A. Purpose

The Centers for Disease Control and Prevention (CDC) announces the availability of fiscal year (FY) 2001 funds for a cooperative agreement program for "National Programs to Support Healthy Aging". This program addresses the "Healthy People 2010" focus areas of Access to Quality Health Services, Educational and Community Based Programs, and Physical Activity and Fitness.

The purpose of the program is to establish national partnerships to enhance health and quality of life for older adults through a broad national strategy to: (1) Promote oral, physical, and mental health and healthy behaviors and practices, (2) reduce the impact of injuries and chronic diseases, and (3) maintain function and independence for older Americans.

This program consists of four parts. Furthermore, Parts I, II, and IV have additional Special Emphasis Areas. To qualify for funding under a Special Emphasis Area, the applicant must apply and be approved for funding under the respective part (i.e., Part I, II, or IV).

Part I—to strengthen and enhance collaborations between health departments at the state and local level and community organizations/networks that focus on older adults to promote behaviors and practices that lead to improved oral, physical, and mental health and more fulfilling and satisfying lives.

Part I, Special Emphasis Area One—to expand activities that promote physical activity in older adults.

Part I, Special Emphasis Area Two—to expand activities that promote immunizations for older adults.

Part II—to strengthen the capacity of national, state, and/or local agencies to conduct and evaluate culturally-appropriate programs that improve oral, physical, and mental health, reduce the

impact of injuries and chronic diseases, and maintain function and independence for older Americans.

Part II, Special Emphasis Area—to identify programmatic best practices in community-based health promotion and disease prevention.

Part III—to support a planning committee and conduct a workshop/conference to assess the public health impact of the aging of America's workforce.

Part IV—to develop consumer education tools and strategies to improve oral, physical, and mental health, reduce the impact of disease and injury, and delay disability and the need for long-term care among older adults, including those in minority and other under-served communities.

Part IV, Special Emphasis Area—to assess the knowledge and beliefs specific to falls, fall risks, driving safely, and driving cessation.

B. Eligible Applicants

Assistance will be provided only to private, not-for-profit 501(c)(3) national organizations whose mission is to serve the health and well-being of older Americans. Eligible applicants will be national voluntary organizations and must have established working relationships with affiliate offices or chapters or local, state, or regional membership constituencies in states and territories in order to provide nationwide geographical coverage for the dissemination of aging information and programs.

Note: Title 2 of the United States Code, Chapter 26, Section 1611 states that an organization described in section 501(c)(4) of the Internal Revenue Code of 1986 that engages in lobbying activities is not eligible to receive Federal funds constituting an award, grant, cooperative agreement, contract, loan, or any other form.
