14 CFR Part 71

[Airspace Docket No. 01-ASO-6]

Proposed Amendment of Class D and Class E2 and E4 Airspace; Gainesville, FL

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice of proposed rulemaking.

SUMMARY: This document proposes to amend Class D and Class E2 and E4 airspace at Gainesville, FL. As a result of relocating and renaming the Gainesville VORTAC (Airspace Docket 00-ASO-35), the VORTAC's position has been recalculated and final approach courses for the VHF Omni-directional Range (VOR) Standard Instrument Approach Procedures (SIAP) have been changed for the Gainesville Regional Airport, Gainesville, FL. This action would amend the lateral limits of the existing Class D and E2 airspace from a 4.3-mile radius to a 4.9-mile radius of the Gainesville Regional Airport. The Class E4 airspace, designated as an extension to a Class D airspace area, would rotate clockwise 12 degree and would amend the extension from the 4.3-mile radius to 2.5 miles northeast of the VORTAC to an extension from the 4.9-mile radius to 2.9 miles northeast of the VORTAC.

DATES: Comments must be received on or before June 28, 2001.

The Proposal

The FAA is considering an amendment to Part 71 of the Federal Aviation Regulations (14 CFR part 71) to amend Class D airspace and Class E2 and E4 airspace at Gainesville, FL. Class D and Class E airspace designations for airspace areas extending upward from the surface of the earth and Class E airspace designations for airspace areas designated as an extension to a Class D airspace area are published in Paragraphs 5000, 6002 and 6004 respectively, of FAA Order 7400.9H, dated September 1, 2000, and effective September 16, 2000, which is incorporated by reference in 14 CFR 71.1. The Class D and Class E airspace designations listed in this document would be published subsequently in the Order.

The FAA has determined that this proposed regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. It, therefore, (1) is not a "significant regulatory action" under Executive order 12866; (2) is not a "significant rule" under DOT Regulatory Policies and procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a Regulatory Evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this rule, when promulgated, will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.
