

DTI states that the issuance of a certificate of public convenience and necessity for the JW-287 well will allow more efficient and reliable operations by DTI and will avoid additional costs to DTI's customers. DTI also requests that intermediate decision procedures be omitted, pursuant to Rules 801 and 802 of the Commission's Rules of Practice and Procedure. This application may be viewed on the web at: [www.rimsweb1.ferc.fed.us/rims.q?rp2-intro](http://www.rimsweb1.ferc.fed.us/rims.q?rp2-intro) (call 202-208-2222 for assistance).

Any questions regarding the application should be directed to Sean R. Sleight, Certificates Manager, Dominion Transmission, Inc., 445 West Main Street, Clarksburg, WV 26301, at (304) 627-3462.

There are two to become involved in the Commission's review of this project. First, any person wishing to obtain legal status by becoming a party to the proceedings for this project should, on or before June 29, 2001, file with the Federal Energy Regulatory Commission, 888 First Street, NE., Washington, DC 20426, a motion to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 385.214 or 385.211) and the Regulations under the NGA (18 CFR 157.10). A person obtaining party status will be placed on the service list maintained by the Secretary of the Commission and will receive copies of all documents filed by the applicant and by all other parties. A party must submit 14 copies of filings made with the Commission and must mail a copy to the applicant and to every other party in the proceeding. Only parties to the proceeding can ask for court review of Commission orders in the proceeding.

However, a person does not have to intervene in order to have comments considered. The second way to participate is by filing with the Secretary of the Commission, as soon as possible, an original and two copies of comments in support of or in opposition to this project. The Commission will consider these comments in determining the appropriate action to be taken, but the filing of a comment alone will not serve to make the filer a party to the proceeding. The Commission's rules require that persons filing comments in opposition to the project provide copies of their protests only to the party or parties directly involved in the protest.

Persons who wish to comment only on the environmental review of this project should submit an original and two copies of their comments to the Secretary of the Commission. Environmental commenters will be

placed on the Commission's environmental mailing list, will receive copies of the environmental documents, and will be notified of meetings associated with the Commission's environmental review process. Environmental commenters will not be required to serve copies of filed documents on all other parties. However, the non-party commenters will not receive copies of all documents filed by other parties or issued by the Commission (except for the mailing of environmental documents issued by the Commission) and will not have the right to seek court review of the Commission's final order.

The Commission may issue a preliminary determination on non-environmental issues prior to the completion of its preview of the environmental aspects of the project. This preliminary determination typically considers such issues such as the need for the project and its economic effect on existing customers of the applicant, on other pipelines in the area, and on landowners and communities. For example, the Commission considers the extent to which the applicant may need to exercise eminent domain to obtain rights-of-way for the proposed project and balances that against the non-environmental benefits to be provided by the project. Therefore, if a person has comments on community and landowner impacts from this proposal, it is important either to file comments or to intervene as early in the process as possible.

Interventions, comments, and protests may be filed electronically via the Internet in lieu of paper. See, 18 CFR 385.2001(a)(1)(iii) and the instructions on the Commission's web site at: [www.ferc.gov/documents/makeanelectronicfiling/doorbell.htm](http://www.ferc.gov/documents/makeanelectronicfiling/doorbell.htm).

If the Commission decides to set the application for a formal hearing before an Administrative Law Judge, the Commission will issue another notice describing that process. At the end of the Commission's review process, a final Commission order approving or denying a certificate will be issued.

#### El Paso Natural Gas Company; Notice of Technical Conference

June 8, 2001.

On June 15, 2000, and August 15, 2000,<sup>1</sup> El Paso Natural Gas Company (El Paso) submitted filings to comply with Order No. 637. Several parties have protested various aspects of El Paso's filing. In addition, on March 28, 2001, El Paso filed, in accordance with the Commission's February 26, 2001 order in Docket No. RP00-336-004,<sup>2</sup> a proposal addressing system-wide capacity allocation issues. Numerous parties filed comments on this proposal.

Take notice that a technical conference to discuss the various issues raised by El Paso's filings will be held on Wednesday, July 18, 2001, at 10 am, in a room to be designated at the offices of the Federal Energy Regulatory Commission, 888 First Street, NE., Washington, DC 20426. The conference will continue through Thursday, July 19, 2001, if necessary. Parties protesting aspects of El Paso's filings should be prepared to discuss alternatives.

All interested parties and Staff are permitted to attend.

**Linwood A. Watson, Jr.,**  
Acting Secretary.

### Federal Energy Regulatory Commission

[Docket No. CP01-381-000]

#### Kern River Gas Transmission Company; Notice on Petition for Declaratory Order

June 8, 2001.

On June 1, 2001, Kern River Gas Transmission Company (Kern River) filed a petition for a declaratory order by the Commission addressing capacity commitments made by Kern River in connection with facilities authorized by the Commission in Docket No. CP01-106-000. This issue arises in light of assertions by Southern California Gas Company (SoCalGas) that Kern River has not satisfied its obligations to

<sup>1</sup> El Paso's August 15, 2000 filing contains its segmentation plan.

<sup>2</sup> 94 FERC ¶ 61,225 (2001).

SoCalGas under a June 15, 1989 Settlement Agreement. Kern River's filing may be viewed on the web at <http://www.ferc.fed.us/online/rims.htm> (call 202-208-2222 for assistance).

On April 6, 2001, the Commission authorized Kern River to construct the California Action Project, which will increase Kern River's design-day mainline capacity by 135,000 Mcf. This additional capacity was allocated as a result of an open season Kern River conducted in March 2001; Kern River ultimately entered into transportation service agreements with 43 shippers as a result of the open season. Kern River intends to commence service using the California Action Project in July 2001.

SoCalGas asserts that, pursuant to a June 15, 1989 Settlement Agreement, Kern River has certain obligations to SoCalGas in the event Kern River intends to add incremental capacity to its system in excess of 700 Mcf. SoCalGas asserts that Kern River must provide it with written notice of intent to add capacity, and must notify SoCalGas of the amount of capacity available after it has awarded any capacity to Enhanced Oil Recovery and congeneration shippers who were granted prior rights under the Settlement Agreement. After such notice is provided, SoCalGas asserts that it must be given 30 days to evaluate whether it wants to contract for such capacity pursuant to Kern River's standard tariff terms and conditions. SoCalGas states that if it had been given this opportunity it would have elected all of the available capacity in the California Action Plan and potentially some or all of the capacity offered in other open seasons Kern River has conducted with regard to proposed future expansions. SoCalGas has inquired how Kern River intends to comply with its obligations under the Settlement Agreement. Kern River requests that the Commission declare that Kern River has no obligation under the 1989 Settlement Agreement to provide SoCalGas any preferential notice of, or opportunity to elect, any of the capacity on Kern River's pending expansions.

There are two ways to become involved in the Commission's review of this petition. First, any person wishing to obtain legal status by becoming a party to the proceeding should on or before June 15, 2001, file with the Federal Energy Regulatory Commission, 888 First Street, NE., Washington, DC 20426, a motion to intervene in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 385.214 or 385.211)

and the Regulations under the Natural Gas Act (18 CFR 157.10).

A person obtaining party status will be placed on the service list maintained by the Secretary of the Commission and will receive copies of all documents filed by the applicant and by all other parties. A party must submit 14 copies of filings made with the Commission and must mail a copy to the applicants and to every other party in the proceeding. Only parties to the proceeding can ask for court review of Commission orders in the proceeding.

However, a person does not have to intervene in order to have comments considered. The second way to participate is by filing with the Secretary of the Commission, by June 15, 2001, an original and two copies of the comments in support of or in opposition to matters raised in the petition. The Commission will consider these comments in determining the appropriate action to be taken, but the filing of a comment will not serve to make the filer a party to the proceeding. The Commission's rules require that person filing comments in opposition provide copies of their protests only to the party or parties directly involved in the protest.

Comments, protests and interventions may be filed electronically via the internet in lieu of paper. See 18 CFR 201(a)(1)(iii) and the instructions on the Commission's web site at <http://www.ferc.fed.us/efi/doorbell.htm>.

### Federal Energy Regulatory Commission

[Docket No. EL01-87-000]

#### South Eastern Energy Corporation and Morgan Stanley Capital Group Inc., Complainants, v. City of Dalton, GA, Georgia Transmission Corporation, Georgia Power Company, Municipal Electric Authority of Georgia, Respondents; Notice of Complaint

June 8, 2001.

Take notice that on June 6, 2001, South Eastern Electric Corporation (SEEC) and Morgan Stanley Capital Group Inc. (MSCG) (collectively Complainants), tendered for filing a complaint pursuant to Section 206 of the Federal Power Act against the City of Dalton, Georgia (Dalton), the Georgia Transmission Corporation (GTC),

Georgia Power Company (Georgia Power), and the Municipal Electric Authority of Georgia (MEAG) (collectively the Georgia Interstate Transmission System (ITS) Members). Complainants contend that the ITS Members have treated Complainants' request to interconnect a new generation facility to the ITS in an unjust, unreasonable, and potentially unduly discriminatory and preferential manner in violation of the Federal Power Act.

Copies of the filing were served upon the City of Dalton, GTC, Georgia Power, and MEAG.

Any person desiring to be heard or to protest this filing should file a motion to intervene or protest with the Federal Energy Regulatory Commission, 888 First Street, NE., Washington, DC 20426, in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211 and 385.214). All such motions or protests must be filed on or before June 18, 2001. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a motion to intervene. Copies of this filing are on file with the Commission and are available for public inspection in the Public Reference Room. This filing may also be viewed on the Internet at <http://www.ferc.fed.us/online/rims.htm> (call 202-208-2222) for assistance. Answers to the complaint shall also be due on or before June 18, 2001. Comments, protests and interventions may be filed electronically via the internet in lieu of paper. See, 18 CFR 385.2001(a)(1)(iii) and the instructions on the Commission's web site at <http://www.ferc.fed.us/efi/doorbell.htm>.
