT:

Nancy Allard or Lynn Dubose at telephone number 301-713-7360 or fax number 301-713-7270.

SUPPLEMENTARY INFORMATION: Several amendments were made to Part 1228 in 1999, however, some internal references to Part 1228 in other Parts in Subchapter B and forms were not updated at that time. This final rule contains technical amendments such as designations for NARA organizational components, addresses, form titles, and cross-references.

This final rule is not a significant regulatory action for the purposes of Executive Order 12866 and has not been reviewed by the Office of Management and Budget. As required by the Regulatory Flexibility Act, I certify that this final rule will not have a significant impact on a substantial number of small entities because it applies only to Federal agencies. This final rule has no federalism or tribalism implications.

ENVIRONMENTAL PROTECTION AGENCY**40 CFR Part 52**

[MO 122–1122; FRL–6980–8]

Approval and Promulgation of Implementation Plans; State of Missouri

AGENCY: Environmental Protection Agency (EPA).

ACTION: Final rule.

SUMMARY: EPA is approving a rule revision submitted by the state of Missouri to clarify that any credible evidence (referenced as the “CE revisions” or “CE” throughout this document) may be used to establish compliance or noncompliance with applicable requirements of the Missouri air pollution control regulations under the authority of applicable provisions in section 110(a) of the Clean Air Act (the “Act”) (CAA). EPA proposed approval of the Missouri rule on February 6, 1996. The proposal was accompanied by a direct final rule approving the Missouri submission. In that rule, EPA stated that the rule would become final if no adverse comments were received, but that if EPA received adverse comments, it would withdraw the final rule, treat the action as a proposed rulemaking, and respond to the comments prior to taking a final action. Because it received adverse comments, EPA withdrew the final action. We are now taking final action to approve the rule. Public comments are addressed in this action and in a Response to Comments document.

DATES: This rule is effective on June 15, 2001.

ADDRESSES: Comments may be mailed to Wayne Kaiser, Environmental Protection Agency, Air Planning and Development Branch, 901 North 5th Street, Kansas City, Kansas 66101.

Copies of documents relative to this action are available for public inspection during normal business hours at the Environmental Protection Agency, Air Planning and Development Branch, 901 North 5th Street, Kansas City, Kansas 66101. The interested persons wanting to examine these documents should make an appointment with the office at least 24 hours in advance.

FOR FURTHER INFORMATION CONTACT: Wayne Kaiser at (913) 551–7603.

I. SUPPLEMENTARY INFORMATION:**A. Introduction**

Throughout this document whenever “we, us, or our” is used, we mean EPA. This section provides additional information by addressing the following questions:

What is a State Implementation Plan (SIP)?
What is the Federal approval process for a SIP?

What does Federal approval of a state regulation mean to me?

What is being addressed in this document?
What comments were received by EPA and what are EPA’s responses to the comments?

Have the requirements for approval of a SIP revision been met?

What action is EPA taking?

What Is a State Implementation Plan (SIP)?

Section 110 of the CAA requires states to develop air pollution regulations and control strategies to ensure that state air quality meets the national ambient air quality standards established by EPA. These ambient standards are established under section 109 of the CAA, and they currently address six criteria pollutants. These pollutants are: carbon monoxide, nitrogen dioxide, ozone, lead, particulate matter, and sulfur dioxide.

Each state must submit these regulations and control strategies to us for approval and incorporation into the Federally enforceable SIP.

Each Federally approved SIP protects air quality primarily by addressing air pollution at its point of origin. These SIPs can be extensive, containing state regulations or other enforceable documents and supporting information such as emission inventories, monitoring networks, and modeling demonstrations.

What Is the Federal Approval Process for a SIP?

In order for state regulations to be incorporated into the Federally enforceable SIP, states must formally adopt the regulations and control strategies consistent with state and Federal requirements. This process generally includes a public notice, public hearing, public comment period, and a formal adoption by a state-authorized rulemaking body.

Once a state rule, regulation, or control strategy is adopted, the state submits it to EPA for inclusion into the SIP. We must provide public notice and seek additional public comment
