SUPPLEMENTARY INFORMATION:

Description of the SBDC Program

A partnership exists between SBA and an SBDC. SBDCs offer training, counseling and other business development assistance to small businesses. Each SBDC provides services under a negotiated Cooperative Agreement with SBA, the general management and oversight of SBA, and a state plan initially approved by the Governor. Non-Federal funds must match Federal funds. An SBDC must operate according to law, the Cooperative Agreement, SBA's regulations, the annual Program Announcement, and program guidance.

Program Objectives

The SBDC program uses Federal funds to leverage the resources of states, academic institutions and the private sector to:

- (a) Strengthen the small business community;
- (b) Increase economic growth;
- (c) Assist more small businesses; and
- (d) Broaden the delivery system to more small businesses.

SBDC Program Organization

The lead SBDC operates a statewide or regional network of SBDC service centers. An SBDC must have a full-time Director. SBDCs must use at least 80 percent of the Federal funds to provide services to small businesses. SBDCs use volunteers and other low cost resources as much as possible.

SBDC Services

An SBDC must have a full range of business development and technical assistance services in its area of operations, depending upon local needs, SBA priorities and SBDC program

objectives. Services include training and counseling to existing and prospective small business owners in management, marketing, finance, operations, planning, taxes, and any other general or technical area of assistance that supports small business growth.

The SBA district office and the SBDC must agree upon the specific mix of services. They should give particular attention to SBA's priority and special emphasis groups, including veterans, women, exporters, the disabled, and minorities.

SBDC Program Requirements

An SBDC must meet programmatic and financial requirements imposed by statute, regulations or its Cooperative Agreement. The SBDC must:

- (a) locate service centers so that they are as accessible as possible to small businesses;
- (b) open all service centers at least 40 hours per week, or during the normal business hours of its state or academic Host Organization, throughout the year;
- (c) develop working relationships with financial institutions, the investment community, professional associations, private consultants and small business groups; and
- (d) maintain lists of private consultants at each service center.

Dated: July 2, 2001.

**OFFICE OF THE UNITED STATES
TRADE REPRESENTATIVE**

**Trade Policy Staff Committee;
Generalized System of Preferences
(GSP); Notice of the Results of the
2001 GSP Reviews and Designation of
Georgia**

AGENCY: Office of the United States
Trade Representative.

ACTION: Notice of GSP changes.

SUMMARY: This notice announces recent changes in the GSP program, including the disposition of the 2001 De Minimis Waiver and Redesignation Reviews, termination of GSP eligibility for products that exceeded the GSP competitive need limitations (CNLs), and the designation of Georgia as beneficiary developing country.

FOR FURTHER INFORMATION CONTACT: GSP Subcommittee, Office of the United States Trade Representative, 600 17th Street, NW., Room 518, Washington, DC 20508. The telephone number is (202) 395-6971.

SUPPLEMENTARY INFORMATION: The GSP program is provided for in Title V of the Trade Act of 1974, as amended (19 U.S.C. 2461-2465). Each year, the Trade Policy Staff Committee conducts a review to consider changes in the GSP program. In the 2001 De Minimis Waiver and Redesignation Reviews, the appraised import values during 2000 of each GSP-eligible article were reviewed to determine whether particular articles from particular GSP beneficiary developing countries exceeded the 2000 GSP CNLs.

The President's decisions concerning the GSP changes summarized in this notice are reflected in a proclamation issued on June 29, 2001. Unless otherwise specified, the changes in the GSP program summarized in this notice are effective with respect to goods entered on or after July 1, 2001.

The President granted waivers of the CNLs to India for several articles. These articles are listed in Annex I to this notice. The effective date of these waivers will be determined by the USTR.

The President redesignated certain countries' GSP eligibility for certain articles that had previously exceeded the applicable GSP CNLs, but which fell below the CNLs in 2000 (\$95 million or 50 percent of total U.S. imports of the article). These countries and articles are listed in Annex II to this notice.

The President granted de minimis waivers to certain countries for certain articles that exceeded the 50 percent import share CNL, but for which the aggregate appraised value of the imports of that article was below the 2000 de minimis level of \$15 million. These countries and articles are listed in Annex III to this notice.

The President terminated certain countries' GSP eligibility for certain articles that exceeded the GSP CNLs in 2000. These countries and articles are listed in Annex IV to this notice.

The President designated Georgia as beneficiary developing country.
