

Rhode Island National Wildlife Refuge Complex, Shoreline Plaza Route 1A, P.O. Box 307, Charlestown, Rhode Island 02813, telephone 401-364-9124.

SUPPLEMENTARY INFORMATION: The draft Comprehensive Conservation Plan and Environmental Assessment fully describes, evaluates, and compares four alternatives for managing the natural resources and public use opportunities on the Rhode Island National Wildlife Refuge Complex. One of the alternatives represents the Service's Proposed Action. The four alternatives are:

Alternative A

This is the No Action Alternative required by the Council of Environmental Quality's regulations on the implementation of the National Environmental Policy Act (NEPA). Selection of this alternative would not change our current management programs on any of the five refuges. Our land acquisition program would continue to be focused on the 735 acres remaining within the currently approved acquisition boundaries. We would continue to emphasize management for the federally threatened piping plover and restoration of early-successional coastal sandplain habitats and wetlands. Public use opportunities would not change appreciably.

Alternative B

Alternative B is the Service's Proposed Action; that is, the alternative currently recommended for approval. Selection of this alternative would expand all Refuge boundaries, increasing our current land acquisition goal by 3,200 acres. Alternative B would increase protection and management for endangered, threatened, and other species of concern, increase restoration of early-successional native habitats and wetlands, and increase biological inventories and monitoring. Opportunities would increase for all six priority public uses, which include hunting, fishing, wildlife observation and photography, environmental education and interpretation. Compatibility determinations for the proposed priority public use activities are included as an appendix to the document. These compatibility determinations establish which public uses support the achievement of refuge purposes or the National Wildlife Refuge System mission and would be allowed on refuge land.

Alternative C

This alternative would also increase protection, management, restoration, monitoring and inventories of species and habitats similar to Alternative B.

However, selection of this alternative would increase our current land acquisition goal by 11,500 acres. Refuge staff would take the lead in accomplishing interagency, watershed-based planning initiatives, respective recovery team tasks, and ecosystem team priorities. This alternative would eliminate existing incompatible, non-wildlife dependent uses by 2002, three years sooner than the other alternatives. Environmental education would be emphasized over other priority public uses on each refuge.

Alternative D

This alternative would maintain current biological resource program priorities, which include protecting piping plover, and managing early-successional native habitats and wetlands. Selection of this alternative would pursue the current land acquisition goal of 735 acres, similar to Alternative A. This alternative is distinguished from the others by the amount of resources directed towards expanding all priority public use opportunities on each refuge.

Dated: January 8, 2001.

Dr. Mamie A. Parker,

Acting Regional Director, U.S. Fish and Wildlife Service, Hadley, Massachusetts.

Notice of Receipt of Applications for Permit; Endangered Species

The following applicants have applied for a permit to conduct certain activities with endangered species. This notice is provided pursuant to Section 10(c) of the Endangered Species Act of 1973, as amended (16 U.S.C. 1531, *et seq.*). Written data or comments should be submitted to the Director, U.S. Fish and Wildlife Service, Division of Management Authority, 4401 North Fairfax Drive, Room 700, Arlington, Virginia 22203 and must be received by the Director within 30 days of the date of this publication.

Applicant: Henry Doorly Zoo, Omaha, NE, PRT-035467

The applicant requests a permit to export cryopreserved semen collected from one captive born male gorilla (*Gorilla gorilla*) to the Johannesburg Zoological Gardens, Parkview, South Africa for the purpose of enhancement of the survival of the species through captive propagation by artificial insemination.

Applicant: Rosita H. Roden, New York, NY, PRT-037356

The applicant requests a permit to import headaddresses and other indigenous ceremonial products derived from wild Harpy eagle (*Harpia harpyja*) Razor-billed curassow (*Mitu mitu*), Jabiru (*Jabiru mycteria*), and Woolly spider monkey (*Brachyteles arachnoides*) from the Amazon Rainforest in Brazil. The purpose of the import is to enhance the survival of the species.

The U.S. Fish and Wildlife has information collection approval from OMB through February 28, 2001. OMB Control Number 1018-0093. Federal Agencies may not conduct or sponsor and a person is not required to respond to a collection of information unless it displays a current valid OMB control number.

Documents and other information submitted with these applications are available for review, subject to the requirements of the Privacy Act and Freedom of Information Act, by any party who submits a written request for a copy of such documents to the following office within 30 days of the date of publication of this notice: U.S. Fish and Wildlife Service, Division of Management Authority, 4401 North Fairfax Drive, Room 700, Arlington, Virginia 22203. Phone: (703/358-2104); Fax: (703/358-2281).

Dated: January 8, 2000.

Anna Barry,

Branch of Permits, Division of Management Authority.

Klamath River Basin Fisheries Task Force; Meeting

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Notice of meeting.

SUMMARY: Pursuant to section 10(a)(2) of the Federal Advisory Committee Act (5 U.S.C. App. I), this notice announces a meeting of the Klamath River Basin Fisheries Task Force, established under the authority of the Klamath River Basin Fishery Resources Restoration Act (16 U.S.C. 460ss *et seq.*). The meeting is open to the public.

DATES: The Klamath River Basin Fisheries Task Force (Task Force) will meet from 8 a.m. to 5 p.m. on February 8, 2001, and from 8 a.m. to 3:45 p.m. on February 9, 2001.

PLACE: The meeting will be held at the Best Western Brookings Inn, 1143 Chetco Avenue, Brookings, Oregon.

FOR FURTHER INFORMATION CONTACT: Dr. Ronald A. Iverson, Project Leader, Fish and Wildlife Service, 1829 South Oregon Street, Yreka, California 96097, telephone (530) 842-5763.

SUPPLEMENTARY INFORMATION: For background information on the Task Force, please refer to the notice of their initial meeting that appeared in the *Federal Register* on July 8, 1987 (52 FR 25639).

Dated: January 5, 2001.

Mary Elle Mueller,

Acting California/Nevada Operations Manager, California/Nevada Office, Fish and Wildlife Service.

DEPARTMENT OF THE INTERIOR

Bureau of Indian Affairs

Revised Notice of Intent To Prepare an Environmental Impact Statement/ Environmental Impact Report for the Torres Martinez-Calpine Power Generating Facility, Riverside County, California

AGENCY: Bureau of Indian Affairs, Interior.

ACTION: Revised notice.

SUMMARY: This notice revises a notice published on June 13, 2000, in the *Federal Register* (65 FR 37163), which informed the public that the Bureau of Indian Affairs, in cooperation with the Torres Martinez Desert Cahuilla Indians and Calpine Corporation, intended to gather information necessary to prepare an Environmental Impact Statement (EIS) for a power generating facility that Calpine proposes to construct and operate on 41.5 acres of the Torres Martinez Indian Reservation in Riverside County, California. The purposes of this revised notice are to (1) announce that the Bureau will be preparing an Environmental Impact Report (EIR) in conjunction with the EIS; (2) to include in the project description modifications made to the project after the original notice was published; and (3) to update the environmental issues identified for the project. Details on the changes are included in a revised **SUPPLEMENTARY INFORMATION** section. This notice also announces a public scoping meeting for the content of the EIS/EIR.

DATES: Comments on the scope and implementation of this proposal must arrive by February 12, 2001. The public

scoping meeting will be held on January 30, 2001, from 7:00 p.m. to 8:00 p.m., or until all attendees who wish to do so have had the opportunity to register their views.

ADDRESSES: You may mail or hand carry written comments to Ronald M. Jaeger, Regional Director, Pacific Region, Bureau of Indian Affairs, 2800 Cottage Way, Sacramento, California, 95825-1846.

The January 30, 2001, public scoping meeting will be held at the Tribal Hall, Torres Martinez Indian Reservation, 66-725 Martinez Road, Thermal, California.

FOR FURTHER INFORMATION CONTACT: William Allan, (916) 978-6043, or Bobbi Fletcher, (760) 397-9850.

SUPPLEMENTARY INFORMATION: Calpine Corporation, through an agreement with the Torres Martinez Desert Cahuilla Indians, plans to construct, own and operate a 600 megawatt natural gas-fired power plant on a 41.5 acre parcel of tribal trust land in Riverside County, California, northeast of the town of Mecca. The parcel is located along 62nd Avenue, east of Johnson Street near the Coachella Canal.

Natural gas is proposed to be supplied to the plant by a new 11 to 17 mile gas line extending north to a connection point north of the I-10 Freeway. Electricity produced by the plant would be routed through an on-site substation to the first point of junction with the interconnected transmission system via existing electrical transmission lines. To relieve the potential for localized transmission system congestion beyond the point of first interconnection, the project would also require construction of a new electrical transmission line segment between the site and a substation in the city of Coachella, plus improvements to several miles of existing off-site transmission lines. Cooling water for the power plant is proposed to be obtained from the Coachella Canal immediately east of the site, or from an on-site groundwater well. The plant would utilize a zero-discharge system, wherein cooling water would be repeatedly cycled and then evaporated in on-site evaporation ponds.

The areas of environmental concern to be addressed in the EIS/EIR include agricultural, water, biological, mineral, paleontological, visual/aesthetic and cultural resources, geology, soils, traffic and transportation, land use, noise, air quality, public health and infrastructure, environmental hazards, hazardous materials and waste, worker safety, socioeconomics/environmental justice, and Indian trust assets. Others

may be added based on comments received during the scoping process.

Public Comment Solicitation

As an alternative to submitting written comments regarding the content of the EIS/EIR to the location identified in the **ADDRESSES** section, interested persons may instead comment via the Internet to billallan@bia.gov. Please submit Internet comments as an ASCII file, avoiding the use of special characters and any form of encryption. If you do not receive confirmation from the system that your Internet message was received, contact us directly at (916) 978-6043.

Comments, including names and home addresses of respondents, will be available for public review at the mailing address shown in the **ADDRESSES** section, during regular business hours, 8:00 a.m. to 4:30 p.m., Monday through Friday, except holidays. Individual respondents may request confidentiality. If you wish us to withhold your name and/or address from public review or from disclosure under the Freedom of Information Act, you must state this prominently at the beginning of your written comment. Such requests will be honored to the extent allowed by law. We will not, however, consider anonymous comments. All submissions from organizations or businesses, and from individuals identifying themselves as representatives or officials of organizations or businesses, will be made available for public inspection in their entirety.

Authority

This notice is published in accordance with section 1503.1 of the Council on Environmental Quality Regulations (40 CFR Parts 1500 through 1508), implementing the procedural requirements of the National Environmental Policy Act of 1969, as amended (42 U.S.C. 4321 *et seq.*), and the Department of the Interior Manual (516 DM 1-6), and is in the exercise of authority delegated to the Assistant Secretary—Indian Affairs by 209 DM 8.

Dated: January 9, 2001.

Michael Anderson,

Acting Assistant Secretary—Indian Affairs.
