ADDRESSES: U. S Army Corps of Engineers, ATTN: CECW-OR, 441 G Street, NW., Washington, DC 20314-1000.

FOR FURTHER INFORMATION CONTACT: Mr. Frank Torbett, Headquarters Regulatory Branch, Washington, D.C. at (202) 761-4618, or Mr. Rick Henderson, Corps of Engineers, Norfolk District, Regulatory Branch, at (757) 441-7653.

SUPPLEMENTARY INFORMATION: Pursuant to its authorities in Section 7 of the Rivers and Harbors Act of 1917 (40 Stat. 266; 33 U.S.C.1) and Chapter XIX, of the Army Appropriations Act of 1919 (40 Stat. 892; 33 U.S.C. 3) the Corps proposes to amend the restricted area regulations in 33 CFR 334.300.

Procedural Requirements

a. Review Under Executive Order 12866

This proposed rule is issued with respect to a military function of the Defense Department and the provisions of Executive Order 12866 do not apply.

b. Review Under the Regulatory Flexibility Act

These proposed rules have been reviewed under the Regulatory Flexibility Act (Public Law 96-354) which requires the preparation of a regulatory flexibility analysis for any regulation that will have a significant economic impact on a substantial number of small entities (i.e., small businesses and small Governments). The Corps expects that the economic impact of the establishment of this restricted area would have practically no impact on the public, no anticipated navigational hazard or interference with existing waterway traffic and accordingly, certifies that this proposal if adopted, will have no significant economic impact on small entities.

c. Review Under the National Environmental Policy Act

An environmental assessment has been prepared for this action. We have concluded, based on the minor nature of the proposed additional restricted area regulations, that this action, if adopted, will not have a significant impact to the quality of the human environment, and preparation of an environmental impact statement is not required. The environmental assessment may be reviewed at the District office listed at the end of **FOR FURTHER INFORMATION CONTACT**, above.

d. Unfunded Mandates Act

This proposed rule does not impose an enforceable duty among the private

sector and, therefore, is not a Federal private sector mandate and is not subject to the requirements of Section 202 or 205 of the Unfunded Mandates Act. We have also found under Section 203 of the Act, that small Governments will not be significantly and uniquely affected by this rulemaking.

BILLING CODE 3710-92-P

DEPARTMENT OF DEFENSE

Department of the Army, Corps of Engineers

33 CFR Part 334

United States Navy Restricted Area, Little Creek Harbor, VA

AGENCY: United States Army Corps of Engineers, DoD.

ACTION: Notice of proposed rulemaking and request for comments.

SUMMARY: The Corps of Engineers is proposing regulations to establish a restricted area in the vicinity of the Little Creek Amphibious Base, Little Creek, Virginia. These regulations will enable the Navy to enhance security around vessels moored at the facility. 33 U.S.C. 1 states, in part that: It shall be the duty of the Secretary of the Army to prescribe such regulations for the use, administration, and navigation of the navigable waters of the United States as in his/her judgment the public necessity may require for the protection of life and property. The regulations are necessary to safeguard Navy vessels and United States government facilities from sabotage and other subversive acts, accidents, or incidents of similar nature. These regulations are also necessary to protect the public from potentially hazardous conditions which may exist as a result of Navy use of the area.

DATES: Written comments must be submitted on or before June 25, 2001.

ADDRESSES: U.S. Army Corps of Engineers, ATTN: CECW-OR, 441 G Street, NW., Washington, DC 20314-1000.

FOR FURTHER INFORMATION CONTACT: Mr. Frank Torbett, Headquarters Regulatory Branch, Washington, D.C. at (202) 761-4618, or Mr. Rick Henderson, Corps of Engineers, Norfolk District, Regulatory Branch, at (757) 441-7653.

SUPPLEMENTARY INFORMATION: Pursuant to its authorities in Section 7 of the Rivers and Harbors Act of 1917 (40 Stat. 266; 33 U.S.C. 1) and Chapter XIX, of the Army Appropriations Act of 1919 (40 Stat. 892; 33 U.S.C. 3) the Corps proposes to amend the restricted area regulations in 33 CFR Part 334 by adding § 334.305 which establishes a restricted area in Little Creek Harbor adjacent to the Naval Amphibious Base (NAB) in Little Creek, Virginia. NAB is the homeport of numerous ships, small boats and special operational units. The public currently has unrestricted access to the facility and units assigned there. To better protect vessels and personnel assigned to NAB, the Commander, Navy Region, Mid-Atlantic has requested the Corps of Engineers establish a Restricted Area which will enable the Navy to implement a waterside security program that is currently not available at the facility.
