

VI. Impact Statement

We have examined the impact of this notice as required by Executive Order (EO) 12866. Executive Order 12866 directs agencies to assess all costs and benefits of available regulatory alternatives and, when rules are necessary, to select regulatory approaches that maximize net benefits (including potential economic, environmental, public health and safety, other advantages, distributive impacts, and equity). The Regulatory Flexibility Act (RFA) requires agencies to analyze options for regulatory relief of small businesses. For purposes of the RFA, small entities include small businesses, nonprofit organizations and government agencies. This announcement is the result of a statutory formula that does not involve any agency discretion or policy.

The Unfunded Mandates Reform Act of 1995 requires that agencies prepare an assessment of anticipated costs and benefits before publishing any notice that may result in an annual expenditure by State, local, and tribal governments, in the aggregate, or by the private sector, of \$100 million or more (adjusted each year for inflation) in any one year. Because participation in the SCHIP program on the part of States is voluntary, any payments and expenditures States make or incur on behalf of the program that are not reimbursed by the Federal Government are made voluntarily. This notice will not create an unfunded mandate on States, tribal, or local governments. Therefore, we are not required to perform an assessment of the costs and benefits of these regulations.

Under Executive Order 13132, Federalism, we have reviewed this notice and determined that it does not significantly affect States' rights, roles, and responsibilities.

Low-income children will benefit from payments under this program through increased opportunities for health insurance coverage.

We believe this notice will have an overall positive impact by informing States, the District of Columbia, and Commonwealths and Territories of the extent to which they are permitted to expend funds under their child health plans using the FY 1998 allotment redistribution and retained amounts.

In accordance with the provisions of Executive Order 12866, this notice was

not reviewed by the Office of Management and Budget.

(Section 1102 of the Social Security Act (42 U.S.C. 1302))

[Docket No. FR-4456-N-17]

Privacy Act of 1974; Notice of a Computer Matching Program

AGENCY: Office of the Chief Information Officer, HUD.

ACTION: Notice of a Computer Matching Program—HUD and the Internal Revenue Service (IRS).

SUMMARY: In accordance with the Privacy Act of 1974 (5 U.S.C. 552a), as amended by the Computer Matching and Privacy Protection Act of 1988 (Pub. L. 100-503), Office of Management and Budget (OMB) Guidelines on the Conduct of Matching Programs (54 FR 25818 (June 19, 1989)), and OMB Bulletin 89-22, "Instructions on Reporting Computer Matching Programs to the Office of Management and Budget (OMB), Congress and the Public," the Department of Housing and Urban Development (HUD) is issuing a public notice of its intent to conduct a computer matching program with the Internal Revenue Service (IRS). Under the terms of the agreement IRS agrees to disclose to HUD taxpayer mailing addresses as authorized by the Commissioner or her delegate pursuant

to section 6103(m)(2) of the Internal Revenue Code (IRC) for use in locating individuals to collect or compromise Federal claims in accordance with 31 United States Code (U.S.C.) 3711, 3717 and 3718. This program is called the Taxpayer Address Request Program (TAR). It was established by the IRS to facilitate the retrieval of taxpayer mailing addresses from the individual Master File on a volume basis. The volume of addresses and the method in which the IRS maintains the information make computer matching the most feasible method of extracting the data for disclosure to other agencies. Using the TAR computer matching program, current addresses can be obtained from the IRS within a one-week period, thereby avoiding the expenditure of substantial Federal resources in the manual execution of a matching process or investigations by a large workforce to ascertain the current
