

DEPARTMENT OF ENERGY**[FE Docket No. PP-241]****Application for Presidential Permit, Enron North America Corp.****AGENCY:** Office of Fossil Energy, DOE.**ACTION:** Notice of application.

SUMMARY: Enron North America Corp. (Enron) has applied for a Presidential permit to construct, operate, maintain, and connect an electric transmission line across the U.S. border with Mexico.

DATES: Comments, protests, or requests to intervene must be submitted on or before July 27, 2001.

ADDRESSES: Comments, protests, or requests to intervene should be addressed as follows: Office of Coal & Power Import and Export (FE-27), Office of Fossil Energy, U.S. Department of Energy, 1000 Independence Avenue, S.W., Washington, D.C. 20585-0350.

FOR FURTHER INFORMATION CONTACT: Ellen Russell (Program Office) 202-586-9624 or Michael T. Skinker (Program Attorney) 202-586-2793.

SUPPLEMENTARY INFORMATION: The construction, operation, maintenance, and connection of facilities at the international border of the United States for the transmission of electric energy between the United States and a foreign country is prohibited in the absence of a Presidential permit issued pursuant to Executive Order (EO) 10485, as amended by EO 12038.

On May 4, 2001, Enron filed an application with the Office of Fossil Energy (FE) of the Department of Energy (DOE) for a Presidential permit. Enron proposes to construct two 300-megawatt (MW) converter stations in the vicinity of Brownsville, Texas, and a double-circuit 230,000 volt (230-kV) alternating current (AC) transmission line across the U.S. border to connect with similar facilities of the Comision Federal de Electricidad, the national electric utility of Mexico, in the vicinity of Matamoros, Mexico. The first converter station would convert 138-kV AC power from the City of Brownsville Public Utility Board's Loma Alta Substation to 150-kV DC power. A 150-kV DC transmission line would connect the first converter station with the second which would then convert the DC power to 230-kV AC power. The 230-kV transmission line proposed to cross the U.S.-Mexican border would extend from the second converter station. Depending on the configuration of the two converters (co-located at one site or constructed at separate sites) total length of the DC and AC transmission lines within the US would be between 5.7 and 8.7 miles.

Since restructuring of the electric power industry began, resulting in the introduction of different types of competitive entities into the marketplace, DOE has consistently expressed its policy that cross-border trade in electric energy should be subject to the same principles of comparable open access and non-discrimination that apply to transmission in interstate commerce. DOE has stated that policy in export authorizations granted to entities requesting authority to export over international transmission facilities. Specifically, DOE expects transmitting utilities owning border facilities to provide access across the border in accordance with the principles of comparable open access and non-discrimination contained in the FPA and articulated in Federal Energy Regulatory Commission Order No. 888 (Promotion Wholesale Competition Through Open Access Non-Discriminatory Transmission Services by Public Utilities; FERC Stats. & Regs. ¶ 31,036 (1996)), as amended. In furtherance of this policy, on July 27, 1999, (64 FR 40586) DOE initiated a proceeding in which it noticed its intention to condition existing and future Presidential permits, appropriate for third party transmission, on compliance with a requirement to provide non-discriminatory open access transmission service. That proceeding is not yet complete. However, in this docket DOE specifically requests comment on the appropriateness of applying the open access requirement on Enron's proposed facilities.

Procedural Matters

Any person desiring to become a party to this proceeding or to be heard by filing comments or protests to this application should file a petition to intervene, comment or protest at the address provided above in accordance with §§ 385.211 or 385.214 of the FERC's Rules of Practice and Procedures (18 CFR 385.211, 385.214). Fifteen copies of each petition and protest should be filed with the DOE on or before the date listed above.

Additional copies of such petitions to intervene or protests also should be filed directly with: Robert Frank, Director, Government Affairs, Enron Corp., 1400 Smith Street, Houston, TX 77002 AND Jeffrey D. Watkiss/Andrea M. Settanni, Bracewell & Patterson, L.L.P., 2000 K Street, NW, Suite 500, Washington, DC 20006.

Before a Presidential permit may be issued or amended, the DOE must determine that the proposed action will not adversely impact on the reliability

of the U.S. electric power supply system. In addition, DOE must consider the environmental impacts of the proposed action (i.e., granting the Presidential permit, with any conditions and limitations, or denying the permit) pursuant to the National Environmental Policy Act of 1969. DOE also must obtain the concurrence of the Secretary of State and the Secretary of Defense before taking final action on a Presidential permit application.

Copies of this application will be made available, upon request, for public inspection and copying at the address provided above. In addition, the application may be reviewed or downloaded from the Fossil Energy Home Page at: <http://www.FE.DOE.GOV>. Upon reaching the Fossil Energy Home page, select "Electricity" from the options menu, and then "Pending Proceedings."

Issued in Washington, DC, on June 21, 2001.

Anthony J. Como,

Deputy Director, Electric Power Regulation, Office of Coal & Power Systems, Office of Coal & Power Im/Ex Office of Fossil Energy.

BILLING CODE 6450-01-P**DEPARTMENT OF ENERGY****Federal Energy Regulatory Commission****[Docket No. RP99-466-005]****Great Lakes Gas Transmission Limited Partnership; Notice of Proposed Changes in FERC Gas Tariff**

June 21, 2001.

Take notice that on June 15, 2001, Great Lakes Gas Transmission Limited Partnership (Great Lakes) tendered for filing as part of its FERC Gas Tariff, Second Revised Volume No. 1, Substitute First Revised Sheet No. 29A and Substitute First Revised Sheet No. 50D.

Great Lakes states that these changes are proposed to be effective October 1, 1999 and January 1, 2001, respectively.

Great Lakes states that these tariff sheets are being filed to correct pagination errors that occurred when reserving a range of sheets for future use in earlier tariff filings. As a result of those errors, the electronic Great Lakes tariff includes the reserved sheets as currently effective, with outdated text. The instant filing will resolve any inconsistencies in Great Lakes' electronic tariff, and it will conform the affected sheets to the Commission's pagination requirements.

Any person desiring to protest said filing should file a protest with the Federal Energy Regulatory Commission, 888 First Street, NE., Washington, DC 20426, in accordance with Section 385.211 of the Commission's Rules and Regulations. All such protests must be filed in accordance with Section 154.210 of the Commission's Regulations. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceedings. Copies of this filing are on file with the Commission and are available for public inspection in the Public Reference Room. This filing may be viewed on the web at <http://www.ferc.fed.us/online/rims.htm> (call 202-208-2222 for assistance).

Comments, protests and interventions may be filed electronically via the internet in lieu of paper. See, 18 CFR 385.2001(a)(1)(iii) and the instructions on the Commission's web site at <http://www.ferc.fed.us/efi/doorbell.htm>.

David P. Boergers,
Secretary.

[Docket No. RP96-217-001]

Great Lakes Gas Transmission Limited Partnership; Notice of Proposed Changes in FERC Gas Tariff

June 21, 2001.

Take notice that on June 15, 2001, Great Lakes Gas Transmission Limited Partnership (Great Lakes) tendered for filing as part of its FERC Gas Tariff, Second Revised Volume No. 1, the following with an effective date of June 1, 1996:

Substitute First Revised Sheet No. 70

Great Lakes states that this tariff sheet is being filed to correct a pagination error that occurred when reserving a range of sheets for future use in an earlier tariff filing. As a result of that error, the electronic Great Lakes tariff includes the reserved sheets as currently effective, with outdated text. The instant filing will resolve any inconsistencies in Great Lakes' electronic tariff, and it will conform the affected sheets to the Commission's pagination requirements.

Any person desiring to protest said filing should file a protest with the Federal Energy Regulatory Commission, 888 First Street, N.E., Washington, D.C.

20426, in accordance with Section 385.211 of the Commission's Rules and Regulations. All such protests must be filed in accordance with Section 154.210 of the Commission's Regulations. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceedings. Copies of this filing are on file with the Commission and are available for public inspection in the Public Reference Room. This filing may be viewed on the web at <http://www.ferc.fed.us/online/rims.htm> (call 202-208-2222 for assistance).

Comments, protests and interventions may be filed electronically via the internet in lieu of paper. See, 18 CFR 385.2001(a)(1)(iii) and the instructions on the Commission's web site at <http://www.ferc.fed.us/efi/doorbell.htm>.

[Docket No. EL01-93-000]

Mirant Americas Energy Marketing, L.P., Mirant New England, LLC, Mirant Kendall, LLC, Mirant Canal, LLC, Complainant, v. ISO New England Inc., Respondent; Notice of Complaint

June 21, 2001.

Take notice that on June 20, 2001, Mirant Americas Energy Marketing, L.P., Mirant New England, LLC, Mirant Kendall, LLC and Mirant Canal, LLC (the Mirant Parties) tendered for filing a complaint pursuant to Sections 206 and 306 of the Federal Power Act against the ISO New England Inc. (ISO-NE) in connection with ISO-NE's proposed revisions to procedures for mitigation of generation resources run or used out of economic merit order during transmission constraints.

The Mirant Parties have served copies of the complaint upon the ISO-NE and the New England Power Pool.

Any person desiring to be heard or to protest this filing should file a motion to intervene or protest with the Federal Energy Regulatory Commission, 888 First Street, NE., Washington, DC 20426, in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211 and 385.214). All such motions or protests must be filed on or before June 29, 2001. Protests will be considered by the

Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a motion to intervene. Copies of this filing are on file with the Commission and are available for public inspection in the Public Reference Room. This filing may also be viewed on the Internet at <http://www.ferc.fed.us/online/rims.htm> (call 202-208-2222) for assistance. Answers to the complaint shall also be due on or before June 29, 2001. Comments, protests and interventions may be filed electronically via the internet in lieu of paper. See, 18 CFR 385.2001(a)(1)(iii) and the instructions on the Commission's web site at <http://www.ferc.fed.us/efi/doorbell.htm>.

[Docket No. RP01-457-000]

Northern Border Pipeline Company; Notice of Proposed Changes in FERC Gas Tariff

June 21, 2001.

Take notice that on June 14, 2001, Northern Border Pipeline Company (Northern Border) tendered for filing to become part of its FERC Gas Tariff, First Revised Volume No. 1, the following tariff sheets to become effective July 16, 2001:

First Revised Sheet Number 202
First Revised Sheet Number 301

Northern Border states that the purpose of this filing is to revise Northern Border's FERC Gas Tariff to permit Northern Border to have the ability, from time to time, to contract for off-system pipelines' services without prior Commission approval. Northern Border also requests that the Company grant Northern Border a waiver of the "shipper must hold title to the gas" policy. Northern Border is making this tariff filing to be consistent with the Commission's policy findings as Docket No. CP95-218, *et al.* (Texas Eastern).

Northern Border states that copies of this filing have been sent to all of Northern Border's contracted shippers and interested state regulatory commissions.

Any person desiring to be heard or to protest said filing should file a motion to intervene or a protest with the
