

estimated burden of the collections; (3) ways to enhance the quality, utility, and clarity of the information that is the subject of the collections; and (4) ways to minimize the burden of collection on respondents, including the use of automated collection techniques or other forms of information technology.

Comments, to DMS or OIRA, must contain the OMB Control Number of the ICR addressed. Comments to DMS must contain the docket number of this request, USCG 2001-9009. Comments to OIRA are best assured of having their full effect if OIRA receives them 30 or fewer days after the publication of this request.

Information Collection Requests

1. *Title:* Alternative Compliance for International and Inland Navigation Rules—33 CFR parts 81 and 89.

OMB Control Number: 2115-0073.

Type of Request: Extension of a currently approved collection.

Affected Public: Owners, operators, builders, and agents of vessels.

Forms: This collection of information does not require the public to fill out Coast Guard forms, but does require operators, owners, builders, or agents of a vessel of special construction to apply by letter for approval that alternative compliance is justified.

Abstract: The information collected provides an opportunity for the owner, operator, builder, or agent of a unique vessel to present her or his reasons why the vessel cannot comply with existing International or Inland Navigation Rules and how it might achieve alternative compliance. If one is appropriate, the Coast Guard issues a Certificate of Alternative Compliance.

Annual Estimated Burden Hours: The estimated burden is 153 hours a year.

Dated: June 4, 2001.

V.S. Crea,

Rear Admiral, U.S. Coast Guard, Director of Information and Technology.

International Conference on Fire and Cabin Safety Research

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice of public conference.

SUMMARY: This notice announces the International Conference on Fire and Cabin Safety Research, which is being held by the Federal Aviation Administration and is similar to conferences held in 1995 and 1998 to discuss the current state of cabin and fire safety research. The Joint Aviation Authorities of Europe, Transport Canada Civil Aviation, the Civil Aviation Bureau of Japan, and the Civil Aviation Safety Authority of Australia are jointly sponsoring the Cabin Safety Research Program and the conference.

DATES: The conference is scheduled for Monday through Thursday, October 22–25, 2001. The conference registration desk will be open from 6 p.m. until 8 p.m., October 21, and from 9 a.m. to 5 p.m., October 22. The conference will begin at 1:30 p.m., October 22.

Registration: Persons planning to attend the conference are encouraged to pre-register by contacting the person identified later in this notice as the contact for further information. The deadline for pre-registration is September 21, 2001. Attendance is open to the interested public, but will be limited to the space available. There is a \$240 fee to attend the conference, which will include lunch and refreshments each day, as well as one dinner. Payment can be in the form of checks, VISA, or MasterCard.

ADDRESSES: The conference will be held at the Trump Taj Mahal Casino-Resort, 1000 Boardwalk at Virginia Ave., Atlantic City New Jersey, telephone 1-800-825-8888 (outside the United States: 609-449-1000).

FOR FURTHER INFORMATION CONTACT:

April Horner, Galaxy Scientific Corporation, c/o FAA Technical Center, Fire Safety Branch, AAR-422, Bldg. 287, Atlantic City International Airport, New Jersey 08405; telephone 609-485-4471, fax 609-646-5229, or on the Internet at: April.CTR.Horner@tc.faa.gov.

SUPPLEMENTARY INFORMATION: Notice is given of a public conference to be held October 22–25, 2001, at the Trump Taj Mahal Casino-Resort, 1000 Boardwalk at Virginia Ave., Atlantic City New Jersey. This conference is a follow-up to similar conferences held in 1995 and 1998, and is intended to summarize the current state of cabin and fire safety research, as well as explore the directions of future research.

In order to more systematically address the subject of cabin safety research, the FAA, in conjunction with the Joint Aviation Authorities (JAA) of Europe and Transport Canada Civil Aviation (TCCA), developed a Cabin Safety Research Program (CSRP) plan. The CSRP describes a procedure whereby the various aviation authorities can identify, and assess the potential benefit of, research in different areas and later determine the appropriateness of specific cabin safety research. This plan was introduced at the 1995 conference, and the authorities have been working under its provisions since then.

While research has been very productive and has resulted in improved safety standards, it has been largely carried out in piecemeal fashion, outside of a systematic framework. There was no formal vehicle to integrate all cabin safety research so that the benefits are maximized, and the available funds are spent efficiently. The FAA has developed such a vehicle to improve both the efficiency and quality of future cabin safety research. Because research will often result in new guidance or regulation, and because the aviation industry is largely an international entity, this potential regulatory impact must be harmonized between regulatory authorities. Therefore, the development of the revised CSRP was coordinated with the JAA, TCCA, the Civil Aviation Bureau of Japan (JCAB), and the Civil Aviation Safety Authority of Australia (CASA).

Based on the success of both previous conferences, the FAA has determined that a follow-up is appropriate and timely, and that issues relating to fire safety in general (that is, fire safety not limited to the cabin) should be included. This conference will afford the interested public an opportunity to comment on the research programs currently underway, as well suggest the course of future research.

Additional information regarding the conference can be found on the World Wide Web, at: <http://www.fire.tc.faa.gov>.

Conference Agenda

Monday, October 22, 2001

Conference Opening Sessions: 1:30 PM–5:00 PM

Presentations of general interest and program goals

Tuesday, October 23, 2001

PM

Evacuation II—Fire—Thermal Acoustic Insulation (including burnthrough); Fire—Detection

Wednesday, October 24, 2001

AM

Evacuation III—Crash Dynamics I—Fire—fuel Tank Inerting; Fire—Advanced Materials Flammability

PM

Evacuation IV—Operational Issues I—Crash Dynamics II—Fire—Fuel Tank Protection; Fire—Advanced Materials Flammability

Thursday, October 24, 2001

AM

Crash Dynamics III—Fire—Materials in Inaccessible Areas; Fire—Fire Suppression; Operational Issues II

PM

Operational Issues III—Fire—Material & Component Flammability; Fire—Fire Protection; Crash Dynamics IV

Note: This agenda involves simultaneous presentation of different topic areas. However, to the extent possible, subjects that might have broader applicability have been scheduled so as not to overlap.

Conference Procedures

Hotel room reservations should be made in advance. A block of rooms has been reserved at the Trump Casino-Resort at a special conference rate. Persons wishing to attend the conference are encouraged to make room reservations by September 21, 2001, by contacting the hotel direct at 1-800-825-8888 (outside the United States: 609-449-1000). Use the reservation code "AFAA01" to receive the special rate.

Persons outside the United States who have questions of a technical nature, or would like to find out more regarding the local Airworthiness Authority's involvement, may contact:

In Canada:
