Administration on Aging

Public Information Collection Requirement Submitted to the Office of Management and Budget for Clearance

AGENCY: Administration on Aging, HHS.

SUMMARY: The Administration on Aging (AoA), Department of Health and Human Services, in compliance with the Paperwork Reduction Act (Pub. L. 96-511), is submitting to the Office of Management and Budget for clearance and approval an information collection instrument, entitled Performance (Progress) Reports for Title IV Grantees.

Type of Request: Extension of currently approved collection.

Use: Consistent with 45 CFR part 74, subpart J, the AoA requires grantees funded under Title IV of the Older Americans Act to report on the performance of their projects. The report is used by the AoA to review and monitor the grantee's progress in achieving project objectives, to provide advice and assistance, and to take corrective action as necessary.

Frequency: Semiannual.

Respondent: Title IV grantees.

Estimated number of respondents: 199.

Estimated burden hours: 20 hours for each semiannual report.

Additional Information: Each progress report, typically five pages in length, is expected to cover the following subjects: recent major activities and accomplishments, problems encountered, significant findings and events, dissemination activities, and activities planned for the next 6 months.

OMB Comment: A comment is best assured of having its full effect if OMB receives it as soon as possible after its publication. Written comments and recommendations for the proposed information collection should be sent to the following address within 30 days of the publication of this notice: Office of Information and Regulatory Affairs, Attention: Allison Herron Eydt, AoA Desk Officer, Office of Management and Budget, Washington, DC 20503.

Dated: June 28, 2001.
Norman L. Thompson,
Acting Principal Deputy Assistant Secretary for Aging.

Proposed Data Collections Submitted for Public Comment and Recommendations

In compliance with the requirement of Section 3506(c)(2)(A) of the Paperwork Reduction Act of 1995 for opportunity for public comment on proposed data collection projects, the Centers for Disease Control and Prevention (CDC) will publish periodic summaries of proposed projects. To request more information on the proposed projects or to obtain a copy of

the data collection plans and instruments, call the CDC Reports Clearance Officer on (404) 639-7090. Comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency's estimate of the burden of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology. Send comments to Anne O'Connor, CDC Assistant Reports Clearance Officer, 1600 Clifton Road, MS-D24, Atlanta, GA 30333. Written comments should be received within 60 days of this notice.

Proposed Project
Youth Risk Behavior Survey (YRBS) Methodological Study—New—National Center for Chronic Disease Prevention and Health Promotion (NCCDPHP), Centers for Disease Control and Prevention, (CDC). The purpose of this request is to obtain OMB clearance to conduct a methodological study in the Spring of 2002 to assess the contributions of question wording, questionnaire context, and appeals for honesty on prevalence and, thereby, to provide methodological guidance for future surveys, especially surveys of adolescents. In 2000, the Office of the

Assistant Secretary for Planning and Evaluation (ASPE) commissioned five expert papers written on the topic "Examining Substance Abuse Data Collection Methodologies." The papers focused on the YRBS, the National Household Survey of Drug Abuse (NHSDA), and Monitoring the Future (MTF). A consensus among the authors was that disparate results across the studies are most likely a product of methodological differences across the surveys. This YRBS Methodological Study is designed to measure the effect of several critical aspects of the data collection protocol: (1) Question wording, (2) questionnaire context, (3) appeals for honesty, and (4) students' perception of their honesty and accuracy. Approximately 100 students in 40 high schools will be given one of four questionnaires. Elucidation of the impact of these factors on prevalence will assist in reducing response effects and improving the quality of the YRBS data.

The total estimated cost to student respondents is \$15,750, which is calculated in terms of their time spent in responding to the survey and is based on an assumed minimum wage of \$5.25/hour for the 2001-2002 school year. The total estimated cost to school administrators is \$1,400 which is calculated in terms of their time spent in recruitment and is based on an assumed average hourly rate of \$34. Thus, the total costs to respondents, based on the costs of their time, are \$17,150.

(RCA) and Refugee Medical Assistance (RMA).

To meet the need for reliable State estimates of anticipated expenses, ORR has developed a single-page form in which States estimate the average number of recipients for each category of assistance, the average unit cost over the next 12 months, and the expense for the overall administration of the program. This form, the ORR-1 must be submitted prior to the beginning of each Federal fiscal year. Without this information, ORR would be out of compliance with the intent of its legislation and otherwise unable to estimate program costs adequately.

In addition, the ORR-1 serves as the State's application for reimbursement of

Respondents	Number of respondents	Number of responses per respondents	Burden per response (in hrs.)	Total burden hours
High school student	4,000	1	45/60	3,000
School administrators	80	1	30/60	40

Submission for OMB Review; Comment Request

Title: Refugee Resettlement Program Estimates: CMA.

OMB No.: 0970-0030.
Description: ORR reimburses, to the extent of available appropriations, certain non-Federal costs for the provision of cash and medical assistance to refugees, along with allowable expenses in the administration of the Refugee Resettlement Program. ORR needs sound State estimates of likely expenditures for refugee cash, medical, and administrative (CMA) expenditures so that it can anticipate Federal costs in upcoming quarters. If Federal costs are anticipated to exceed budget allocations, ORR must take steps to reduce Federal expenses, such as limiting the number of months of eligibility for Refugee Cash Assistance
