

occupational exposure to cadmium. The major information-collection requirements in § 1926.1127 include conducting employee exposure monitoring, notifying employees of their cadmium exposures, implementing a written compliance program, implementing a written emergency plan for managing inadvertent and substantial releases of airborne cadmium, implementing medical surveillance of employees, providing examining physicians with specific information, ensuring that employees receive a copy of their medical-surveillance results, maintaining employees' exposure-monitoring and medical records for specific periods, and providing access to these records by OSHA, the National Institute for Occupational Safety and Health, the affected employees, and their authorized representatives.

## II. Special Issues for Comment

OSHA has a particular interest in comments on the following issues:

- Whether the proposed information-collection requirements are necessary for the proper performance of the Agency's functions, including whether the information is useful;
- The accuracy of OSHA's estimate of the burden (time and cost) of the information-collection requirements, including the validity of the methodology and assumptions used;
- The quality, utility, and clarity of the information collected; and
- Ways to minimize the burden on employers who must comply; for example, by using automated or other technological information-collection and -transmission techniques.

## III. Proposed Actions

OSHA is requesting to increase the existing burden-hour estimate for, and to extend OMB approval of, the collection-of-information requirements specified in § 1926.1127. In this regard, the Agency is requesting to increase the current burden-hour estimate from 36,388 hours to 36,631 hours, a total increase of 243 hours. This increase results mainly from reestimating the burden hours required for employers to determine if cadmium is present in the workplace and, if so, whether employee exposure above the action level is possible. OSHA will summarize the comments submitted in response to this notice, and will include this summary in its request to OMB to extend the approval of this information-collection requirements.

*Type of Review:* Extension of currently approved information-collection requirements.

*Title:* Cadmium in Construction.

*OMB Number:* 1218-0186.

*Affected Public:* Business or other for-profit; not-for-profit institutions; Federal government; State, local or tribal governments.

*Number of Respondents:* 10,000.

*Frequency of Response:* Occasionally.

*Average Time per Response:* From 5 minutes (.08 hour) to maintain an employee's medical or exposure record to 1.5 hours to administer an employee medical examination.

*Estimated Total Burden Hours:* 36,631 hours.

*Estimated Cost (Operation and Maintenance):* \$2,232,500.

## IV. Authority and Signature

R. Davis Layne, Acting Assistant Secretary of Labor for Occupational Safety and Health, directed the preparation of this notice. The authority for this notice is the Paperwork Reduction Act of 1995 (44 U.S.C. 3506), Secretary of Labor's Order No. 3-2000 (65 FR 50017).

Signed at Washington, DC on May 29, 2001.

**R. Davis Layne,**

*Acting Assistant Secretary of Labor.*

## NATIONAL SCIENCE FOUNDATION

### Agency Information Collection Activities; Proposed Collection; Comment Request

**AGENCY:** National Science Foundation.

**ACTION:** Submission for OMB review; comment request.

**SUMMARY:** Under the Paperwork Reduction Act of 1995, Pub. L. 104-13 (44 U.S.C. 3501 et seq.), and as part of its continuing effort to reduce paperwork and respondent burden, the National Science Foundation (NSF) is inviting the general public and other Federal agencies to comment on this proposed information collection. This is the second notice for public comment; the first was published in the **Federal Register** at 66 FR 2943 and no comments were received. NSF is forwarding the proposed submission to the Office of Management and Budget (OMB) for clearance simultaneously with the publication of this second notice.

**DATES:** Comments regarding these information collections are best assured of having their full effect if received by OMB within 30 days of publication in the **Federal Register**.

**ADDRESSES:** Comments regarding (a) whether the collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility; (b) the accuracy of the agency's estimate of burden including the validity of the methodology and assumptions used; (c) ways to enhance the quality, utility and clarity of the information to be collected; (d) ways to minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology should be addressed to: Office of Information and Regulatory Affairs of OMB, Attention: Desk Officer for National Science Foundation, 725 17th Street, NW., Room 10235, Washington, DC 20503, and to Anita Eisenstadt, Assistant General Counsel, through surface mail (National Science Foundation, 4201 Wilson Boulevard, Room 1265, Arlington, Virginia 22230); email ([aeisenst@nsf.gov](mailto:aeisenst@nsf.gov)) or fax (703-292-9041). Copies of the submission(s) may be obtained by calling 703-292-8060.

NSF may not conduct or sponsor a collection of information unless the collection of information displays a currently valid OMB control number and the agency informs potential persons who are to respond to the collection of information that such persons are not required to respond to the collection of information unless it displays a currently valid OMB control number.

**FOR FURTHER INFORMATION CONTACT:** Call or write Anita Eisenstadt, Assistant General Counsel, at the National Science Foundation, 4201 Wilson Boulevard, Room 1265, Arlington, Virginia 22230; call (703) 292-8060, or send email to [aeisenst@nsf.gov](mailto:aeisenst@nsf.gov).

### SUPPLEMENTARY INFORMATION:

*Title of Collection:* Antarctic emergency response plan and environmental protection information.

*Abstract:* The NSF, pursuant to the Antarctic Conservation Act of 1978 (16 U.S.C. 2401 et seq.) ("ACA") regulates certain non-governmental activities in Antarctica. The ACA was amended in 1996 by the Antarctic Science, Tourism, and Conservation Act. On June 4, 1998, NSF published a proposed rule in the **Federal Register** (63 FR 30438) to implement certain of these statutory amendments. The proposed rule would require non-governmental Antarctic expeditions using non-U.S. flagged vessels to ensure that the vessel owner has an emergency response plan. The

proposed rule would also require persons organizing a non-governmental expedition to provide expedition members with information on their environmental protection obligations under the Antarctic Conservation Act. The notice of proposed rule stated that the rule was not subject to the Paperwork Reduction Act because of the small number of U.S. operators subject to the rule. Based upon comments received on the proposed rule and the slight increase in applicable tour operators, NSF has determined that it will issue this information collection notice to satisfy the requirements of the Paperwork Reduction Act of 1995, prior to issuing the final rule.

**Expected Respondents.** Respondents may include non-profit organizations and small and large businesses. The majority of respondents are anticipated to be U.S. tour operators, currently estimated to number twelve.

**Burden on the Public.** The Foundation estimates that a one-time paperwork and recordkeeping burden of 40 hours or less, at a cost of \$500 to \$1400 per respondent, will result from the emergency response plan requirement contained in the proposed rule. Presently, all respondents have been providing expedition members with a copy of the Guidance for Visitors to the Antarctic (prepared and adopted at the Eighteenth Antarctic Treaty Consultative Meeting as Recommendation XVIII-1). Because this Antarctic Treaty System document satisfies the environmental protection information requirements of the proposed rule, no additional burden shall result from the environmental information requirements in the proposed rule.

Dated: April 18, 2001.

**Lawrence Rudolph,**  
General Counsel.

## NUCLEAR REGULATORY COMMISSION

### Agency Information Collection Activities: Submission for the Office of Management and Budget (OMB) Review; Comment Request

**AGENCY:** U. S. Nuclear Regulatory Commission (NRC).

**ACTION:** Notice of the OMB review of information collection and solicitation of public comment.

**SUMMARY:** The NRC has recently submitted to OMB for review the

following proposal for the collection of information under the provisions of the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35). The NRC hereby informs potential respondents that an agency may not conduct or sponsor, and that a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number.

1. *Type of submission, new, revision, or extension:* Extension.

2. *The title of the information collection:* 10 CFR Part 19, "Notices, Instructions, and Reports to Workers: Inspection and Investigations".

3. *The form number if applicable:* N/A.

4. *How often the collection is required:* As necessary in order that adequate and timely reports of radiation exposure be made to individuals involved in NRC-licensed activities.

5. *Who is required or asked to report:* Licensees authorized to receive, possess, use, or transfer material licensed by the NRC.

6. *The estimated number of annual responses:* 395,221.

7. *The number of annual respondents:* 6000.

8. *The number of hours needed annually to complete the requirement or request:* 43,037 reporting hours.

9. *An indication of whether section 3507(d), Pub. L. 104-13 applies:* Not applicable.

10. *Abstract:* Title 10 of the Code of Federal Regulations, Part 19, requires licensees to advise workers on an annual basis of any radiation exposure they may have received as a result of NRC-licensed activities or when certain conditions are met. These conditions apply during termination of the worker's employment, at the request of a worker, former worker, or when the worker's employer (the NRC licensee) must report radiation exposure information on the worker to the NRC. Part 19 also establishes requirements for instructions by licensees to individuals participating in licensed activities and options available to these individuals in connection with Commission inspections of licensees to ascertain compliance with the provisions of the Atomic Energy Act of 1954, as amended, Title II of the Energy Reorganization Act of 1974, and regulations, orders and licenses thereunder regarding radiological working conditions.

The worker should be informed of the radiation dose he or she receives because: (a) that information is needed by both a new employer and the individual when the employee changes jobs in the nuclear industry; (b) the individual needs to know the radiation

dose received as a result of an accident or incident (if this dose is in excess of the 10 CFR Part 20 limits) so that he or she can seek counseling about future work involving radiation, medical attention, or both, as desired; and (c) since long-term exposure to radiation may be an adverse health factor, the individual needs to know whether the accumulated dose is being controlled within NRC limits. The worker also needs to know about health risks from occupational exposure to radioactive materials or radiation, precautions or procedures to minimize exposure, worker responsibilities and options to report any licensee conditions which may lead to or cause a violation of Commission regulations, and individual radiation exposure reports which are available to him.

A copy of the final supporting statement may be viewed free of charge at the NRC Public Document Room, One White Flint North, 11555 Rockville Pike, Room O-1 F23, Rockville, MD 20852. OMB clearance requests are available at the NRC worldwide web site: <http://www.nrc.gov/NRC/PUBLIC/OMB/index.html>. The document will be available on the NRC home page site for 60 days after the signature date of this notice.

Comments and questions should be directed to the OMB reviewer listed below by July 2, 2001. Comments received after this date will be considered if it is practical to do so, but assurance of consideration cannot be given to comments received after this date.

Amy Farrell, Office of Information and Regulatory Affairs (3150-0044), NEOB-10202, Office of Management and Budget, Washington, DC 20503.

Dated at Rockville, Maryland, this 24th day of May, 2001.

For the Nuclear Regulatory Commission.

**Brenda Jo. Shelton,**  
NRC Clearance Officer, Office of the Chief Information Officer.
