SUPPLEMENTARY INFORMATION: On December 4, 2000, Executive Order 13178 established the Northwestern Hawaiian Islands Coral Reef Ecosystem Reserve, pursuant to language contained in the National Marine Sanctuaries Amendments Act of 2000. The Reserve encompasses an area of the marine waters and submerged lands of the Northwestern Hawaiian Islands, extending approximately 1200 nautical miles long and 100 nautical miles wide. The management principles and implementation strategy and requirements for the Reserve are found in the Executive Order, which is part of the application kit and can be found on the web site listed above.

In designating the Reserve, the Secretary of Commerce was directed to establish a Coral Reef Ecosystem Reserve Council, pursuant to section 315 of the National Marine Sanctuaries Act, to provide advice and recommendations on the development of the Reserve Operations Plan and the designation and management of a Northwestern Hawaiian Islands National Marine Sanctuary by the

Secretary. The ONMS has established the Reserve Council and is now accepting applications from interested individuals to fill one vacant Native Hawaiian representative position on the Council. The Council is comprised of:

The non-voting representatives and their alternates are chosen by the agencies and other entities which they represent on the Council. The charter for the Council can be found in the application kit, or on the web site listed above.

Selections to the Council will be made based upon candidates' particular

expertise and experience in relation to the seat for which they are applying; community and professional affiliations; and philosophy regarding the conservation and management of marine resources.
