

will not receive copies of all documents filed by other parties or issued by the Commission (except for the mailing of environmental documents issued by the Commission) and will not have the right to seek court review of the Commission's final order.

The Commission may issue a preliminary determination on non-environmental issues prior to the completion of its review of the environmental aspects of the project. This preliminary determination typically considers such issues as the need for the project and its economic effect on existing customers of the applicant, on other pipelines in the area, and on landowners and communities. For example, the Commission considers the extent to which the applicant may need to exercise eminent domain to obtain rights-of-way for the proposed project and balances that against the non-environmental benefits to be provided by the project. Therefore, if a person has comments on community and landowner impacts from this proposal, it is important either to file comments or to intervene as early in the process as possible.

Comments, protests and interventions may be filed electronically via the Internet in lieu of paper. See, 18 CFR 385.2001(a)(1)(iii) and the instructions on the Commission's web site at <http://www.ferc.gov> under the link to the User's Guide. If you have not yet established an account, you will need to create a new account by clicking on "Login to file" and then "New User Account."

If the Commission decides to set the application for a formal hearing before an Administrative Law Judge, the Commission will issue another notice describing that process. At the end of the Commission's review process, a final Commission order approving or denying a certificate will be issued.

Secretary.

TransColorado Gas Transmission Company; Notice of Compliance Filing

July 2, 2001.

Take notice that on June 28, 2001, TransColorado Gas Transmission Company (TransColorado) tendered for filing as part of its FERC Gas Tariff, Original Volume No. 1, Substitute Second Revised Sheet No. 206B, to be effective June 18, 2001.

TransColorado states that the filing is being made in compliance with the

Commission's June 14, 2001, order in Docket No. RP01-419-000.

On May 15, 2001, TransColorado filed revised tariff sheets (the May 15 filing) to change the tariff references from its Direct Access Request and Tracking System (DART) to a more standardized name of "Interactive Website." The Commission accepted and suspended the tariff sheets to December 1, 2001, or earlier, subject to refund and subject to TransColorado providing clarification and making a correction to a tariff sheet that still contained a reference to the DART system, which was removed and submitted in this filing.

In addition to the corrected tariff sheet, TransColorado provided an explanation for the deletion of Sections 2.1(b) (vii) and (viii), Discount Request Processing and Regulatory Reporting, respectively, proposed in the May 15, filing. TransColorado stated that both of these provisions and reporting formerly conducted on the DART system are now handled on its web site and that no changes are being made to TransColorado's conduct of business and procedures.

TransColorado states that a copy of this filing has been served upon TransColorado's customers, the Colorado Public Utilities Commission and New Mexico Public Utilities Commission.

Any person desiring to protest said filing should file a request with the Federal Energy Regulatory Commission, 888 First Street, NE., Washington, DC 20426, in accordance with Section 385.211 of the Commission's Rules and Regulations. All such protests must be filed in accordance with Section 154.210 of the Commission's Regulations.
