Type of Request: Extension of a currently approved information collection.

Abstract: The primary objective of the Sugar Import Licensing Program is to permit entry of raw cane sugar exempt from the sugar tariff-rate quota for re-export in refined form or in a sugar containing product or for the production of certain polyhydric alcohols. These programs are in use by as many as 400 licensees currently eligible to participate. Under 7 CFR part 1530, licensees are required to submit the following: (1) "Application for a license" information required for participation as outlined in sections

The information collected is used by the licensing authority to manage, plan, evaluate and account for program activities. The reports and records are required to ensure the proper operation of these programs.

Respondents: Sugar refiners, manufacturers of sugar containing products and producers of polyhydric alcohol.

Estimated Number of Respondents: 250.
