## SUPPLEMENTARY INFORMATION:

### I. Background:

The ET Handbook No. 406 (ETA 9002 Data Preparation Handbook) provides instructions for completing the ETA 9002 Reports. The ETA 9002 Reports collect information on the activities administered by the public labor exchange in each State and on the outcomes attributable to these activities. The VETS 200 Report and Specifications collect information on the labor exchange activities provided to veterans by Disabled Veterans' Outreach Program (DVOP) specialists and Local Veterans' Employment Representatives (LVER's) within the public labor exchange in each State. We are revising the ET Handbook No. 406 (ETA 9002 Data Preparation Handbook) and VETS 200 Report and Specifications to reflect current federal reporting requirements and to provide for the reporting of performance outcome information derived using the labor exchange performance measures.

In 2000, we initiated the development of a labor exchange performance measurement system which would consist of three elements: (1) labor exchange performance measures, (2) data collection and reporting procedures, and (3) procedures for establishing expected levels of performance. A Federal-State workgroup consisting of representatives from the Employment and Training Administration (ETA), fifteen State agencies, the National Association of State Workforce Agencies (NASWA), and the Veterans' Employment and Training Service (VETS) met three times during 2000 to develop the framework of a labor exchange performance measurement system.

On August 14, 2000, we published proposed labor exchange performance measures in the **Federal Register** (65 FR 49708, *et seq.*). Based on consideration of comments received, we have established four performance measures for the public labor exchange, as published in the **Federal Register** on May 31, 2001.

At the third of its meetings, the labor exchange performance measurement system workgroup recommended revisions to the reporting requirements for the public labor exchange. We have revised the ET Handbook No. 406 (ETA 9002 Data Preparation Handbook) to allow for the reporting of performance outcome information derived from the labor exchange performance measures, based on consideration of the workgroup's recommendations and to reflect current Federal reporting requirements.

Services provided by DVOPs and LVERs to veterans as part of the public labor exchange are reported on the VETS 200 Report—distinct from the ETA 9002 Reports. The VETS 200 Report and Specifications are revised to account for current Federal reporting requirements and to allow for reporting on services provided by DVOP and LVER staff. The VETS 200 Report and Specifications mirror and are compatible with those for the ETA 9002 Reports. Both the ET Handbook No. 406 and the VETS 200 Report and Specifications are available at [www.workforcesecurity.doleta.gov/news/news.asp](http://www.workforcesecurity.doleta.gov/news/news.asp) or by contacting the office listed in the addressee section of this notice.
