

The applicant is now requesting authority to expand the subzone to include a fifth parcel within Site 1: Parcel E (103.5 acres)—tank farm, located at South Lafourche Airport Road, Clovelly, Louisiana, some 1.5 miles from the Clovelly Dome Storage Terminal (Site 1, Parcel B) and .75 of a mile from the Brine Storage Reservoir (Site 1, Parcel C). The proposed site includes a 3000 foot pipeline right of way connecting the tank farm site with the Brine Storage Reservoir. Currently, two storage tanks are under construction, each of which will hold a maximum of 650,000 barrels of crude petroleum product. LOOP may install up to ten additional tanks (6.6 million barrel capacity) on the proposed site. The expansion site will be used for segregated crude petroleum handling.

Public comment on the proposal is invited from interested parties. Submissions (original and 3 copies) shall be addressed to the Board's Executive Secretary at the address below. The closing period for their receipt is August 27, 2001. Rebuttal comments in response to material submitted during the foregoing period may be submitted during the subsequent 15-day period (to August 10, 2001).

A copy of the application and accompanying exhibits will be available for public inspection at each of the following locations:

U.S. Department of Commerce, Export Assistance Center, 365 Canal Street, #1170, New Orleans, LA 70130.

Office of the Executive Secretary, Foreign-Trade Zones Board, U.S. Department of Commerce, Room 4008, 14th & Pennsylvania Avenue, NW, Washington, DC 20230.

Dated: June 18, 2001.

Dennis Puccinelli,

Executive Secretary.

DEPARTMENT OF COMMERCE

Foreign-Trade Zones Board

[Docket 25-2001]

Foreign-Trade Zone 230—Winston-Salem, NC; Application for Subzone Status, United Chemi-Con, Inc., Plant (Aluminum Electrolytic Capacitors), Lansing, North Carolina

An application has been submitted to the Foreign-Trade Zones Board (the Board) by the Piedmont Triad Partnership, grantee of FTZ 230, requesting special-purpose subzone status for the aluminum electrolytic

capacitor manufacturing plant of United Chemi-Con, Inc. (UCC) (a subsidiary of Nippon Chemi-Con, Inc., of Japan), located in Lansing, North Carolina. The application was submitted pursuant to the provisions of the Foreign-Trade Zones Act, as amended (19 U.S.C. 81a-81u), and the regulations of the Board (15 CFR Part 400). It was formally filed on June 18, 2001.

The UCC plant (45 acres/211,000 sq. ft.) is located 185 McNeil Road, Lansing (Ashe County), North Carolina. The facility is used to produce aluminum electrolytic capacitors (HTSUS# 8532.22.0020-85) for export and the domestic market. The production process involves etching, formation, slitting, winding and electrolyte impregnation of aluminum foil, which is then sealed into aluminum cans. Components purchased from abroad (representing 30% of finished capacitor value) include: polyoxy ethylene glycoline, aluminum and copper wire, adipic acid, maleic acid, isomeric decanedicarboxylic acid, silicone, tape, tubes of PET and PVC, gaskets, vent plugs, kraft and manila paper, aluminum etched foil, aluminum tabs, and fasteners (duty rate range: free—8.2%).

FTZ procedures would exempt UCC from Customs duty payments on the foreign components used in export production (20% of shipments). On its domestic sales, the company would be able to choose the duty rate that applies to finished aluminum electrolytic capacitors (duty free) for the foreign inputs noted above. The application indicates that subzone status would help improve the plant's international competitiveness.

In accordance with the Board's regulations, a member of the FTZ Staff has been designated examiner to investigate the application and report to the Board.

Public comment on the application is invited from interested parties. Submissions (original and three copies) shall be addressed to the Board's Executive Secretary at the address below. The closing period for their receipt is August 27, 2001. Rebuttal comments in response to material submitted during the foregoing period may be submitted during the subsequent 15-day period (to September 11, 2001).

A copy of the application and the accompanying exhibits will be available for public inspection at each of the following locations:

Office of the Port Director, U.S. Customs Service—Greensboro, Suite C, 532 North Regional Road, Greensboro, NC 27409.

Office of the Executive Secretary, Foreign-Trade Zones Board, U.S. Department of Commerce, Room 4008, 14th Street & Constitution Avenue, NW, Washington, DC 20230-0002.

Dated: June 18, 2001.

Dennis Puccinelli,

Executive Secretary.

International Trade Administration

[A-122-506]

Notice of Final Results of Antidumping Duty Administrative Review: Oil Country Tubular Goods From Canada

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

SUMMARY: On March 8, 2001, the Department of Commerce (the Department) published the preliminary results of its administrative review of the antidumping duty order on oil country tubular goods (OCTG) from Canada. See *Notice of Preliminary Results of Antidumping Duty Administrative Review: Oil Country Tubular Goods from Canada* 66 FR 13893 (March 8, 2001) (*Preliminary Results*). This review covers one manufacturer/exporter, Atlas Tube, Inc. (Atlas), and the period June 1, 1999, through December 31, 1999. We gave interested parties an opportunity to comment on the *Preliminary Results* of review. We received notification on March 19, 2001 that the single respondent, Atlas, did not intend to file comments. We did not receive any comments from any other parties.

EFFECTIVE DATE: June 26, 2001.

FOR FURTHER INFORMATION CONTACT:

Nithya Nagarajan, AD/CVD Enforcement, Office IV, Group II, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue, NW., Washington, DC 20230; telephone (202) 482-5253.

SUPPLEMENTARY INFORMATION:

The Applicable Statute

Unless otherwise indicated, all citations to the Tariff Act of 1930, as amended (the Act), are references to the provisions effective January 1, 1995, the effective date of the amendments made to the Act by the Uruguay Round Agreements Act (URAA). In addition, unless otherwise indicated, all citations

to the Department's regulations are to 19 CFR Part 351 (1999).

Background

On March 8, 2001, the Department published in the **Federal Register** (66 FR 13893) the Preliminary Results of this review. We invited parties to comment on our *Preliminary Results*. We received notification on March 19, 2001, from Atlas, the only respondent in this segment of the proceeding, that it did not intend to submit either case or rebuttal briefs. In addition, we did not receive any comments from any other party.

In the *Preliminary Results*, we found the dumping margin for Atlas to be 6.56 percent. We have now completed the administrative review in accordance with section 751 of the Act and find the rate to be 6.66 percent, due to the fact that Atlas had filed revised home market sales, U.S. sales, and cost of production databases on February 9, 2001, which the Department inadvertently failed to use in calculating its preliminary results of review.

Scope of the Review

The products covered by this review include shipments of OCTG from Canada. This includes American Petroleum Institute (API) specification OCTG and all other pipe with the following characteristics except entries which the Department determined through its end-use certification procedure were not used in OCTG applications: Length of at least 16 feet; outside diameter of standard sizes published in the API or proprietary specifications for OCTG with tolerances of plus $\frac{1}{8}$ inch for diameters less than or equal to $8\frac{5}{8}$ inches and plus $\frac{1}{4}$ inch for diameters greater than $8\frac{5}{8}$ inches, minimum wall thickness as identified for a given outer diameter as published in the API or proprietary specifications for OCTG; a minimum of 40,000 PSI yield strength and a minimum 60,000 PSI tensile strength; and if with seams, must be electric resistance welded. Furthermore, imports covered by this review include OCTG with non-standard size wall thickness greater than the minimum identified for a given outer diameter as published in the API or proprietary specifications for OCTG, with surface scabs or slivers, irregularly cut ends, ID or OD weld flash, or open seams; OCTG may be bent, flattened or oval, and may lack certification because the pipe has not been mechanically tested or has failed those tests. This merchandise is currently classifiable under the Harmonized Tariff Schedules (HTS) item numbers 7304.20, 7305.20, and 7306.20. The HTS item numbers are

provided for convenience and U.S. Customs purposes. The written description remains dispositive.

Analysis of Comments Received

We did not receive any interested party comments on our Preliminary Results. Therefore, there is no Issues and Decision Memorandum for the final results of review.

Final Results of Review

We have determined that the only change to our analysis for purposes of these final results are the use of the revised home market sales, U.S. sales, and cost of production databases filed by Atlas on February 9, 2001. As a result of this review, we determine that a 6.66 percent dumping margin exists for Atlas for the period June 1, 1999, through December 31, 1999.

Assessment

The Department shall determine, and Customs shall assess, antidumping duties on all appropriate entries. We have calculated an importer-specific duty assessment rate based on the ratio of the total amount of antidumping duties calculated for the importer-specific sales to the total entered value of the same sales. Atlas reported entered value by subtracting discounts, freight, brokerage and handling costs from the reported U.S. price. Since the importer-specific rate is above de minimis, we will instruct Customs to assess duties on the importer's entries of subject merchandise. The Department will issue appraisement instructions directly to Customs.

Pursuant to section 751(d)(2) of the Act, on August 22, 2000, the Department revoked the antidumping duty order on OCTG from Canada, effective January 1, 2000 (65 FR 50954). Therefore, we instructed Customs to liquidate all entries of subject merchandise made on or after January 1, 2000, without regard to antidumping duties. As a result of this revocation, we will not issue cash deposit instructions to Customs based on the results of this review.

Notification

This notice serves as a final reminder to importers of their responsibility under 19 CFR 351.402(f)(2) to file a certificate regarding the reimbursement of antidumping duties prior to liquidation of the relevant entries during this review period. Failure to comply with this requirement could result in the Secretary's presumption that reimbursement of antidumping duties occurred and the subsequent

assessment of doubled antidumping duties.

This notice also serves as a reminder to parties subject to administrative protective order (APO) of their responsibility concerning the disposition of proprietary information disclosed under APO in accordance with 19 CFR 351.305. Timely notification of return/destruction of APO materials or conversion to judicial protective order is hereby requested. Failure to comply with the regulations and the terms of an APO is a sanctionable violation.

This administrative review and notice are in accordance with sections 751(a)(1) and 777(i)(1).

Dated: June 18, 2001.

Faryar Shirzad,

Assistant Secretary for Import Administration.

Technology Administration

[Docket No.: 01613156-1156-01]

National Medal of Technology's Call for Nominations for the Year 2002

AGENCY: Technology Administration, U.S. Department of Commerce.

ACTION: Announcement of the National Medal of Technology's Call for Nominations for the year 2002.

SUMMARY: The Department of Commerce's Technology Administration is accepting nominations for its National Medal of Technology (NMT) award program for the year 2002.

Established by Congress in 1980, the President of the United States awards the National Medal of Technology annually to our Nation's leading innovators. If you know of a candidate who has made an outstanding contribution in technology, send for a nomination packet now.

DATES: The deadline for submission of an application is August 30, 2001.

ADDRESSES: The NMT Nomination Applications for the year 2002 can be obtained from the NMT program office, Technology Administration, U.S. Department of Commerce, 1401 Constitution Avenue, NW., Room 4226, Washington, DC 20230. The applications are also available by visiting the NMT website at www.ta.doc.gov/medal or by faxing the office at 202/501-8153. Please return the completed application to Mildred
